The Oxford Handbook of Indigenous American Literature - James H. Cox
2014-07-31

Over the course of the last twenty years, Native American and Indigenous American literary studies has experienced a dramatic shift from a critical focus on identity and authenticity to the intellectual, cultural, political, historical, and tribal nation contexts from which these Indigenous literatures emerge. The Oxford Handbook of Indigenous American Literature reflects on these changes and provides a complete overview of the current state of the field. The Handbook's forty-three essays, organized into four sections, cover oral traditions, poetry, drama, non-fiction, fiction, and other forms of Indigenous American writing from the seventeenth through the twenty-first century. Part I attends to literary histories across a range of communities, providing, for example, analyses of Inuit, Chicana/o, Anishinaabe, and Métis literary practices. Part II draws on earlier disciplinary and historical contexts to focus on specific genres, as authors discuss Indigenous non-fiction, emergent trans-Indigenous autobiography, Mexicanoh and Spanish poetry, Native drama in the U.S. and Canada, and even a new Indigenous children's literature canon. The third section delves into contemporary modes of critical inquiry to expound on politics of place, comparative Indigenism, trans-Indigenism, Native rhetoric, and the power of Indigenous writing to communities of readers. A final section thoroughly explores the geographical breadth and expanded definition of Indigenous American

through detailed accounts of literature from Indian Territory, the Red Atlantic, the far North, Yucatán, Amerika Samoa, and Francophone Quebec. Together, the volume is the most comprehensive and expansive critical handbook of Indigenous American literatures published to date. It is the first to fully take into account the last twenty years of recovery and scholarship, and the first to most significantly address the diverse range of texts, secondary archives, writing traditions, literary histories, geographic and political contexts, and critical discourses in the field.

Conserving Words - Daniel J. Philippon 2005

Conserving Words looks at five authors of seminal works of nature writing who also founded or revitalized important environmental organizations: Theodore Roosevelt and the Boone and Crockett Club, Mabel Osgood Wright and the National Audubon Society, John Muir and the Sierra Club, Aldo Leopold and the Wilderness Society, and Edward Abbey and Earth First! These writers used powerfully evocative and galvanizing metaphors for nature, metaphors that Daniel J. Philippon calls "conserving" words: frontier (Roosevelt), garden (Wright), park (Muir), wilderness (Leopold), and utopia (Abbey). Integrating literature, history, biography, and philosophy, this ambitious study explores how "conserving" words enabled narratives to convey environmental values as they explained how human beings should interact with the nonhuman world.

Shamans/neo-Shamans - Robert J. Wallis 2003

Robert J. Wallis explores the interface between the 'new' and prehistoric shamans of popular culture and anthropology, drawing on interviews with a variety of practitioners, particularly contemporary pagans in Britain and north America.

Black Arts West - Daniel Widener 2009-01-01

From postwar efforts to end discrimination in the motion-picture industry, recording studios, and musicians' unions, through the development of community-based arts organizations, to the creation of searing films critiquing conditions in the black working class neighborhoods of a city touting its multiculturalism—Black Arts West documents the social and political significance of African American arts activity in Los Angeles between the Second World War and the riots of 1992. Focusing on the lives and work of black writers, visual artists, musicians, and filmmakers, Daniel Widener tells how black cultural politics changed over time, and how altered political realities generated new forms of artistic and cultural expression. His narrative is filled with figures invested in the politics of black art and culture in postwar Los Angeles, including not only African American artists but also black nationalists, affluent liberal whites, elected officials, and federal bureaucrats. Along with the politicization of black culture, Widener explores the rise of a distinctive regional Black Arts Movement. Originating in the efforts of wartime cultural activists, the movement was rooted in the black working class and characterized by struggles for artistic autonomy and improved living and working conditions for local black artists. As new ideas concerning art, racial identity, and the institutional position of African American artists emerged, dozens of new collectives appeared, from the Watts Writers Workshop, to the Inner City Cultural Center, to the New Art Jazz Ensemble. Spread across generations of artists, the Black Arts Movement in Southern California was more than the artistic affiliate of the local civil-rights or black-power efforts: it was a social movement itself. Illuminating the fundamental connections between expressive culture and political struggle, Black Arts West is a major contribution to the histories of Los Angeles, black radicalism, and avant-garde art.

