Research Methodology and Data Analysis Second Edition - Zainudin Awang
2012

This book provides proper direction in doing research especially towards the understanding of research objectives, and research

hypotheses. The book also guides in research methodology such as the methods of designing a questionnaire, methods of sampling, methods of data collection and methods of data analysis. The data analysis covers data mining, descriptive

analysis, factor analysis, and reliability analysis. Besides this, the book assesses the normality distribution of data since this is crucial in determining the types of statistical analysis to be employed. More importantly, the book offers guide in analysing the correlational effects, causal effects, mediator effects and also the moderator effect among variables in a model.

International Conference on Science, Technology and Social Sciences (ICSTSS) 2012 -

Azman Kasim 2014-11-23

This biannual conference in Pahang, Malaysia, is a clearing house for many of the latest research findings in a highly multidisciplinary field. The contributions span a host of academic disciplines which are themselves rapidly evolving, making this collection of 90 selected papers an invaluable snapshot of an arena of pure and applied science that produces many versatile innovations. The book covers a multitude of topics ranging from the sciences (pure and applied) to technology (computing and engineering), and on to social science disciplines such as business, education, and linguistics. The papers have been carefully chosen to represent the leading edge of the current research effort, and come from individuals and teams working right around the globe. They are a trusted point of reference for academicians and students intending to pursue higher-

order research projects in relevant fields, and form a major contribution to the international exchange of ideas and strategies in the various technological and social science disciplines. It is the sheer scope of this volume that ensures its relevance in a scientific climate with a marked trend towards disciplinary synthesis.

Digital reference services in academic libraries - Wan Ab Kadir Wan Dollah 2012
Digital Reference Services in Academic Libraries presents the background of DRS, evolution of DRS, the concept of DRS, emerging models of

DRS, benefits and limitation of DRS, personalized services, trends and challenges, technological developments, evaluation and guidelines, effectiveness and DRS in academic libraries. The case study examined the existing status of digital reference services (DRS) in four selected public academic libraries in Malaysia. Focused is given on the awareness, usage, users' perception, users' satisfaction, library's performance, and looked at the perceived needs, issues and problems faced by librarians and students. The study is important to determine how academic librarians are exploiting the latest information and communication technologies to improve reference service operations. Recommendations are made on the need for the implementation of synchronous DRS, enhancing the role of DRS, marketing and promotion, staff training, user education programmes and cooperation. The main contribution of this book is the assessment of effectiveness of DRS in

academic libraries in Malaysia, the identification of perceived needs, issues and problems and suggestions on the areas of improvement in the use of DRS. In the process, a conceptual model for the effectiveness of the implementation of DRS in academic libraries in Malaysia is presented. The author also proposes directions for future research in the area of DRS.

DESIGN-DECODED 2021 - Juaini Jamaludin 2022-03-25

It is a pleasure to welcome you to the proceedings of the 2nd International Conference on Design Industries and Creative Culture (Design Decoded 2021) which has been organised by the College of Creative Arts (previously renown as Faculty of Art & Design), Universiti Teknologi MARA, Kedah Branch. Design Decoded 2021 analysed and discussed how art, design and education may have an influence, create a societal difference, and contribute to the economy, as well as how we think, live, work and learn. The main topic of this proceeding was “Decrypt Your Visual Creativity” which consisted of 65 articles about design thinking, interior design, art and design management, industrial design, education in design creativity and innovation, sustainable art and design, visual communication, new media, graphic and digital media, visual culture, design practice, art history, art and

creative community, and methodology in design creativity. We are truly thanking you to our four keynote speakers Emeritus Prof. Dr. T.W. Allan Whitfield, Prof. Dr. Khairul Aidil Azlin Abdul Rahman, Dr. Nurul 'Ayn Ahmad Sayuti and Mr. Firdaus Khalid for their constant support and guidance. Finally, we would like to express our heartfelt gratitude to all colleagues in the steering and organising committee for their cooperation in administering and organising the conference, as well as reviewers for their intellectual effort and dedication to reviewing papers.

Advances and Innovations in Systems, Computing Sciences and Software Engineering - Khaled Elleithy 2007-08-28

This book includes a set of rigorously reviewed world-class manuscripts addressing and detailing state-of-the-art research projects in the areas of Computing Sciences, Software Engineering and Systems. The book presents selected papers from the

conference proceedings of the International Conference on Systems, Computing Sciences and Software Engineering (SCSS 2006). All aspects of the conference were managed online.

