[The Island of Forgetting](#) - Jasmine Sealy 2022-04-26
How does memory become myth? How do lies become family lore? How do we escape the trauma of the past when the truth has been forgotten? Barbados, 1962. Lost soul Iapetus roams the island, scared and alone, driven mad

after witnessing his father's death at the hands of his mother and his older brother, Cronus. Just before Iapetus is lost forever, he has a son, but the baby is not enough to save him from himself—or his family's secrets. Seventeen years later, Iapetus's son, the stoic Atlas, lives in a loveless

house, under the care of his uncle, Cronus, and in the shadow of his charismatic cousin Z. Knowing little about the tragic circumstances of his father's life, Atlas must choose between his desire to flee the island and his loyalty to the uncle who raised him. Time passes. Atlas's daughter, Calypso, is a beautiful and wilful teenager who is desperate to avoid being trapped in a life of drudgery at her uncle Z's hotel. When she falls dangerously in love with a visiting real estate developer, she finds herself entangled in her uncle's shady dealings, a pawn in the games of the powerful men around her. It is now 2019. Calypso's son, Nautilus, is on a path of self-destruction as he grapples with his fatherless condition, his mixed-race identity and his complicated feelings of attraction towards his best friend, Daniel. Then one night, after making an impulsive decision, Nautilus finds himself exiled to Canada. The Island of Forgetting is an intimate saga spanning four generations of

one family who run a beachfront hotel. Loosely inspired by Greek mythology, this is a novel about the echo of deep—and sometimes tragic—love and the ways a family's past can haunt its future.

The Buried Giant - Kazuo Ishiguro 2015-03-03

NATIONAL BESTSELLER •

From the winner of the Nobel Prize in Literature and author of *Never Let Me Go* and the Booker Prize-winning novel *The Remains of the Day* comes a luminous meditation on the act of forgetting and the power of memory. In post-Arthurian Britain, the wars that once raged between the Saxons and the Britons have finally ceased. Axl and Beatrice, an elderly British couple, set off to visit their son, whom they haven't seen in years. And, because a strange mist has caused mass amnesia throughout the land, they can scarcely remember anything about him. As they are joined on their journey by a Saxon warrior, his orphan charge, and an illustrious knight, Axl and Beatrice slowly

begin to remember the dark and troubled past they all share. By turns savage, suspenseful, and intensely moving, *The Buried Giant* is a luminous meditation on the act of forgetting and the power of memory.

The Sudden Appearance of Hope - Claire North

2016-05-17

The World Fantasy Award-winning thriller about a girl no one can remember, from the acclaimed author of *The First Fifteen Lives of Harry August* and *84K*. My name is Hope Arden, and you won't know who I am. But we've met before -- a thousand times. It started when I was sixteen years old. A father forgetting to drive me to school. A mother setting the table for three, not four. A friend who looks at me and sees a stranger. No matter what I do, the words I say, the crimes I commit, you will never remember who I am. That makes my life difficult. It also makes me dangerous. *The Sudden Appearance of Hope* is a riveting and heartbreaking exploration of identity and

existence, about a forgotten girl whose story will stay with you forever.

All Our Names - Dinaw Mengestu 2014-03-04

From acclaimed author Dinaw Mengestu, a recipient of the National Book Foundation's 5 Under 35 award, *The New Yorker's* 20 Under 40 award, and a 2012 MacArthur Foundation genius grant, comes an unforgettable love story about a searing affair between an American woman and an African man in 1970s America and an unflinching novel about the fragmentation of lives that straddle countries and histories. *All Our Names* is the story of two young men who come of age during an African revolution, drawn from the safe confines of the university campus into the intensifying clamor of the streets outside. But as the line between idealism and violence becomes increasingly blurred, the friends are driven apart—one into the deepest peril, as the movement gathers inexorable force, and the other into the safety of exile in the

American Midwest. There, pretending to be an exchange student, he falls in love with a social worker and settles into small-town life. Yet this idyll is inescapably darkened by the secrets of his past: the acts he committed and the work he left unfinished. Most of all, he is haunted by the beloved friend he left behind, the charismatic leader who first guided him to revolution and then sacrificed everything to ensure his freedom. *Elegiac*, blazing with insights about the physical and emotional geographies that circumscribe our lives, *All Our Names* is a marvel of vision and tonal command. Writing within the grand tradition of Naipul, Greene, and Achebe, Mengestu gives us a political novel that is also a transfixing portrait of love and grace, of self-determination and the names we are given and the names we earn. This eBook edition includes a Reading Group Guide.