Speaking Chicana - Delma Letticia Galindo 1999

Previous studies in the fields of applied linguistics, sociolinguistics, and gender studies have focused upon Chicano linguistic communities as a monolith or have focused entirely upon male-centered aspects of language use, leaving a tremendous gap in works about Chicanas, for Chicanas, and by Chicanas as they pertain to language-related issues. *Speaking Chicana* bridges that gap, offering for the first time an extensive examination of language issues among Chicanas. Flowing throughout this collection of essays are themes of empowerment and suppression of voice. Combining empirical studies and personal narratives in the form of testimonios, the editors expand the boundaries of linguistic study to include disciplines such as art, law, women's studies, and literature. The result is a multifaceted approach to the study of Chicana speech—none that provides a significant survey of the literature on Chicanas and language production. Ten contributors—from linguistic to lawyer, from poet to art historian—discuss language varieties and attitudes; bilinguality; codeswitching; cultural identity and language; language in literature and art; taboo language; and legal discourse. *Speaking Chicana* celebrates the complexity and diversity of linguistic contexts and influences reflected in Chicana speech. Various essays explore the speech of rural women; the evolution of linguistic forces over time; the influence of U.S. public education; linguistic dilemmas encountered by literary authors and women in the legal profession; and language used by pachucas and pintas. *Speaking Chicana* represents a significant contribution, not only to sociolinguistics, but also to other fields, including women's studies, Chicana/o studies, anthropology, and cultural studies. Pronouns in Literature - Alison Gibbons 2018-01-04

This edited collection brings together an international, interdisciplinary group of scholars who together offer cutting-edge insights into the complex roles, functions, and effects of pronouns in literary texts. The book engages with a range of text-types, including poetry, drama, and prose from different periods and regions, in English and in translation. Beginning with analyses of the first-person pronoun, it moves onto studies of the subject dynamics of first- and second-person, before considering plural modes of narration and how pronoun use can help to disperse narrative perspective. The volume then debates the functional constraints of pronouns in fictional contexts and finally reflects upon the theoretical advancements presented in the collection. This innovative volume will appeal to students and scholars of linguistics, stylistics and cognitive poetics, narratology, theoretical and applied linguistics, psychology and literary criticism.

A People and a Nation - Jennifer Adese 2021-02-15

In *A People and a Nation*, the authors, most of whom are Métis, offer readers a set of lenses through which to consider the complexity of historical and contemporary Métis nationhood and peoplehood. The field of Métis Studies has been afflicted by a longstanding tendency to situate Métis within deeply racialized contexts, and/or by an overwhelming focus

on the nineteenth century. This volume challenges the pervasive racialization of Métis studies with multidisciplinary chapters on identity, history, politics, literature, spirituality, religion, and kinship networks, reorienting the conversation toward Métis experiences today.

Language, Culture, and Communication - Nancy Bonvillain, Bard College at Simon's Rock 2019-03-22

Using data from cultures and languages throughout the world to highlight both similarities and differences in human languages, *Language, Culture and Communication*, Eight Edition, explores the many interconnections among language, culture, and communicative meaning. *Twentieth-Century and Contemporary American Literature in Context [4 volumes]* - Linda De Roche 2021-06-30

