**Reclaiming Art in the Age of Artifice** - J.F. Martel 2015-02-10  
Part treatise, part critique, part call to action, Reclaiming Art in the Age of Artifice is a journey into the uncanny realities revealed to us in the great works of art of the past and present. Received opinion holds that art is culturally-determined and relative. We are told that

whether a picture, a movement, a text, or sound qualifies as a "work of art" largely depends on social attitudes and convention. Drawing on examples ranging from Paleolithic cave paintings to modern pop music and building on the ideas of James Joyce, Oscar Wilde, Gilles Deleuze, Carl Jung, and others, J.F. Martel argues that art is an inborn human phenomenon

that precedes the formation of culture and even society. Art is free of politics and ideology. Paradoxically, that is what makes it a force of liberation wherever it breaks through the trance of humdrum existence. Like the act of dreaming, artistic creation is fundamentally mysterious. It is a gift from beyond the field of the human, and it connects us with realities that, though normally unseen, are crucial components of a living world. While holding this to be true of authentic art, the author acknowledges the presence—overwhelming in our media-saturated age—of a false art that seeks not to liberate but to manipulate and control. Against this anti-artistic aesthetic force, which finds some of its most virulent manifestations in modern advertising, propaganda, and pornography, true art represents an effective line of defense. Martel argues that preserving artistic expression in the face of our contemporary hyper-aestheticism is essential to our own survival. Art is more than mere ornament or entertainment; it

is a way, one leading to what is most profound in us. *Reclaiming Art in the Age of Artifice* places art alongside languages and the biosphere as a thing endangered by the onslaught of predatory capitalism, spectacle culture, and myopic technological progress. The book is essential reading for visual artists, musicians, writers, actors, dancers, filmmakers, and poets. It will also interest anyone who has ever been deeply moved by a work of art, and for all who seek a way out of the web of deception and vampiric diversion that the current world order has woven around us.

age of twenty-two, not to return until a quarter of a century later. When at last he comes home to Pointe-Noire, a bustling port town on Congo's south-eastern coast, he finds a country that in some ways has changed beyond recognition: the cinema where, as a child, Mabanckou gorged on glamorous American culture has become a Pentecostal temple, and his secondary school has been re-named in honour of a previously despised colonial ruler. But many things remain unchanged, not least the swirling mythology of Congolese culture which still informs everyday life in Pointe-Noire. Mabanckou though, now a decorated French-Congolese writer and esteemed professor at UCLA, finds he can only look on as an outsider at the place where he grew up. As he delves into his childhood, into the life of his departed mother and into the strange mix of belonging and absence that informs his return to Congo, Mabanckou slowly builds a stirring exploration of the way home never leaves us, however long ago we left home.

*Cuny Janssen: Whatever Works* - Cuny Janssen  
2021-09-07

Twenty years ago I set out to photograph children all around the world. My first trip was to the south of India. I started in the province of

Tamil Nadu, first living in a Church Women Centre in the city of Chennai, then in Mugaiyur, a small village. For six months I took pictures and had conversations with roommates, guides, and members of the families who had taken me in as a guest. I had very many questions, as did they. After children, the main subject was always love. Everything I heard from them and saw around me there filled me with both surprise and doubt, but above all with admiration. I admired their courage and faith. Their arranged marriages were a fascinating mystery to me. One way to understand arranged marriages was to make portraits. I photographed women and men various ages, engaged or planned couples and married couples.

Silence within and beyond Pedagogical Settings  
- Eva Alerby 2020-09-15

This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it

is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.