Innovative Computing, Optimization and Its Applications - Ivan Zelinka
2017-11-20

This book presents the latest research of the field of optimization, modeling and algorithms, discussing the real-world application problems associated with new innovative methodologies. The requirements and demands of problem solving have been increasing exponentially and new computer science and engineering technologies have

reduced the scope of data coverage worldwide. The recent advances in information communication technology (ICT) have contributed to reducing the gaps in the coverage of domains around the globe. The book is a valuable reference work for researchers in the fields of computer science and engineering with a particular focus on modeling, simulation and optimization as well as for postgraduates, managers, economists and decision makers

New Trends in Intelligent Software Methodologies, Tools and Techniques - H. Fujita
2018-09-18

Knowledge-based systems, fully integrated with software, have become essential enablers for both science and commerce. But current software methodologies, tools and techniques are not robust or reliable enough for the demands of a constantly changing and evolving market, and many promising approaches have proved to be no more than case-oriented

methods that are not fully automated. This book presents the proceedings of the 17th international conference on New Trends in Intelligent Software Methodology, Tools and Techniques (SoMeT18) held in Granada, Spain, 26-28 September 2018. The SoMeT conferences provide a forum for the exchange of ideas and experience, foster new directions in software development methodologies and related tools and techniques, and focus on exploring innovations, controversies, and the current challenges facing the software engineering community. The 80 selected papers included here are divided into 13 chapters, and cover subjects as diverse as intelligent software systems; medical informatics and bioinformatics; artificial intelligence techniques; social learning software and sentiment analysis; cognitive systems and neural analytics; and security, among other things. Offering a state-of-the-art overview of methodologies, tools and techniques, this book

will be of interest to all those whose work involves the development or application of software.

Regional Conference on Science, Technology and Social Sciences (RCSTSS 2016) - Nor Azizah Yacob
2018-05-26

This book gathers selected theoretical and applied science papers presented at the 2016 Regional Conference of Sciences, Technology and Social Sciences (RCSTSS 2016), organized biannually by the Universiti Teknologi MARA Pahang, Malaysia. Addressing a broad range of topics, including architecture, computer science, engineering, environmental and management, furniture, forestry, health and medicine, material science, mathematics, plantation and agrotechnology, sports science and statistics, the book serves as an essential platform for disseminating research findings, and inspires positive innovations in the region's development. The carefully reviewed papers in this volume present work by

researchers of local, regional and global prominence. Taken together, they offer a valuable reference guide and point of departure for all academics and students who want to pursue further research in their respective fields.

Language Choice in Postcolonial Law - Richard Powell 2020-02-24

This book discusses multilingual postcolonial common law, focusing on Malaysia's efforts to shift the language of law from English to Malay, and weighing the pros and cons of planned language shift as a solution to language-based disadvantage before the law in jurisdictions where the majority of citizens lack proficiency in the traditional legal medium. Through analysis of legislation and policy documents, interviews with lawyers, law students and law lecturers, and observations of court proceedings and law lectures, the book reflects on what is entailed in changing the language of the law. It reviews the implications of societal bilingualism for postcolonial justice systems, and raises an important question for language planners to consider: if the language of the law is changed, what else about the law changes?

How to Become a U.S. Citizen:

The Immigration System - Peterson's 2011-07-01
Peterson's How to Become a U.S. Citizen: The Immigration System, part of Peterson's How to Become a U.S. Citizen, offers essential information to help navigate the U.S. Citizenship and Immigration Services (USCIS). It focuses on the objectives and goals of the U.S. immigration system as well as essential information about immigrant and nonimmigrant visas. A real-life example ("Emilia's Story") is provided to show what might actually be involved in the citizenship process, with sample filled-in forms that help explain the necessary steps toward becoming a U.S. citizen. Finally, a chapter on U.S. immigration laws details the Immigration and Nationality Act, the 1996 immigration laws, the 2001 Patriot Act, the Child Status Protection Act of 2002, and recommendations for obtaining legal assistance.

Dark Forces Changing Malaysia - Lim Teck Ghee and Murray Hunter

“Lim and Hunter’s prolific writings shed light on the resultant effects of macro and micro-policies that have shaped Malaysia. Their analyses touch especially on the key actors—individuals and organisations—that have played a catalytic role in misshaping the nation’s development. Both their opinions and reflections on the issues written here have their foundation in fundamental economics, and rightly so. Civilisational progress or regression can be seen to be closely aligned to the foundational economics of society. The end of the crisis and the dark forces will come. The question is only when and how and whether we, the people, can rise to save what is rightfully ours.” Siti Z Kasim

Lawyer and activist “Can Malaysia return to the nation-building principles our forefathers agreed to—constitutional monarchy, separation of powers, rule of law, democracy, good governance and a plural society? Lim and Hunter have grappled with these issues which will decide the future of Malaysia.” Lim Kit Siang MP for Iskandar Puteri and former leader of the opposition “Lim and Hunter take on the daunting task of unravelling the complexities of the Malaysian journey since independence. They have dared to touch on all the issues that really matter which have been bullied out of the public space for being ‘sensitive’ and therefore off-limits to any reasonable discussion. Yet discuss them we must. Through the years, Malaysia, or rather her politicians, have woven a tangled web of power, race, religion and corruption that seems impenetrable. These power dynamics have brought us to our current sorry state. This book helps us to take that

crucial first step of looking at ourselves honestly and critically. If we can all put the nation first and do just that, we have a chance of the Malaysia we dreamed of. This book is essential reading for all Malaysians who believe this is yet possible.” Ambiga Sreenevasan Lawyer and human rights advocate