This four-volume reference work surveys American literature from the early 20th century to the present day, featuring a diverse range of American works and authors and an expansive selection of primary source materials. Bringing useful and engaging material into the classroom, this four-volume set covers more than a century of American literary history—from 1900 to the present. *Twentieth-Century and Contemporary American Literature in Context* profiles authors and their works and provides overviews of literary movements and genres through which readers will understand the historical, cultural, and political contexts that have shaped American writing. *Twentieth-Century and Contemporary American Literature in Context* provides wide coverage of authors, works, genres, and movements that are emblematic of the diversity of modern America. Not only are major literary movements represented, such as the Beats, but this work also highlights the emergence and development of modern Native American literature, African American literature, and other representative groups that showcase the diversity of American letters. A rich selection of primary documents and background material provides indispensable information for student research. Covers significant authors, as well as those neglected by history, and their works from major historical and cultural periods of the last century, including authors writing today. Situates authors' works not only within their own canon but also with the

historical and cultural context of the U.S. more broadly Positions primary documents after specific authors or works, allowing readers to read excerpts critically in light of the entries Examines literary movements, forms, and genres that also pay special attention to multi-ethnic and women writers

Where the Red-Winged Blackbirds Sing - Jennifer Bess 2021-04-01

Where the Red-Winged Blackbirds Sing examines the ways in which the Akimel O'odham ("River People") and their ancestors, the Huhugam, adapted to economic, political, and environmental constraints imposed by federal Indian policy, the Indian Bureau, and an encroaching settler population in Arizona's Gila River Valley. Fundamental to O'odham resilience was their connection to their sense of peoplehood and their himdag ("lifeway"), which culminated in the restoration of their water rights and a revitalization of their Indigenous culture. Author Jennifer Bess examines the Akimel O'odham's worldview, which links their origins with a responsibility to farm the Gila River Valley and to honor their history of adaptation and obligations as "world-builders"—co-creators of an evermore life-sustaining environment and participants in flexible networks of economic exchange. Bess considers this worldview in context of the Huhugam-Akimel O'odham agricultural economy over more than a thousand years. Drawing directly on Akimel O'odham traditional ecological knowledge, innovations, and interpretive strategies in archives and interviews, Bess shows how the Akimel O'odham engaged in agricultural economy for the sake of their lifeways, collective identity, enduring future, and actualization of the values modeled in their sacred stories. Where the Red-Winged Blackbirds Sing highlights the values of adaptation, innovation, and co-creation fundamental to Akimel O'odham lifeways and chronicles the contributions the Akimel O'odham have made to American history and to the history of agriculture. The book will be of interest to scholars of Indigenous, American Southwestern, and agricultural history.

Speak to Me Words - Dean Rader 2003-11-01

Although American Indian poetry is widely read and discussed, few resources have been available that focus on it critically. This book is the

first collection of essays on the genre, bringing poetry out from under the shadow of fiction in the study of Native American literature. Speak to Me Words is a stimulating blend of classic articles and original pieces that reflect the energy of modern American Indian literary studies.

Highlighting various aspects of poetry written by American Indians since the 1960s, it is a wide-ranging collection that balances the insights of Natives and non-Natives, men and women, old and new voices. Included here are such landmark articles as "Answering the Deer" by Paula Gunn Allen, "Herbs of Healing" by Carter Revard, and "Song, Poetry and Language—Expression and Perception" by Simon Ortiz—all pieces that have shaped how we think about Native poetry. Among the contributions appearing for the first time are Elaine Jahner writing on Paula Gunn Allen's use of formal structures; Robert Nelson addressing pan-Indian tropes of emergence, survival, return, and renewal; and Janet McAdams focusing on Carter Revard's "angled mirrors." Although many Native writers may disregard distinctions between genres, together these writings help readers see the difference between American Indian poetry and other forms of Native literature. These essays are as broad, encompassing, and provocative as Native poetry itself, branching off from and weaving back into one another. In showing how American Indian poetry redefines our social order and articulates how Indian communities think about themselves, these writers establish a new foundation for the study—and enjoyment—of this vital art.