The Forgetting - Sharon

Cameron 2016-09-13

From beloved author of *Rook* comes a brilliant and genre-

bending exploration of truth and memory, love and loss in this remarkable story of a civilization that undergoes a collective forgetting. What isn't written, isn't remembered. Even your crimes. Nadia lives in the city of Canaan, where life is safe and structured, hemmed in by white stone walls and no memory of what came before. But every twelve years the city descends into the bloody chaos of the Forgetting, a day of no remorse, when each person's memories -- of parents, children, love, life, and self -- are lost. Unless they have been written. In Canaan, your book is your truth and your identity, and Nadia knows exactly who hasn't written the truth. Because Nadia is the only person in Canaan who has never forgotten. But when Nadia begins to use her memories to solve the mysteries of Canaan, she discovers truths about herself and Gray, the handsome glassblower, that will change her world forever. As the anarchy of the Forgetting approaches, Nadia and Gray

must stop an unseen enemy that threatens both their city and their own existence -- before the people can forget the truth. And before Gray can forget her.

The Dictionary of Obscure

Sorrows - John Koenig

2021-11-16

NEW YORK TIMES

BESTSELLER "It's undeniably thrilling to find words for our strangest feelings...Koenig casts light into lonely corners of human experience...An enchanting book. " —The Washington Post A truly original book in every sense of the word, The Dictionary of Obscure Sorrows poetically defines emotions that we all feel but don't have the words to express—until now. Have you ever wondered about the lives of each person you pass

on the street, realizing that everyone is the main character in their own story, each living a life as vivid and complex as your own? That feeling has a name: "sonder." Or maybe you've watched a thunderstorm roll in and felt a primal hunger for disaster, hoping it would shake up your life. That's called "lachesism." Or you were looking through old photos and felt a pang of nostalgia for a time you've never actually experienced. That's "anemoia." If you've never heard of these terms before, that's because they didn't exist until John Koenig set out to fill the gaps in our language of emotion. The Dictionary of Obscure Sorrows "creates beautiful new words that we need but do not yet have," says John Green, bestselling author of *The Fault in Our Stars*. By turns poignant, relatable, and mind-bending, the definitions include whimsical etymologies drawn from languages around the world, interspersed with otherworldly collages and lyrical essays that explore

forgotten corners of the human condition—from “astrophe,” the longing to explore beyond the planet Earth, to “zenosyne,” the sense that time keeps getting faster. The Dictionary of Obscure Sorrows is for anyone who enjoys a shift in perspective, pondering the ineffable feelings that make up our lives. With a gorgeous package and beautiful illustrations throughout, this is the perfect gift for creatives, word nerds, and human beings everywhere.

Remember - Lisa Genova

2021-03-23

NEW YORK TIMES

BESTSELLER • A fascinating exploration of the intricacies of how we remember, why we forget, and what we can do to protect our memories, from the Harvard-trained neuroscientist and bestselling author of *Still Alice*. “Using her expertise as a neuroscientist and her gifts as a storyteller, Lisa Genova explains the nuances of human memory”—Steven Pinker, Johnstone Professor of Psychology, Harvard University, author of *How the*

Mind Works Have you ever felt a crushing wave of panic when you can't for the life of you remember the name of that actor in the movie you saw last week, or you walk into a room only to forget why you went there in the first place? If you're over forty, you're probably not laughing. You might even be worried that these lapses in memory could be an early sign of Alzheimer's or dementia. In reality, for the vast majority of us, these examples of forgetting are completely normal. Why? Because while memory is amazing, it is far from perfect. Our brains aren't designed to remember every name we hear, plan we make, or day we experience. Just because your memory sometimes fails doesn't mean it's broken or succumbing to disease. Forgetting is actually part of being human. In *Remember*, neuroscientist and acclaimed novelist Lisa Genova delves into how memories are made and how we retrieve them. You'll learn whether forgotten memories are temporarily

inaccessible or erased forever and why some memories are built to exist for only a few seconds (like a passcode) while others can last a lifetime (your wedding day). You'll come to appreciate the clear distinction between normal forgetting (where you parked your car) and forgetting due to Alzheimer's (that you own a car). And you'll see how memory is profoundly impacted by meaning, emotion, sleep, stress, and context. Once you understand the language of memory and how it functions, its incredible strengths and maddening weaknesses, its natural vulnerabilities and potential superpowers, you can both vastly improve your ability to remember and feel less rattled when you inevitably forget. You can set educated expectations for your memory, and in doing so, create a better relationship with it. You don't have to fear it anymore. And that can be life-changing.

