**Lotus Europa - Colin Chapman's mid-engined masterpiece** - Matthew Vale  
2022-04-13

The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions

and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

*Bicycle Transportation* - John Forester 1994

This new edition of John Forester's handbook for transportation policy makers and bicycling advocates has been completely rewritten to reflect changes of the last decade. It includes new chapters on European bikeway engineering, city planning, integration with mass transit and long-distance carriers, "traffic calming," and the art of encouraging private-sector support for bicycle commuting. A professional engineer and an avid bicyclist, John Forester combined those interests in founding the discipline of cycling transportation engineering, which regards bicycling as a form of vehicular transportation equal to any other form of transportation.

Forester, who believes that riding a bicycle along streets with traffic is safer than pedaling on restricted bike paths and bike lanes, argues the case for cyclists' rights with zeal and with statistics based on experience, traffic studies, and roadway design standards. Over the nearly two decades since *Bicycle Transportation* was first published, he has brought about many changes in the national standards for highways, bikeways, bicycles, and traffic laws. His Effective Cycling Program continues to grow.

**John Deere Snowmobiles** - Ronald K. Leonard

2014-01-23

Long respected as a manufacturer of sturdy agricultural machinery, the John Deere Company

began in the 1960s to build a line of consumer products in a dedicated factory in Horicon, Wisconsin. Starting with a lawn and garden tractor in 1963, Deere soon entered the fast-growing snowmobile market, introducing two models in 1971. The next 13 years would see a succession of models as Deere vied against tough competitors in a weather-dependent market. This detailed history, written by two key participants in the snowmobile program, describes the development of John Deere snowmobiles from start to finish: the design and engineering decisions that shaped each important model; reception of the snowmobiles by consumers; the factory race teams; the introduction of front-engine and water-cooled models; the process of selecting engines and negotiating with suppliers, including when problems developed; and the snowmobiles' impact on product engineering. The text provides an inside view of Deere's Consumer Products Division at a time of rapid growth, and of the people and processes that made it all happen.

**Shifting Gears at 50** - Philip Buonpastore

2012-01-24

From the publishers of Motorcycle Consumer News, *Shifting Gears at 50* is a one-of-a-kind motorcycling manual for returning and late-entry riders, essentially anyone 40 years old and up who's looking to hit the road on two wheels. Author Philip Buonpastore, a motorcycle journalist and retired US Air Force photographer, helps readers gear up to get back on a motorcycle (or get on one for the first time). In Part 1, "Becoming a Motorcyclist," Buonpastore discusses the basics of buying the right bike, gear, and equipment and getting the bike up to speed. The book continues with a good overview of learning to ride, the importance of taking a road course, venturing out on the first ride, and extending rides to long-distance jaunts. Throughout Part 1 are sidebars by riding- safety instructor and expert Walt Fulton, offering sound advice on safety precautions and execution for every leg of the new and returning rider's journey. The author emphasizes what older riders should be aware of and which factors can affect their rides. Adding lots of great firsthand advice are humorous and helpful stories collected by the author and

related by returning riders at various ages, from their late 30s to 60s. In Part 2, Buonpastore shares five of his favorite travelogues covering his long-distance tours around the US, from the American South to the west coasts. This section is illustrated by over 100 of the author's breathtaking photographs of the various locations he toured on his bike. The foreword to

the book is provided by best-selling motorcycle author David Hough (author of I-5 Press's Proficient Motorcycling and Mastering the Ride). Hough writes, "If you're getting into today's motorcycling at an age your doctor would describe as 'middle aged' or 'senior,' do you yourself a clever favor and read Phil's book."