Historical Dictionary of Shamanism - Graham Harvey 2007-02-05

Few religious traditions have generated such diversity and stirred imaginations as shamanism. In their engagements with other worlds, shamans have conversed with animals and ancestors and have been empowered with the knowledge to heal patients, advise hunters, and curse enemies. Still other shamans, aided by rhythmic music or powerful plant helpers, undertake journeys into different realities where their actions negotiate harmony between human and other than human communities. Once relegated to paintings on cave walls, today Shamanism can be seen in performances at rave clubs and psychotherapeutic clinics. The Historical Dictionary of Shamanism has

the dual task of exploring the common ground of shamanic traditions and evaluating the diversity of both traditional indigenous communities and individual Western seekers. This is done in an introduction, a bibliography, a chronology, and hundreds of cross-referenced dictionary entries, which explore the consistent features of a variety of shamans, the purposes shamanism serves, the function and activities of the shaman, and the cultural contexts in which they make sense.

New Essays in Political and Social Philosophy - Ellen Frankel Paul
2013-08-30

Whether it is a result of nature, the consequence of a choice to escape the state of nature, or the outcome of some other process of deliberation, the fact of human association gives rise to recurrent themes in political and social philosophy. The character and requirements of justice, the profile of political legitimacy, and the relationship between the powers of government and the rights of the governed are some of the subjects of ongoing consideration and debate in the disciplines of philosophy, political theory, economics, and law. This volume represents a contribution to the investigation of these issues of perennial interest and import, featuring essays whose authors hope to extend, deepen, and, in some cases, move in new directions, the current state of discussion.

Desert Spirit Places - Brad Karelius 2018-12-19

The iconic landscape of the American Southwest reveals the luminescent Mitten rock formations, looming rock arches, and vast sagebrush oceans made vivid and memorable by writer Tony Hillerman, artist Georgia O'Keefe, and director John Ford. Native American Women - Gretchen M. Bataille 2003-12-16

Containing biographical sketches of approximately 270 Native American women, this book shows the many important roles they occupy in both contemporary and traditional culture. Arranged alphabetically, entries describe the contributions of Native women in fields like law, medicine,

art, and education. Appendixes list entries by areas of specialization, decades of birth, state or province, and tribal affiliation. A selected bibliography is also included.

Pathologies of Power - Paul Farmer 2005

"Pathologies of Power" uses harrowing stories of life and death to argue that the promotion of social and economic rights of the poor is the most important human rights struggle of our times.

Wielding Words like Weapons - Ward Churchill 2017-04-15

Wielding Words like Weapons is a collection of acclaimed American Indian Movement activist-intellectual Ward Churchill's essays in indigenism, selected from material written during the decade 1995-2005. It includes a range of formats, from sharply framed book reviews and equally pointed polemics and op-eds to more formal essays designed to reach both scholarly and popular audiences. The selection also represents the broad range of topics addressed in Churchill's scholarship, including the fallacies of archeological and anthropological orthodoxy such as the insistence of "cannibologists" that American Indians were traditionally man-eaters, Hollywood's cinematic degradations of native people, questions of American Indian identity, the historical and ongoing genocide of North America's native peoples, and the systematic distortion of the political and legal history of U.S.-Indian relations. Less typical of Churchill's oeuvre are the essays commemorating Cherokee anthropologist Robert K. Thomas and Yankton Sioux legal scholar and theologian Vine Deloria Jr. More unusual still is his profoundly personal effort to come to grips with the life and death of his late wife, Leah Renae Kelly, thereby illuminating in very human terms the grim and lasting effects of Canada's residential schools upon the country's indigenous peoples. A foreword by Seneca historian Barbara Alice Mann describes the sustained efforts by police and intelligence agencies as well as university administrators and other academic adversaries to discredit or otherwise "neutralize" both the man and his work. Also included are both the initial "stream-of-consciousness" version of Churchill's famous—or notorious—"little Eichmanns" opinion piece analyzing the causes of the attacks on 9/11, as well as the

counterpart essay in which his argument was fully developed.

