*Earthworks* - Brian W. Aldiss 2014-04-01

War is humanity's only hope. "Aldiss' dark vision of collapsing society and withering earth is poignant and brutal . . . [a] richly detailed world" (Science Fiction Ruminations). In a future where the Earth has been savaged by overpopulation and over-farming, robots are considered more valuable than humans and sand must be altered to create artificially fertile soil. Ex-convict Knowle Noland, the hallucinating sea captain of the Trieste Star, finds himself wrapped up in a plot to incite a global war that will wipe out millions. War, it seems, is the only way to drastically reduce the population and create a better world for those who survive.

**Myths to Live By** - Joseph Campbell 2017-05-23

Discover Myth "There's no one quite like Joseph Campbell. He knows the vast sweep of man's panoramic past as few men have ever known it." --The Village Voice Joseph Campbell famously compared mythology to a kangaroo pouch for the human mind and spirit: "a womb with a view." In *Myths to Live By*, he examines all of the ways in which myth supports and guides us, giving our lives meaning. Love and war, science and religion, East and West, inner space and outer space — Campbell shows how the myths we live by can reconcile all of these pairs of opposites and bring a sense of the whole. This classic has been newly illustrated and annotated in its first new edition since its original publication, which also marks the first ebook in the *Collected Works of Joseph Campbell* series. In the tradition of *The Power of Myth* and *Pathways to Bliss*, *Myths to Live By* remains one of Joseph Campbell's most enduring, popular, and accessible works.

**When Heaven Invades Earth** - Bill Johnson 2010-03-24

"This book is a faith builder. It challenges every believer to walk in supernatural signs and wonders as a

natural part of everyday life." -John Arnott; Anyone can walk in the miraculous-even you! If you've ever wanted to live and walk in the supernatural power of God, here's your chance! It is truly possible for human people to walk in the divine, and Christ came to show us the way. It is by rediscovering our true identity in Him that we can begin to move into the promises of God regarding the miraculous. Bill Johnson not only teaches the supernatural, he imparts it by changing the way we think. If you are not walking in the miraculous, you're living far below your birthright! By laying a carefully constructed biblical foundation for walking in the supernatural power of God, *When Heaven Invades Earth* provides all the equipment you need to experience miracles every day.

Then you can: Know what spiritual warfare is and is not Take back what Satan has stolen Receive healing Break free from entrenched sins and habits Release others from spiritual bondage The enemy seeks to conquer and destroy your spirit, soul, and body! Yet the devil has far less power than God has given to us. *A Divine Revelation of Spiritual Warfare* reveals the enemy's strategies and equips you to engage in spiritual battles—and win. Find out how you can participate in Christ's victory over the enemy right now and live a victorious life!

*Hannah Arendt's Theory of Political Action* - Trevor Tchir 2017-05-20

This book presents an account of Hannah Arendt's performative and non-sovereign theory of freedom and political action, with special focus on action's disclosure of the unique 'who' of each agent. It aims to illuminate Arendt's critique of sovereign rule, totalitarianism, and world-alienation, her defense of a distinct political sphere for engaged citizen action and judgment, her conception of the 'right to have rights,' and her rejection of teleological philosophies of history. Arendt proposes that in modern, pluralistic, secular public spheres, no one metaphysical or religious idea can authoritatively validate political actions or opinions absolutely. At the same time, she sees action and thinking as revealing an inescapable existential illusion of a divine element in human beings, a notion represented well by the 'daimon' metaphor that appears in Arendt's own work and in key works by Plato, Heidegger, Jaspers, and Kant, with which she engages. While providing a post-metaphysical theory of action and judgment, Arendt performs the fact that many of the legitimating concepts of contemporary secular politics retain a residual vocabulary of transcendence. This book will be of interest not only to Arendt scholars, but also to students of identity politics, the critique of sovereignty, international political theory, political theology, and the philosophy of history.