7th International Conference on University Learning and Teaching (InCULT 2014) Proceedings

- Chan Yuen Fook 2015-12-30
The book comprises papers presented at the 7th International Conference on University Learning and Teaching (InCULT) 2014, which was hosted by the Asian Centre for Research on University Learning and Teaching (ACRULeT) located at the Faculty of Education, Universiti Teknologi MARA, Shah Alam, Malaysia. It was co-hosted by the University of Hertfordshire, UK; the University of South Australia; the University of Ohio, USA; Taylor’s University, Malaysia and the Training Academy for

Higher Education (AKEPT), Ministry of Education, Malaysia. A total of 165 papers were presented by speakers from around the world based on the theme “Educate to Innovate in the 21st Century.” The papers in this timely book cover the latest developments, issues and concerns in the field of teaching and learning and provide a valuable reference resource on university teaching and learning for lecturers, educators, researchers and policy makers.

ISMINA 2021 - Anggit Wicaksono 2021-10-19

We are delighted to introduce the proceedings of the 5th International Conference on Sports, Health, and Physical Education (ISMINA 2021) with the theme “Transformation on Sports, Health and Physical Education Facing the Global Pandemic”. This conference has brought researchers, educators and practitioners around the world. The 5th ISMINA 2021 Proceedings contains 75 articles. Consisting of 35 sports-themed articles, 25 health-themed articles, and

15 physical education-themed articles. The 5th ISMINA 2021 collaborates with ICSSPE, APPORI and several leading Indonesian universities in the fields of physical education, sports, and health education. The 5th ISMINA 2021 aims to gather all knowledge and transformation to face the global pandemic in the fields of physical education, health, and sports. Finally, we would like to express our gratitude and appreciation for all committee and the reviewers who helped us maintain the high quality of manuscripts included in the proceedings published by EUDL. Also, we are thankful to all the authors who submitted papers, because of which the conference became a story of success.

Basic Anaesthesia

Handbook - Nadia Hanom
Ishak 2020-11-24

Basic Anesthesia Handbook is a core anaesthesia knowledge packed in a nutshell for a quick grasp and fast read on the important facts of perioperative anaesthesia management primarily

designed for medical students. It also provides a concise and comprehensive knowledge of the basic principle of anaesthesia for doctors who are in their early exposure of the specialty and those who intend to pursue this field as their future professional career. The contents of the handbook are clearly highlighted in point forms and reinforced with diagrams, figures, graphs, tables, flowcharts and mnemonics. Description of the subjects is presented in a systematic manner using simple language that is easily understood. This handbook serves as one of the references in anaesthesia, hence prior basic knowledge on anatomy, physiology and pharmacology is still essential to appreciate the true beauty anaesthesia.

Science, Technology and Social Sciences (RCSTSS 2014) - Mohd Amlil Abdullah
2016-07-29

This book features more than 95 papers that were presented at the bi-annual Regional Conference on Science, Technology and Social Sciences, RCSTSS 2014, which was organized by Universiti Teknologi MARA Pahang. It covers topics ranging from communications studies, politics, psychology, education, religious studies as well as business and economics. The papers, which have been carefully reviewed, include research conducted by academicians locally, regionally and globally. They detail invaluable insights on the important roles played by the various disciplines in science, technology and social sciences. Coverage includes accounting, art and design, business, communication, economics, education, finance, humanity, information management, marketing, music, religion, social sciences and tourism. Throughout, clear

illustrations, figures and diagrams complement the research. The book is a significant point of reference to academicians and students who want to pursue further research in their respective fields. It also serves as a platform to disseminate research findings as a catalyst to bring out positive innovations on the development of the region.

Strategies For Academic Writing - Hajibah Osman
101-01-01

This book focuses on writing strategies required for theses and academic reports. It is intended for research students particularly those at the post-graduate level who are at the writing stage of their study. The book is structured into chapters according to the generic structure of a thesis and examples are taken from six PhD theses representing the areas of humanities, social sciences, and science and technology. Excerpts are extracted from each chapter of the sample theses in its attempt to provide authentic

examples. Emphasis is given to the use of textual strategies in writing the chapters based on the communicative purposes of each chapter.

Envisioning the Future of Online Learning - Johan Eddy Luaran 2016-06-10

This book shares insights into the various ways technology can be used for educational purposes, utilizing an approach suitable for both novice and advanced practitioners in this niche area. It features selected papers presented at the

International Conference on e-Learning 2015 (ICeL 2015), where professionals discussed how technology can not only serve as a tool in the classroom, but as the classroom itself. As the title “Envisioning the Future of Online Learning” suggests, this book showcases current best practices in the field of e-learning, where technology has been leveraged to re-engineer the landscape of education, particularly in the context of Malaysia.