The Power of Silence - Colum Kenny 2018-03-21

This book demonstrates that silence is eloquent, powerful, beautiful and even dangerous. It surrounds and permeates our daily lives. Drawing on a wide range of cross-cultural, literary and historical sources, the author explores the uses and abuses of silence. He explains how silence is not associated with solitude alone but has a much broader value within society. The main themes of The Power of Silence are positive and negative uses of silence, and the various ways in which silence has been understood culturally, socially and spiritually. The book's objectives are to equip people with a better appreciation of the value of silence and to enable them to explore its benefits and uses more easily for themselves.

Reworking Race - Moon-Kie Jung 2010-02-26

In the middle decades of the twentieth century, Hawai'i changed rapidly from a conservative oligarchy firmly controlled by a Euro-American elite to arguably the most progressive part of the United States. Spearheading the shift were tens of thousands of sugar, pineapple, and dock workers who challenged their powerful employers by joining the left-led International Longshoremen and Warehousemen's Union. In this theoretically innovative study, Moon-Kie Jung explains how Filipinos, Japanese, Portuguese, and others overcame entrenched racial divisions and successfully mobilized a mass working-class movement. He overturns the unquestioned assumption that this interracial effort traded racial politics for class politics. Instead, the movement "reworked race" by incorporating and rearticulating racial meanings and practices into a new ideology of class. Through its groundbreaking historical analysis, Reworking Race radically rethinks interracial politics in theory and practice.

The Palgrave Handbook of the Southern Gothic - Susan Castillo

Street 2016-07-26

This book examines 'Southern Gothic' - a term that describes some of the finest works of the American Imagination. But what do 'Southern' and 'Gothic' mean, and how are they related? Traditionally seen as drawing on the tragedy of slavery and loss, 'Southern Gothic' is now a richer, more complex subject. Thirty-five distinguished scholars explore the Southern Gothic, under the categories of Poe and his Legacy; Space and Place; Race; Gender and Sexuality; and Monsters and Voodoo. The essays examine slavery and the laws that supported it, and stories of slaves who rebelled and those who escaped. Also present are the often-neglected issues of the Native American presence in the South, socioeconomic class, the distinctions among the several regions of the South, same-sex relationships, and norms of gendered behaviour. This handbook covers not only iconic figures of Southern literature but also other less well-known writers, and examines gothic imagery in film and in contemporary television programmes such as True Blood and True Detective.

The Abstract Wild - Jack Turner 1996-09-01

If anything is endangered in America it is our experience of wild nature—gross contact. There is knowledge only the wild can give us, knowledge specific to it, knowledge specific to the experience of it. These are its gifts to us. How wild is wilderness and how wild are our experiences in it, asks Jack Turner in the pages of *The Abstract Wild*. His answer: not very wild. National parks and even so-called wilderness areas fall far short of offering the primal, mystic connection possible in wild places. And this is so, Turner avows, because any managed land, never mind what it's called, ceases to be wild. Moreover, what little wildness we have left is fast being destroyed by the very systems designed to preserve it. Natural resource managers, conservation biologists, environmental economists, park rangers, zoo directors, and environmental activists: Turner's new book takes aim at these and all others who labor in the name of preservation. He argues for a new conservation ethic that focuses less on preserving things and more on preserving process and "leaving things be." He takes off after zoos and wilderness tourism with a vengeance, and he cautions us to resist language that calls a tree "a resource" and wilderness "a management unit." Eloquent and fast-paced, *The Abstract Wild* takes a long view to ask whether ecosystem management isn't "a bit of a sham" and the control of grizzlies and wolves "at best a travesty." Next, the author might bring his readers up-close for a look at pelicans, mountain lions, or Shamu the whale. From whatever angle, Turner stirs into his arguments the words of dozens of other American writers including Thoreau, Hemingway, Faulkner, and environmentalist Doug Peacock. We hunger for a kind of experience deep enough to change our selves, our form of life, writes Turner. Readers who take his words to heart will find, if not their selves, their perspectives on the natural world recast in ways that are hard to ignore and harder to forget.

