takes place in France, Italy and islands in the Mediterranean during the historical events of 1815-1838. It begins from just before the Hundred Days period (when Napoleon returned to power after his exile) and spans through to the reign of Louis-Philippe of France. The historical setting is a fundamental element of the book. An adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. In addition, it is a story that involves romance, loyalty, betrayal and selfishness, shown throughout the story as characters slowly reveal their true inner nature. The book is considered a literary classic today. According to Luc Sante, "The Count of Monte Cristo has

become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood."

Rizal in Switzerland - Jose A. Fadul 2013-12-06

Jose Rizal heard about the beauty of Switzerland when he was still in the Philippines as a boy. Then in May of 1887 in Germany, at the age of 25, when the opportunity came for

him to travel around Europe with his compatriot-friend Maximo Viola, Rizal did not hesitate to include several weeks in Switzerland in their itinerary. Rizal took account of spending his 26th birthday (June 19) in that country. In fact, Rizal and Viola visited five Swiss cantons: Schaffhausen, Basel, Berne, Lausanne and Geneva in June of that year to learn more about the glorious history of the Swiss people, and find a way to ignite the passion of Filipinos against foreign domination and oppression.

The Reign of Greed - José Rizal 1912

Classic story of the last days of Spanish rule in the Philippines.

El Folk-lore Filipino - Isabelo de los Reyes y Florentino 2010

This volume includes folkloric material collected from de los Reyes' native province of Ilocos Sur, Zambales, and Malabon.

El Filibusterismo - José Rizal 1968

José Rizal has a good claim to being the first Asian nationalist. An extremely talented Malay born a hundred

years ago in a small town near Manila, educated partly in the Philippines and partly in Europe, Rizal inspired the Filipinos by his writing and example to make the first nationalist revolution in Asia in 1896. Today the Philippines revere Rizal as their national hero, and they regard his two books, *The Lost Eden* (*Noli Me Tangere*) and *The Subversive* (*El Filibusterismo*) as the gospel of their nationalism. The *Subversive*, first published in 1891, is strikingly timely today. New nations emerging in Africa and Asia are once again in conflict with their former colonial masters, as were the Filipinos with their Spanish rulers in Rizal's day. The *Subversive* poses questions about colonialism which are still being asked today: does a "civilizing mission" justify subjection of a people? Should a colony aim at assimilation or independence? If independence, should it be by peaceful evolution or force of arms? Despite the seriousness of its theme, however, *The Subversive* is more than a

political novel. It is a romantic, witty, satirical portrait of Spanish colonial rule in the Philippines at the end of the nineteenth century, written in the tradition of the great adventure romances. The translation by Leon Ma. Guerrero, Philippine ambassador to the Court of St. James, conveys the immediacy of the original, and makes this important work available to a new generation of readers. His translation of *The Lost Eden* is also available in the Norton Library.

Council of the Gods - Jose Fadul 2010-05-26

A fresh translation of Jose Rizal's 1879 allegorical play, *El Consejo de los Dioses* to contemporary English. With plenty of illustrations and annotations, revealing Rizal's showy side as Hispanist and classicist, as he creatively brought to life Homer, Virgil, and Cervantes. Included are Fadul's short but insightful biographies of Miguel Cervantes and Jose Rizal.

Under Three Flags - Benedict Richard O'Gorman Anderson

2005

In this sparkling new work, Benedict Anderson provides a radical recasting of themes from *Imagined Communities*, his classic book on nationalism, through an exploration of fin-de-siecle politics and culture that spans the Caribbean, Imperial Europe and the South China Sea. A jewelled pomegranate packed with nitroglycerine is primed to blow away Manila's 19th-century colonial elite at the climax of *El Filibusterismo*, whose author, the great political novelist Jose Rizal, was executed in 1896 by the Spanish authorities in the Philippines at the age of 35. Anderson explores the impact of avant-garde European literature and politics on Rizal and his contemporary, the pioneering folklorist Isabelo de los Reyes, who was imprisoned in Manila after the violent uprisings of 1896 and later incarcerated, together with Catalan anarchists, in the prison fortress of Montjuich in Barcelona. On his return to the Philippines, by now under

American occupation, Isabelo formed the first militant trade unions under the influence of Malatesta and Bakunin. Anderson considers the complex intellectual interactions of these young Filipinos with the new "science" of anthropology in Germany and Austro-Hungary, and with post-Communist experimentalists in Paris, against a background of militant anarchism in Spain, France, Italy and the Americas, Jose Marti's armed uprising in Cuba and anti-imperialist protests in China and Japan. In doing so, he depicts the dense intertwining of anarchist internationalism and radical anti-colonialism. Under Three Flags is a brilliantly original work on the explosive history of national independence and global politics.

Imagined Communities - Benedict Anderson 2006-11-17
The definitive, bestselling book on the origins of nationalism, and the processes that have shaped it. *Imagined Communities*, Benedict Anderson's brilliant book on

nationalism, forged a new field of study when it first appeared in 1983. Since then it has sold over a quarter of a million copies and is widely considered the most important book on the subject. In this greatly anticipated revised edition, Anderson updates and elaborates on the core question: what makes people live and die for nations, as well as hate and kill in their name? Anderson examines the creation and global spread of the 'imagined communities' of nationality, and explores the processes that created these communities: the territorialization of religious faiths, the decline of antique kinship, the interaction between capitalism and print, the development of secular languages-of-state, and changing conceptions of time and space. He shows how an originary nationalism born in the Americas was adopted by popular movements in Europe, by imperialist powers, and by the movements of anti-imperialist resistance in Asia and Africa. In a new afterword,

Anderson examines the extraordinary influence of Imagined Communities, and the book's international publication and reception, from the end of the Cold War era to the present day.