“Lush with secrets, magic, and

a past that won't stay where it belongs, this novel is (quite fittingly) spellbinding.”—JODI PICOULT, author of *Wish You Were Here* A deeply atmospheric story about ancestral magic, an unsolved murder, and a second chance at true love Emery Blackwood's life changed forever the night her best friend was found dead and the love of her life, August Salt, was accused of murdering her. Years later, she is doing what her teenage self swore she never would: living a quiet existence on the misty, remote shores of Saoirse Island and running the family's business, Blackwood's Tea Shoppe Herbal Tonics & Tea Leaf Readings. But when the island, rooted in folklore and magic, begins to show signs of strange happenings, Emery knows that something is coming. The morning she wakes to find that every single tree on Saoirse has turned color in a single night, August returns for the first time in fourteen years and unearths the past that the town has tried desperately to forget. August knows he is not

welcome on Saiorse, not after the night everything changed. As a fire raged on at the Salt family orchard, Lily Morgan was found dead in the dark woods, shaking the bedrock of their tight-knit community and branding August a murderer. When he returns to bury his mother's ashes, he must confront the people who turned their backs on him and face the one wound from his past that has never healed—Emery. But the town has more than one reason to want August gone, and the emergence of deep betrayals and hidden promises spanning generations threaten to reveal the truth behind Lily's mysterious death once and for all.

Kristin Harmel 2021-05-25

Eva Traube Abrams, a semiretired librarian in Florida, is at the returns desk one

morning when her eyes lock on to a photograph in a newspaper nearby. She freezes; it's an image of a book she hasn't seen in sixty-five years--a book she recognizes as the Book of Lost Names. The accompanying article describes the looting of libraries across Europe by the Nazis during World War II--an experience Eva remembers all too well. As a graduate student in 1942, Eva was forced to flee Paris after the arrest of her father, a Polish Jew. Finding refuge in a small mountain town in the Free Zone, she begins forging identity documents for Jewish children fleeing to neutral Switzerland. But erasing people comes with a price, and along with a mysterious, handsome forger named Rémy, Eva decides she must find a way to preserve the real names of the children who are too young to remember who they really are. The records they keep in the Book of Last Names will become even more vital when the Resistance cell they work with is betrayed and Rémy disappears. As the

Germans close in, Eva records a last, vital message in the book. Decades later, does she have the strength to seek out its answer--and help reunite those lost during the war?

The Forgetting River -

Doreen Carvajal 2013-08-06

The unexpected and moving story of an American journalist who works to uncover her family's long-buried Jewish ancestry in Spain. Raised a Catholic in California, New York Times journalist Doreen Carvajal is shocked when she discovers that her background may actually be connected to conversos from Inquisition-era Spain: Jews who were forced to renounce their faith and convert to Christianity or face torture and death. With vivid childhood memories of Sunday sermons, catechism, and the rosary, Carvajal travels to the centuries-old Andalucian town of Arcos de la Frontera, to investigate her lineage and recover her family's original religious heritage. In Arcos, Carvajal comes to realize that fear remains a legacy of the Inquisition along with the

cryptic messages left by its victims. Back at her childhood home in California, she uncovers papers documenting a family of Carvajals who were burned at the stake in the 16th-century territory of Mexico. Could the author's family history be linked to the hidden history of Arcos? And could the unfortunate Carvajals have been her ancestors? As she strives to find proof that her family had been forced to convert to Christianity six hundred years ago, Carvajal comes to understand that the past flows like a river through time—and that while the truth might be submerged, it is never truly lost.

Rebels in Paradise - Hunter Drohojowska-Philp 2011-07-19

The extraordinary story of the artists who propelled themselves to international fame in 1960s Los Angeles Los Angeles, 1960: There was no modern art museum and there were few galleries, which is exactly what a number of daring young artists liked about it, among them Ed Ruscha, David Hockney, Robert

Irwin, Bruce Nauman, Judy Chicago and John Baldessari. Freedom from an established way of seeing, making, and marketing art fueled their creativity, which in turn inspired the city. Today Los Angeles has four museums dedicated to contemporary art, around one hundred galleries, and thousands of artists. Here, at last, is the book that tells the saga of how the scene came into being, why a prevailing Los Angeles permissiveness, 1960s-style, spawned countless innovations, including Andy Warhol's first exhibition, Marcel Duchamp's first retrospective, Frank Gehry's mind-bending architecture, Rudi Gernreich's topless bathing suit, Dennis Hopper's Easy Rider, even the Beach Boys, the Byrds, the Doors, and other purveyors of a California style. In the 1960s, Los Angeles was the epicenter of cool.