*A Divine Revelation of Satan's Deceptions* - Mary K. Baxter 2015-06-15

In 1976, Jesus took Mary K. Baxter on a spiritual journey for thirty nights to witness the torments of hell, charging her to reveal the terrible reality of God's judgment and to relate the urgent message of salvation through Jesus Christ. Mary wrote about her journey to hell in her best-selling book *A Divine Revelation of Hell*, which has sold more than 1.3 million copies. After those thirty nights, Jesus told Mary, "I will close up your mind, and you will not remember some of the things I have shown and told you. But I will reopen your mind and bring back your understanding in the latter days. Then I will open up your remembrance...." Recently, God has brought back to Mary's remembrance many of those experiences because these revelations are particularly for our day. *A Divine Revelation of Satan's Deceptions* contains new images of hell that Mary has not related in her other books, as well as crucial insights into the deceptions Satan uses to destroy people and the tactics he employs to defeat believers. God has given His people anointings, gifts, and resources to build His kingdom that Satan has stolen and is holding captive in hell. This book reveals how we can use various "keys to the kingdom" to restore these blessings and to destroy the powers of darkness. Our choice is between allowing Satan to deceive and rob us—or claiming our spiritual inheritance and conquering the enemy in the power of God.

*Phenomenology of Plurality* - Sophie Loidolt 2017-09-22

Winner of the 2018 Edwin Ballard Prize awarded by the Center for Advanced Research in Phenomenology This book develops a unique phenomenology of plurality by introducing Hannah Arendt's work into current debates taking place in the phenomenological tradition. Loidolt offers a systematic treatment of plurality that unites the fields of phenomenology, political theory, social ontology, and Arendt studies to offer new perspectives on key concepts such as intersubjectivity, selfhood, personhood, sociality, community, and conceptions of the "we." *Phenomenology of Plurality* is an in-depth, phenomenological analysis of Arendt that represents a viable third way between the "modernist" and "postmodernist" camps in Arendt scholarship. It also introduces a number of political and ethical insights that can be drawn from a phenomenology of plurality. This book will appeal to scholars interested in the topics of plurality and intersubjectivity within phenomenology, existentialism, political philosophy, ethics, and feminist philosophy.

*Systematic Theology* - Wolfhart Pannenberg 1991

The publication of Volume 3 of German theologian Wolfhart Pannenberg's *Systematic Theology* completes the English edition of a work that will surely come to stand as one of the lasting theological statements of the twentieth century.

*Spectacular Shakespeare* - Courtney Lehmann 2002

*Spectacular Shakespeare* includes an introduction, nine essays, and an afterword that all address the spectacle of Shakespeare in recent Hollywood films. The essays approach the Shakespeare-as-star phenomenon from various perspectives, some applauding the popularization of the Bard, others critically questioning the appropriation of Shakespeare in contemporary mass culture.

*Engendering Democracy in Brazil* - Sonia E. Alvarez 2021-05-11

Brazil has the tragic distinction of having endured the longest military-authoritarian regime in South America. Yet the country is distinctive for another reason: in the 1970s and 1980s it witnessed the emergence and development of perhaps the largest, most diverse, most radical, and most successful women's movement in contemporary Latin America. This book tells the compelling story of the rise of progressive women's movements amidst the climate of political repression and economic crisis enveloping Brazil in the 1970s, and it devotes particular attention to the gender politics of the final stages of regime transition in the 1980s. Situating Brazil in a comparative theoretical framework, the author analyzes the relationship between nonrevolutionary political change and changes in women's consciousness and mobilization. Her engaging analysis of the potentialities for promoting social justice and transforming relations of inequality for women and men in Latin America and elsewhere in the Third World makes this book essential reading for all students and teachers of Latin American politics, comparative social movements and public policy, and women's studies and feminist political theory.

