**Empire of Time (New Pompeii 2)** - Daniel Godfrey  
2017-06-20

For fifteen years, the Romans of New Pompeii have kept the outside world at bay with the threat of using the Novus Particles device to alter time. Yet Decimus Horatius Pullus—once Nick Houghton—knows the real reason the Romans don't use the device for their own ends: they can't make it work without grisly consequences. This fragile peace is threatened when an outsider promises to

help the Romans use the technology. And there are those beyond Pompeii's walls who are desperate to destroy a town where slavery flourishes. When his own name is found on an ancient artifact dug up at the real Pompeii, Nick knows that someone in the future has control of the device. The question is: whose side are they on?

National Geographic Traveler: Rome - Sari Gilbert 2009

### **The Epistle of Paul the Apostle to The Romans -**

Ruth Rendell 1999-01-01

Paul was the most influential figure in the early Christian church. In this epistle, written to the founders of the church in Rome, he sets out some of his ideas on the importance of faith in overcoming mankind's

innate sinfulness and in obtaining redemption. With an introduction by Ruth Rendell  
**Rome** - Matthew Kneale  
2019-05-28

“This magnificent love letter to Rome” (Stephen Greenblatt) tells the story of the Eternal City through pivotal moments that defined its history—from the early Roman Republic through the Renaissance and the Reformation to the German occupation in World War Two—“an erudite history that reads like a page-turner” (Maria Semple). Rome, the Eternal City. It is a hugely popular tourist destination with a rich history, famed for such sites as the Colosseum, the Forum, the Pantheon, St. Peter’s, and the Vatican. In no other city is history as present as it is in Rome. Today visitors can stand on bridges that Julius Caesar and Cicero crossed; walk around temples in the footsteps of emperors; visit churches from the earliest days of Christianity. This is all the more remarkable considering what the city has endured over the centuries. It has been

ravaged by fires, floods, earthquakes, and—most of all—by roving armies. These have invaded repeatedly, from ancient times to as recently as 1943. Many times Romans have shrugged off catastrophe and remade their city anew. “Matthew Kneale [is] one step ahead of most other Roman chroniclers” (The New York Times Book Review). He paints portraits of the city before seven pivotal assaults, describing what it looked like, felt like, smelled like and how Romans, both rich and poor, lived their everyday lives. He shows how the attacks transformed Rome—sometimes for the better. With drama and humor he brings to life the city of Augustus, of Michelangelo and Bernini, of Garibaldi and Mussolini, and of popes both saintly and very worldly. Rome is “exciting...gripping...a slow roller-coaster ride through the fortunes of a place deeply entangled in its past” (The Wall Street Journal).

Vesuvius destroyed Pompeii, the Roman Centurion Vitellian set off for the twenty-first century as Imperial Rome's last human-powered time machine. He killed an unfaithful lover by just letting her grow old, but her hate pursued him across seven centuries. In 1358 he stood with a few dozen knights against an army of nine thousand to defend the life of a beautiful countess...and earned a love that would conquer death. Now Vitellian has awakened in the twenty-first century, a bewildered fugitive, betrayed and hunted in a world where minds and bodies are swapped and memories are bought, sold, and read like books. But worst of all, a deadly enemy from the fourteenth century is still very much alive--and closing in. *Enslaved* - Virginia Henley  
2009-07-22

Where are all the real men?  
she wondered... For Lady  
Diana Davenport, they existed

only in her books and dreams. There she could lose herself, becoming the licentious Diana, goddess of the hunt--far from the rigid restraints of eighteenth-century London, where she was courted by fops and fools. That is, until she tried on an authentic Roman helmet in an antiques store and was catapulted back in time, landing in Marcus Magnus's arms. This was no dream! She was lost in Aquae Sulis, the city she knew as Bath, prisoner of a Roman general who accused the violet-eyed beauty of being a Druid spy--and then made her his slave! "COME TO ME." His words were soft, imperious, charged with danger and desire. Marcus Magnus was powerful, arrogant, and infuriating. A real man. And now Lady Diana was his slave, hostage to his will, vowing to fight him to the end--with every seductive weapon she possessed... Virginia Henley is the author of eight romances published by Dell, including the New York Times bestsellers *Seduced and Desired*. She divides her time between