Bibliography of the History of Medicine -

Political Analysis - Colin Hay
2017-03-14

Political Analysis provides an accessible and engaging yet original introduction and distinctive contribution, to the analysis of political structures, institutions, ideas and behaviours, and above all, to the political processes through which they are constantly made and remade. Following an innovative introduction to the main approaches and concepts in political analysis, the text focuses thematically on the key issues which currently concern and divide political analysts, including the boundaries of the political; the question of structure, agency and power; the dynamics of political change; the relative significance of ideas and

material factors; and the challenge posed by postmodernism which the author argues the discipline can strengthen itself by addressing without allowing it to become a recipe for paralysis.

The Impact of Music on Human Development and Well-Being - Michele Biasutti
2020-07-17

Music is one of the most universal ways of expression and communication in human life and is present in the everyday lives of people of all ages and from all cultures around the world. Music represents an enjoyable activity in and of itself, but its influence goes beyond simple amusement. Listening to music, singing, playing, composing and improvising, individually and collectively, are common activities for many people: these activities not only allow the expression of personal inner states and feelings, but also can bring many positive effects to those who engage in them. There is an increasing wealth of

literature concerning the wider benefits of musical activity, and research in the sciences associated with music suggests that there are many dimensions of human life (physical, social, psychological—including cognitive and emotional) which can be affected positively by music. The impact that musical activity has on human life can be found in different processes, including a transfer of learning from the musical to another cognitive domain. Abilities that have been developed through music education and training may also be effectively applied in other cognitive tasks. Engagement in successful music activity may also have a positive impact on social skills and social inclusion, thus supporting the participation of the individual in collective and collaborative musical events. The promotion of social participation through music can foster many kinds of inclusion, including intercultural, intergenerational, and support for those who are differently abled. The aim of this Research

Topic is to present a diverse range of original articles that investigate and discuss, in different ways, the crucial role that musical activity can play in human development and well-being.

Poisoning in the Modern World

- Ozgur Karcioğlu 2019-06-19

Over 400 years ago, Swiss alchemist and physician

Paracelsus (1493-1541) cited:

"All substances are poisons;

there is none that is not a

poison. The right dose

differentiates a poison from a

remedy." This is often

condensed to: "The dose makes

the poison." So, why are we

overtly anxious about

intoxications? In fact, poisons

became a global problem with

the industrial revolution.

Pesticides, asbestos,

occupational chemicals, air

pollution, and heavy metal

toxicity maintain high priority

worldwide, especially in

developing countries. Children

between 0 and 5 years old are

the most vulnerable to both

acute and chronic poisonings,

chemicals. This book aims to raise awareness about the challenges of poisons, to help clinicians understand current issues in toxicology.

The First Filipino - Leon Maria Guerrero 2020

The Age of Globalization - Benedict Anderson 2013-11-05
History is forged through the travel of ideas across continents—as well as by bombs. The Age of Globalization is an account of the unlikely connections that made up late nineteenth-century politics and culture, and in particular between militant anarchists in Europe and the Americas, and anti-imperialist uprisings in Cuba, China and Japan. Told through the complex intellectual interactions of two great Filipino writers—the political novelist José Rizal and the pioneering folklorist Isabelo de los Reyes—The Age of Globalization is a brilliantly original work on how global exchanges shaped the nationalist movements of the time.

The Spectre of Comparisons - Benedict Anderson 1998-09-17
A controversial collection from the author of the celebrated *Imagined Communities*. While Benedict Anderson is best known for his classic book on nationalism, *Imagined Communities*, many of his most telling and incisive interventions have been made in his essays. Those collected in this new book span a range of subjects: from Aquino's Philippines, where the horses on the haciendas ate better than the stable-hands, to political assassination in contemporary Thailand, where government posts have become so lucrative that to gain them candidates will kill their rivals. In these writing, the subtle imbrication of politics, national imaginings, bureaucracy, modernization and its agents (particularly print culture) is brought out in all its complexity and richness. "The spectre of comparisons" was a phrase used by the celebrated Filipino nationalist and novelist Jose Rizal (1861-96), whose work and fate in the national

imagination are discussed in these pages. In his finely wrought observations on Southeast Asian societies, Anderson raises deep questions concerning this spectre, about how, for instance, Manila is changed when it can no longer be seen through a comparison with European capitals, and how, more broadly, nationalism is produced by the process of increasing global connection. *The Spectre of Comparisons* is an indispensable resource for those interested in South-East Asia. But it also contains important theoretical and historical considerations about nationalism, national literature and memory, modernization, and the prospects for the Left in what Anderson dubs 'The New World Disorder'.

The Social Cancer - Jose Rizal
2009-06-01

Filipino national hero Jose Rizal wrote *The Social Cancer* in Berlin in 1887. Upon his return to his country, he was summoned to the palace by the Governor General because of the subversive ideas his book had inspired in the nation. Rizal wrote of his consequent persecution by the church: "My book made a lot of noise; everywhere, I am asked about it. They wanted to anathematize me ['to excommunicate me'] because of it ... I am considered a German spy, an agent of Bismarck, they say I am a Protestant, a freemason, a sorcerer, a damned soul and

evil. It is whispered that I want to draw plans, that I have a foreign passport and that I wander through the streets by night ..."

The Military and Democracy in Indonesia - Angel Rabasa
2002-12-13

The military is one of the few institutions that cut across the divides of Indonesian society. As it continues to play a critical part in determining Indonesia's future, the military itself is undergoing profound change.

The authors of this book examine the role of the military in politics and society since the fall of President Suharto in 1998. They present several strategic scenarios for Indonesia, which have important implications for U.S.-Indonesian relations, and propose goals for Indonesian military reform and elements of a U.S. engagement policy.