*Interpretive Social Science* - Paul Rabinow 1987

Essays on the subject of social science

*Between Women* - Judith Rollins 1985

*Between Women* is the result of forty in-depth interviews, interviews enhanced by the author's own

experience as a domestic worker for ten employers in the greater Boston area. The reader is quickly drawn into the world of domestic workers as the author allows the women to speak for themselves whenever possible. Clearly relevant to labor studies, women's studies and black studies, at its essence this book is a study of the social psychology of relationships of domination. Yet, while focusing on these relationships, the author never loses sight of the larger social structure and how it affects and is affected by employer-domestic dyads. The opening chapter provides an overview of domestic service in the Western tradition, most notably a detailed history of servitude in the South and northeastern United States, with brief attention to a few non-Western locales. Then, what follows is a description of the conditions of work--the physical labor, hours, compensation, and problems--with the focus on the women and the major dynamics of their relationships. Unlike many works on domination, this book gives as much attention to the effects on the minds and lives of the employers as it does to the effects on the domestics. And it is this exploration, in particular--of the demands, reactions, preferences and perceptions of employers--that reveals how this labor arrangement functions ideologically as well as materially to support the class, gender and racial hierarchies of this country. Author note: Judith Rollins is Assistant Professor of Sociology at Simmons College in Boston.

**A Pedagogy for Liberation** - Ira Shor 1987

Two world renowned educators, Paulo Freire and Ira Shor, speak passionately about the role of education in various cultural and political arenas. They demonstrate the effectiveness of dialogue in action as a practical means by which teachers and students can become active participants in the learning process. In a lively exchange, the authors illuminate the problems of the educational system in relation to those of the larger society and argue for the pressing need to transform the classroom in both Third and First World contexts. Shor and Freire illustrate the possibilities of transformation by describing their own experiences in liberating the classroom from its traditional constraints. They demonstrate how vital the teacher's role is in empowering students to think critically about themselves and their relation, not only to the classroom, but to society. For those readers seeking a liberatory approach to education, these dialogues will be a revelation and a unique summary. For all those convinced of the need for transformation, this book shows the way.

*The Jews and the Expansion of Europe to the West, 1450-1800* - Paolo Bernardini 2001

"This impressive volume shows that the history of minorities - specifically that of a diaspora - can open up completely new perspectives on the 'great' questions and developments of general history." \* Zeitschrift für Geschichtswissenschaft "...this magnificent and much-needed volume ...is remarkably free, factual or interpretive." \* American Jewish History "The age-old tension between value-free history and history with a moral is implicit throughout this fine volume." \* The Jerusalem Report "A substantial contribution to the scholarship on Indian [Native-American]-European relations ...Specialists will find new nuggets to challenge existing interpretations, while readers new to the topic will find useful introductions and more detailed case studies that give some idea of the current issues under scholarly debate. All readers will experience the benefits of looking at one topic comparatively across vast amounts of space and time." \* Itinerario Jews and Judaism played a significant role in the history of the expansion of Europe to the west as well as in the history of the economic, social, and religious development of the New World. They played an important role in the discovery, colonization, and eventually exploitation of the resources of the New World. Alone among the European peoples who came to the Americas in the colonial period, Jews were dispersed

throughout the hemisphere; indeed, they were the only cohesive European ethnic or religious group that lived under both Catholic and Protestant regimes, which makes their study particularly fruitful from a comparative perspective. As distinguished from other religious or ethnic minorities, the Jewish struggle was not only against an overpowering and fierce nature but also against the political regimes that ruled over the various colonies of the Americas and often looked unfavorably upon the establishment and tleration of Jewish communities in their own territory. Jews managed to survive and occasionally to flourish against all odds, and their history in the Americas is one of the more fascinating chapters in the early modern history of European expansion. Paolo Bernardini was a Fellow of the Princeton Institute for Advanced Study and of the Royal Historical Society. Currently he is Resident Director of the Padova Program, Boston University. Norman Fiering is the author of two books that were awarded the Merle Curti Prize for Intellectual History by the Organization of American Historians and of numerous articles. Since 1983, he has been Director of the John Carter Brown Library at Brown University.