**The Reach of Rome** - Alberto Angela 2013-10-15

In this unconventional and accessible history, Italian best-seller Alberto Angela literally follows the money to map the reach and power of the Roman Empire. To see a map of the Roman Empire at the height of its territorial expansion is to be struck by its size, stretching from Scotland to Kuwait, from the Sahara to the North Sea. What was life like in the Empire, and how were such diverse peoples and places united under one rule? The Reach of Rome explores these questions through an ingenious lens: the path of a single coin as it changes hands and traverses the vast realms of the empire in the year 115. Admired in his native Italy for his ability to bring history to life through narrative, Alberto Angela opens up the ancient world to readers who have felt intimidated by the category or put off by dry historical tomes. By focusing on aspects of daily life so often overlooked in more

academic treatments, The Reach of Rome travels back in time and shows us a world that was perhaps not very different from our own. And by following the path of a coin through the streams of commerce, we can touch every corner of that world and its people, from legionnaires and senators to prostitutes and slaves. Through lively and detailed vignettes all based on archeological and historical evidence, Angela reveals the vast Roman world and its remarkable modernity, and in so doing he reinforces the relevance of the ancient world for a new generation of readers.

*Diary of a Time Traveler* -

David Long 2015-10-01

Meet some of history's most illustrious and interesting characters in this book that visits key moments of the past from around the world. When young Augustus falls asleep in history class, Professor Tempo decides to teach him a lesson and show him that history isn't boring at all! She hands him a magic diary, all he needs to do is write the time and place to travel there. Together they head out on a whistle-stop tour of history through the ages to meet some of the world's finest explorers, inventors, leaders, writers, composers and painters, including Albert Einstein, Mozart, Louis XIV, Shakespeare, Leonardo Da Vinci, Christopher Columbus Genghis Khan, Emperor Titus in Rome, athletes at the very first Olympic Games,

Tutankhamen in Egypt, and even Palaeolithic man as he discovers fire. Each double page spread introduces a different time and place, with an introductory text from Augustus which explains the sights and sounds, and accompanying captions from the Professor which provide key facts. A character index at the rear gives a short biography of all the historical characters covered, and a timeline helps to contextualize the different time periods covered.

fundamentally shaped by its relationship to travel within the geography of Rome's far-reaching empire. The volume surveys Roman poetics of travel and geography in sources ranging from Plautus to Augustan poetry, from the Flavians to Ausonius. The chapters offer a range of approaches to: the complex relationship between Latin poetry, Roman identity, imperialism, and travel and geospatial narratives; and the diachronic and generic evolutions of poetic descriptions of space and mobility. In addition, two chapters, including the concluding one, contextualize and respond to the volume's discussion of poetry by looking at ways in which Romans not only write and read poems about travel and geography, but also make writing and reading part of the experience of traveling, as demonstrated in their epigraphic practices. The collection as a whole offers important insights into Roman poetics and into ancient notions of movement and

geographical space. Travel, Geography, and Empire in Latin Poetry will be of interest to specialists in Latin poetry, ancient travel, and Latin epigraphy as well as to those studying travel writing, geography, imperialism, and mobility in other periods. The chapters are written to be accessible to researchers, graduate students, and advanced undergraduates.

**The Last Roman** - Edward Crichton 2012-11-30

As war consumes the nations of our world in the year 2021, Navy SEAL Jacob Hunter is sent on a mission to Syria to apprehend a crazed terrorist leader armed with dangerous biological weapons. It's a routine mission for a man who has spent the entirety of his military career fighting in what many have dubbed World War III, but his life is about to become everything but predictable. As their mission unravels around them, Hunter discovers a curious trinket that belies all rationality and our understanding of the universe, but he is drawn to it

nonetheless, bewildered by its uniqueness. Unable to control his urges, Hunter touches it, and in a flash of brilliant light and intense pain, the team is no longer in contemporary Syria - but in Ancient Rome during the reign of the emperor Caligula. They stand dumbfounded, unable to comprehend the paradox they've created, but the bleak truth of reality soon overtakes their disbelief. The fact that they should not be there becomes obvious almost immediately, as does the thought that with every breath they take, everything history has worked so hard to achieve is at risk of unraveling. Staying alive suddenly becomes a secondary objective, superseded by the theory that their mere presence in Ancient Rome has caused irreparable damage to the timeline. This won't be an easy task for Hunter and his friends as they will quickly encounter numerous Roman figures straight from his old history books, each with their own agendas, schemes and

machinations, including the Caesar himself, who history remembers as little more than an insane tyrant who once tried to appoint his horse as the head of state...