Southern Pacific Bulletin - 1924

Indigenous Peoples' Wisdom and Power - Julian E Kunnie 2017-05-15
Capturing the narratives of indigenes, this book presents a unique anthology on global Indigenous peoples' wisdoms and ways of knowing. Covering issues of religion, cultural self-determination, philosophy, spirituality, sacred sites, oppression, gender and the suppressed voices of women, the diverse global contexts across Africa, Asia, the Middle East, North and South America, and Oceania are highlighted. The contributions represent heart-felt expressions of Indigenous peoples from various contexts - their triumphs and struggles, their gains and losses, their reflections on the past, present, and future - telling their accounts in their own voices. Opening new vistas for understanding historical ancient knowledge, preserved and practiced by Indigenous people for millennia, this innovative anthology illuminates areas of philosophy, science, medicine, health, architecture, and botany to reveal knowledge suppressed by Western academic studies.

The A to Z of Shamanism - Graham Harvey 2010-04-01

The A to Z of Shamanism has the dual task of exploring the common ground of shamanic traditions and evaluating the diversity of both traditional indigenous communities and individual Western seekers. The Columbia Guide to American Indian Literatures of the United States Since 1945 - Eric Cheyfitz 2006

The Columbia Guide to American Indian Literatures of the United States Since 1945 is the first major volume of its kind to focus on Native literatures in a postcolonial context. Written by a team of noted Native and non-Native scholars, these essays consider the complex social and political influences that have shaped American Indian literatures in the

second half of the twentieth century, with particular emphasis on core themes of identity, sovereignty, and land. In his essay comprising part I of the volume, Eric Cheyfitz argues persuasively for the necessary conjunction of Indian literatures and federal Indian law from Apses to Alexie. Part II is a comprehensive survey of five genres of literature: fiction (Arnold Krupat and Michael Elliott), poetry (Kimberly Blaeser), drama (Shari Huhndorf), nonfiction (David Murray), and autobiography (Kendall Johnson), and discusses the work of Vine Deloria Jr., N. Scott Momaday, Joy Harjo, Simon Ortiz, Louise Erdrich, Leslie Marmon Silko, Gerald Vizenor, Jimmy Santiago Baca, and Sherman Alexie, among many others. Drawing on historical and theoretical frameworks, the contributors examine how American Indian writers and critics have responded to major developments in American Indian life and how recent trends in Native writing build upon and integrate traditional modes of storytelling. Sure to be considered a groundbreaking contribution to the field, *The Columbia Guide to American Indian Literatures of the United States Since 1945* offers both a rich critique of history and a wealth of new information and insight.

Desert Indian Woman - Frances Manuel 2001-10-01

Basket weaver, storyteller, and tribal elder, Frances Manuel is a living preserver of Tohono O'odham culture. Speaking in her own words from the heart of the Arizona desert, she now shares the story of her life. She tells of O'odham culture and society, and of the fortunes and misfortunes of Native Americans in the southwestern borderlands over the past century. In *Desert Indian Woman*, Frances relates her life and her stories with the wit, humor, and insight that have endeared her to family and friends. She tells of her early childhood growing up in a mesquite brush house, her training in tribal traditions, her acquaintance with Mexican ways, and her education in an American boarding school. Through her recollections of births and deaths, heartache and happiness, we learn of her family's migration from the reservation to the barrios and back again. In the details of her everyday life, we see how Frances has navigated between O'odham and American societies, always keeping her grandparents' traditional teachings as her compass. It is extraordinary to

hear from a Native American woman like Frances, in her own words and her own point of view, to enter the complex and sensitive aspects of her life experience, her sorrows, and her dreams. We also become privy to her continuing search for her identity across the border, and the ways in which Frances and Deborah have attempted to make sense of their friendship over twenty-odd years. Throughout the book, Deborah captures the rhythms of Frances's narrative style, conveying the connectedness of her dreams, songs, and legends with everyday life, bringing images and people from faraway times and places into the present. Deborah Neff brings a breadth of experience in anthropology and Southwest Native American cultures to the task of placing Frances Manuel's life in its broader historical context, illuminating how history works itself out in people's everyday lives. *Desert Indian Woman* is the story of an individual life lived well and a major contribution to the understanding of history from a Native American point of view.