**Aesthetic Theory** - Theodor W. Adorno Adorno 2020-06-09

Perhaps the most important aesthetics of the twentieth century appears here newly translated, in English that is for the first time faithful to the intricately demanding language of the original German. The culmination of a lifetime of aesthetic investigation, *Aesthetic Theory* is Adorno's major work, a defense of modernism that is paradoxical in its defense of illusion. In it, Adorno takes up the problem of art in a day when "it goes without saying that nothing concerning art goes without saying." In the course of his discussion, Adorno revisits such concepts as the sublime, the ugly, and the beautiful, demonstrating that concepts such as these are reservoirs of human experience. These experiences ultimately underlie aesthetics, for in Adorno's formulation "art is the sedimented history of human misery." Robert Hullot-Kentor's translation painstakingly, yet fluently, reproduces the nuances and particularities of the original. Long awaited and significant, *Aesthetic Theory* is the clarifying lens through which the whole of Adorno's work is best viewed, providing a framework within which his other major writings cohere.

*Theology of Revelation* - Rene Latourelle 2009-11-01

For fruitful discussion within the Church, for a meaningful dialogue with other Christians, for the renewal of the theology of preaching--for these and many other reasons, we need a new understanding of the nature of revelation. The usual apologetical treatment of revelation, bent on proving its existence, touches but the fringe of the reality. Our day and age needs a theology of revelation which probes the nature, depths and dimensions of the mystery. Father Latourelle's study is a significant contribution in this unfurrowed field, and may well be recognized as a landmark for years to come. His treatment of scriptural data on the notion of revelation is grounded on the advances of twentieth century exegesis. He admirably handles the multifaceted Old Testament notion of revelation; and his detailed study of the Synoptics, Acts, Paul, and John heightens the point that the Old Testament's revelation foreshadowed the New, and the New is only intelligible against the background of the Old. His summary of the patristic idea of revelation is erudite and stimulating, and probes the thoughts of twenty writers from the Apostolic Fathers to Augustine. The richness of patristic insight contrasts sharply with later theological studies of the nature of revelation. His study of the theological thought of the scholastic and neo-scholastic schools is critical and informative. Their approach culminated in overstressing the apologetical aspects of revelation--a course which modern theology is abandoning to re-discover a theology of revelation that is Christ-centered, Scriptural, historical and interpersonal. In treating of the magisterium, the author presents a splendid analysis of official documents from Trent to Vatican II, and his summary underscores the point that the Church documents present a view of revelation that closely resembles that of the biblical and patristic sources. The author's personal reflections enable us to view many aspects of revelation in a new light. He draws on the insights of modern linguistics to give a new dimension to revelation's traditional definition, locutio Dei. He elucidates the point that revelation is neither event alone nor word alone--its structure is sacramental and consists of

events interpreted by word . . . In dealing with preaching, miracles and other themes, Father Latourelle combines wide erudition and lucidity, and his work stands as a major contribution to modern theological thought.

**Prevention of Armed Conflict** - United Nations 2002

This report by the UN Secretary-General reviews the progress made in developing the conflict prevention capacity of the UN. It also presents recommendations for further policy development in this field, with the active support and co-operation of member states. The report finds that a general consensus is emerging that coherent conflict prevention strategies offer the greatest potential for promoting lasting peace and

creating an enabling environment for sustainable development.

*Mapping the Mind* - Rita Carter 1999

Covers the multiple functions of the complex human brain, providing graphics and simple terminology and sidebars written by experts in the field of brain mapping.

*Kant and Kierkegaard on Religion* - D. Phillips 2016-04-30

The contributions of leading Kantian and Kierkegaardian scholars to this collection break down to the simplistic contrast in which Kant is seen as the advocate of a rational moral theology and Kierkegaard as the advocate of an irrationalist faith. This collection is an ideal text for discussion of central issues.