**How It Began: A Time-Traveler's Guide to the Universe** - Chris Impey

2012-03-26

"Impey combines the vision of a practicing scientist with the voice of a gifted storyteller."—Dava Sobel In this vibrant, eye-opening tour of milestones in the history of our universe, Chris Impey guides us through space and time, leading us from the familiar sights of the night sky to the dazzlingly strange aftermath of the Big Bang. What if we could look into space and see not only our place in the universe but also how we came to be here? As it happens, we can. Because it takes time for light to travel, we see more and more distant regions of the universe as they were in the successively greater past. Impey uses this concept—"look-back time"—to

take us on an intergalactic tour that is simultaneously out in space and back in time.

Performing a type of cosmic archaeology, Impey brilliantly describes the astronomical clues that scientists have used to solve fascinating mysteries about the origins and development of our universe. The milestones on this journey range from the nearby to the remote: we travel from the Moon, Jupiter, and the black hole at the heart of our galaxy all the way to the first star, the first ray of light, and even the strange, roiling conditions of the infant universe, an intense and volatile environment in which matter was created from pure energy. Impey gives us breathtaking visual descriptions and also explains what each landmark can reveal about the universe and its history. His lucid, wonderfully engaging scientific discussions bring us to the brink of modern cosmology and physics, illuminating such mind-bending concepts as invisible dimensions, timelessness, and multiple universes. A dynamic

and unforgettable portrait of the cosmos, *How It Began* will reward its readers with a deeper understanding of the universe we inhabit as well as a renewed sense of wonder at its beauty and mystery.

MODERN ROME: 4 GREAT WALKS FOR THE CURIOUS TRAVELER, an alternative guidebook, is the latest in the Curious Traveler Series by acclaimed travel writers Dianne Bennett and William Graebner. Designed for the tens of thousands of visitors who have seen Rome's major attractions or seek an off-the-beaten path experience, it features over 60 color photos, 4 detailed maps, and entertaining and informative commentary. Following the success of ROME THE SECOND TIME: 15 ITINERARIES THAT DON'T GO TO THE COLISEUM, Bennett and Graebner offer 4 new Rome walks, all outside the city's tourist core, all easily accessible by Metro or tram, and all in neighborhoods where Romans live and work.

GARBATELLA: GARDEN CITY SUBURB is a guided tour through one of the city's most engaging and mysterious planned communities, a 1920s

creation featuring curving streets, enchanting stairways, interior courtyards, and some of the most unusual public housing ever built. EUR: MID-CENTURY SPECTACLE features a dramatic locale, now a center of Rome's business community, but planned and constructed in monumental style to celebrate the 20th anniversary of the 1922 Fascist March on Rome. On the opposite side of the city, a walk through Flaminio introduces Rome's sensational 21st-century, starchitect-designed cultural centers, and, across the Tiber, the suggestive site of the 1960 Olympic Games, the Foro Italico, a virtual Mussolini theme park built by the Duce in the 1930s. A fourth, stairways walk begins in Trastevere's back yard, winding up, down, and around Rome's 8th hill, the Gianicolo, traversing a 17th-century villa, a compelling 1941 monument to the Italian unification movement, and one of the smallest and most charming temples in all of Italy. Bennett and Graebner provide more tantalizing tours,

Learn the answers to: How tall were the ancient Greeks and Romans? How long did they live? What kind of pets did they have? How dangerous were their cities? Did they believe their myths? Did they believe in ghosts, monsters, and/or aliens? Did they jog or lift weights? How did they capture animals for the Colosseum? Were there secret police, spies, or assassins? What happened to the city of Rome after the Empire collapsed? Can any families trace their ancestry back to the Greeks or Romans?

**Travel and Geography in the Roman Empire** - Colin Adams  
2012-12-06

The remains of Roman roads are a powerful reminder of the

travel and communications system that was needed to rule a vast and diverse empire. Yet few people have questioned just how the Romans - both military and civilians - travelled, or examined their geographical understanding in an era which offered a greatly increased potential for moving around, and a much bigger choice of destinations. This volume provides new perspectives on these issues, and some controversial arguments; for instance, that travel was not limited to the elite, and that maps as we know them did not exist in the empire. The military importance of transport and communication networks is also a focus, as is the imperial post system (*cursus publicus*), and the logistics and significance of transport in both conquest and administration. With more than forty photographs, maps and illustrations, this collection provides a new understanding of the role and importance of travel, and of the nature of geographical knowledge, in the