Native Studies Keywords - Stephanie Nohelani Teves 2015-05-21
Native Studies Keywords explores selected concepts in Native studies and the words commonly used to describe them, words whose meanings have been insufficiently examined. This edited volume focuses on the following eight concepts: sovereignty, land, indigeneity, nation, blood, tradition, colonialism, and indigenous knowledge. Each section includes three or four essays and provides definitions, meanings, and significance to the concept, lending a historical, social, and political context. Take sovereignty, for example. The word has served as the battle cry for social justice in Indian Country. But what is the meaning of sovereignty? Native peoples with diverse political beliefs all might say they support sovereignty—without understanding fully the meaning and implications packed in the word. The field of Native studies is filled with many such words whose meanings are presumed, rather than articulated or debated. Consequently, the foundational terms within Native studies always have multiple and conflicting meanings. These terms carry the colonial baggage that has accrued from centuries of contested words. *Native Studies Keywords* is a genealogical project that looks at the history of words that claim to have no history. It is the first book to

examine the foundational concepts of Native American studies, offering multiple perspectives and opening a critical new conversation.

Writing in Dust - Jenny Kerber 2011-03-17

Writing in Dust is the first sustained study of prairie Canadian literature from an ecocritical perspective. Drawing on recent scholarship in environmental theory and criticism, Jenny Kerber considers the ways in

which prairie writers have negotiated processes of ecological and cultural change in the region from the early twentieth century to the present. The book begins by proposing that current environmental problems in the prairie region can be understood by examining the longstanding tendency to describe its diverse terrain in dualistic terms—either as an idyllic natural space or as an irredeemable wasteland. It inquires into the sources of stories that naturalize ecological prosperity and hardship and investigates how such narratives have been deployed from the period of colonial settlement to the present. It then considers the ways in which works by both canonical and more recent writers ranging from Robert Stead, W.O. Mitchell, and Margaret Laurence to Tim Lilburn, Louise Halfe, and Thomas King consistently challenge these dualistic landscape myths, proposing alternatives for the development of more ecologically just and sustainable relationships among people and between humans and their physical environments. *Writing in Dust* asserts that “reading environmentally” can help us to better understand a host of issues facing prairie inhabitants today, including the environmental impacts of industrial agriculture, resource extraction, climate change, shifting urban-rural demographics, the significance of Indigenous understandings of human-nature relationships, and the complex, often contradictory meanings of eco-cultural metaphors of alien/invasiveness, hybridity, and wildness.

The Oxford Handbook of Twentieth-Century American Literature - Leslie Bow 2022-09-08

An essential and field-defining resource, this volume brings fresh approaches to major US novels, poetry, and performance literature of the twentieth century. With sections on 'structures', 'movements', 'attachments', and 'imaginaries', this handbook brings a new set of tools and perspectives to the rich and diverse traditions of American literary production. The editors have turned to leading as well as up-and-coming scholars in the field to foreground methodological concerns that assess the challenges of transnational perspectives, critical race and indigenous studies, disability and care studies, environmental criticism, affect studies, gender analysis, media and sound studies, and other cutting-

edge approaches. The 20 original chapters include the discussion of working-class literature, border narratives, children's literature, novels

of late-capitalism, nuclear poetry, fantasies of whiteness, and Native American, African American, Asian American, and Latinx creative texts.
