Blackstock's Collections - Gregory L. Blackstock 2006-08-03

Modern life is an ever-accelerating barrage of people, buildings, vehicles, creatures, and things. How much can a curious mind take in? And what can it do with all the data? Gregory L. Blackstock, a retired Seattle pot washer, draws order out of all the chaos with a pencil, a black marker, and some crayons. Blackstock is autistic and an artistic savant. He creates visual lists of everything from wasps to hats to emergency vehicles to noisemakers. In the spirit of the Outsider art of Henry Darger and Howard Finster, Blackstock makes art that is stirring in its profusion and detail and inspiring in its simple beauty. He has never received formal artistic training, yet his renderings clearly and beguilingly show subtle differences and similarities enabling the viewer to see, for example, the distinctive features of a dolly varden, a Pacific Coast steelhead cutthroat, and fourteen other types of trout. Each collection is lovingly captioned in Blackstock's unique hand with texts that reflect facts from his research as well as his passions and preferences.

Blackstock's Collections contains over 100 extraordinary examples of his splendidly original taxonomy, offering a unique look inside the mind of a man making sense of life through art. How the Man in Green Saved Pahang, and Possibly the World - Joshua Kam 2020-10-12

Winner of the 2020 Epigram Books Fiction Prize When a renegade prophet vanishes in a cloud of pigeons in Kuala Lumpur, chorister and first witness Gabriel finds himself press-ganged into a wild road trip down the Malaysian coast. Meanwhile, in a sleepy town by the sea, Lydia traces the links between her late grandaunt's eccentric lover and her involvement in the Communist Emergency. As Lydia and Gabriel enter a shadowy mythology of serpents, Sufi saints and plainclothes gods, they must grapple with the theologies and histories they once trusted, in a country more perilously punk than they'd ever conceived of. Reader Reviews: "A dizzying tale of saints, heists, maybe-queens." —The Straits Times "Quite the debut, accomplished, deft, unabashed and exuberant." —Asian Review of Books "Author Joshua Kam's debut book brings Asian mythology to the forefront." —The Sun Daily Malaysian author blurs myths and truths as you escape on a wild road trip ... This whimsical, rollercoaster ride of a book also carries a tale of old and new Malaysia colliding, with various figures from local history, politics and folklore coming together in an epic quest for the soul of the nation.

—newsday24.com "In essence, (the novel) acts as a love letter to Malaysian folklore and history, showcasing an impressive degree of representation and imagination that never feels shoehorned into the narrative." —Bakchormeeboy "What a trip! This 21st-century adventure quest with an Islamic saint also brings us on a madcap tour through a multitude of Malaysian mythologies— Malay epics, Taoist pantheons, WW2/Emergency/Merdeka heroics, and more. Even more vitally, it gives us hope amidst the dire news of our era— political corruption, environmental devastation and bigotry—reassuring us that the human/divine spirit still flourishes in the late-capitalist tropics, and is ultimately destined to triumph over evil. An absolute delight, and truly, deliciously Malaysian." —Ng Yi-Sheng, award-winning author of Lion City "Borgesian, even Manichean in spirit, with almost reverent borrowings from Nusantara mythologies to Abrahamic religiosity, this novel is a wild ride from start to finish, riffing on Malayan history, politics and folklore in a surprisingly redemptive arc, while remaining deeply interrogative about what it means to keep true to goodness in the ever-changing face of evil." —Cyril Wong, two-time Singapore Literature Prize-winning author of This Side of Heaven

Sketchbook: Composition Studies for Film - Hans P. Bacher 2015-06-02

Featuring hundreds of carefully hand-crafted illustrations by the internationally renowned production designer Hans Bacher, Sketchbook - Composition Studies for Film is a unique journey through the mind and creative process of one of the artistic legends in animation film design. Having shaped such films as The Lion King, Mulan and Beauty and the Beast to name a few, Hans's work is a part of the very cultural fabric of our age. Here the artist puts on display the rarely discussed first part of image making for film, the conceptual thumbnail. Exquisitely beautiful in themselves, these small illustrations represent the birth of what eventually becomes the iconic images we experience on the silver screen. Essential to anyone interested in understanding the skeletal structure that exists underneath stunning imagery in all forms of media, this book is especially relevant today with the dramatic increase of interest in film and game design. Although students today have ready access to and an understanding of technical aspects of the craft using associated software, the area most lacking in accessible information is this quintessential first part of thumb-nailing an image. This unique book will provide the student and professional with the fundamentals of conceptualizing images, and how these can be used in composition in the related fields of illustration, graphic novels, 2D animation, 3D animation, photography and cinematography.
