Comparing Tort and Crime - Matthew Dyson 2015-07-02

The fields of tort and crime have much in common in practice, particularly in how they both try to respond to wrongs and regulate future behaviour. Despite this commonality in fact, fascinating difficulties have hitherto not been resolved about how legal systems co-ordinate (or leave wild) the border between tort and

crime. What is the purpose of tort law and criminal law, and how do you tell the difference between them? Do criminal lawyers and civil lawyers reason and argue in the same way? Are the rules on capacity, consent, fault, causation, secondary liability or defences the same in tort as in crime? How do the rules of procedure operate for each area? Are there points of overlap? When, how and why do tort and crime interact? This volume systematically answers these and other questions for eight legal systems: England, France, Germany, Sweden, Spain, Scotland, the Netherlands and Australia.

Elucidating Law - Julie Dickson 2022-05-12

What are the aims of legal philosophy? Which questions should it seek to address? How should legal philosophers approach and engage with their subject-matter, and what constraints are incumbent on them as they do so? What are the criteria of success of theories of law, and how do we know if they have been met? Can there be progress in legal philosophy? In *Elucidating Law*, Julie Dickson addresses these and other questions concerning the methodology, or the philosophy, of legal philosophy and offers her own distinctive response to them. The book advocates that legal philosophers should espouse an approach that Dickson terms 'Indirectly Evaluative Legal Philosophy.' This distinctive approach can facilitate legal philosophers' understanding of aspects of the nature of law, whilst avoiding prematurely or inappropriately regarding law as inherently morally valuable. Law is a powerful, systemic, and institutionalized social tool. It should be understood in a manner appropriate to its character.