The Forgetting - David Shenk
2003-01-14

NATIONAL BESTSELLER A powerfully engaging, scrupulously researched, and deeply empathetic narrative of the history of Alzheimer's disease, how it affects us, and the search for a cure. Afflicting nearly half of all people over the age of 85, Alzheimer's disease kills nearly 100,000 Americans a year as it insidiously robs them of their memory and wreaks havoc on the lives of their loved ones. It was once minimized and misunderstood as forgetfulness in the elderly, but Alzheimer's is now at the forefront of many medical and scientific agendas, for as the world's population ages, the disease will touch the lives of virtually everyone.

David Shenk movingly captures the disease's impact on its victims and their families, and he looks back through history, explaining how Alzheimer's most likely afflicted such figures as Jonathan Swift, Ralph Waldo Emerson, and Willem de Kooning. The result is a searing and graceful account of Alzheimer's disease, offering a sobering, compassionate, and ultimately encouraging portrait.

[The Man Who Mistook His Wife for a Hat](#) - Oliver Sacks
2021-09-14

In his most extraordinary book, the bestselling author of *Awakenings* and "poet laureate of medicine" (*The New York Times*) recounts the case histories of patients inhabiting the compelling world of neurological disorders, from those who are no longer able to recognize common objects to those who gain extraordinary new skills. Featuring a new preface, Oliver Sacks's *The Man Who Mistook His Wife for a Hat* tells the stories of individuals afflicted with perceptual and intellectual

disorders: patients who have lost their memories and with them the greater part of their pasts; who are no longer able to recognize people and common objects; whose limbs seem alien to them; who lack some skills yet are gifted with uncanny artistic or mathematical talents. In Dr. Sacks's splendid and sympathetic telling, his patients are deeply human and his tales are studies of struggles against incredible adversity. A great healer, Sacks never loses sight of medicine's ultimate responsibility: "the suffering, afflicted, fighting human subject."

Vermeer in Bosnia - Lawrence Weschler 2005-07-12
There are writers who specialize in the strange and others whose genius is to find the strangeness in the familiar, the unexpected meanings in stories we thought we knew. Of that second category, Lawrence Weschler is the master. Witness the pieces in this splendidly disorienting collection, spanning twenty years of his career and the full range of his concerns—which is to say, practically everything. Only Lawrence Weschler could reveal the connections between the twentieth century's Yugoslav wars and the equally violent Holland in which Vermeer created his luminously serene paintings. In his profile of Roman Polanski,

Weschler traces the filmmaker's symbolic negotiations with his nightmarish childhood during the Holocaust. Here, too, are meditations on artists Ed Kienholz and David Hockney, on the author's grandfather and daughter, and on the light and earthquakes of his native Los Angeles. Haunting, elegant, and intoxicating, Vermeer in Bosnia awakens awe and wonder at the world around us.

A Primer for Forgetting -

Lewis Hyde 2019-06-18

"One of our true superstars of nonfiction" (David Foster Wallace), Lewis Hyde offers a playful and inspiring defense of forgetfulness by exploring the healing effect it can have on the human psyche. We live in a culture that prizes memory—how much we can store, the quality of what's preserved, how we might better document and retain the moments of our life while fighting off the nightmare of losing all that we have experienced. But what if forgetfulness were seen not as

something to fear—be it in the form of illness or simple absentmindedness—but rather as a blessing, a balm, a path to peace and rebirth? A Primer for Forgetting is a remarkable experiment in scholarship, autobiography, and social criticism by the author of the classics *The Gift* and *Trickster Makes This World*. It forges a new vision of forgetfulness by assembling fragments of art and writing from the ancient world to the modern, weighing the potential boons forgetfulness might offer the present moment as a creative and political force. It also turns inward, using the author's own life and memory as a canvas upon which to extol the virtues of a concept too long taken as an evil. Drawing material from Hesiod to Jorge Luis Borges to Elizabeth Bishop to Archbishop Desmond Tutu, from myths and legends to very real and recent traumas both personal and historical, *A Primer for Forgetting* is a unique and remarkable synthesis that only Lewis Hyde could have produced.

Memory, History, Forgetting

- Paul Ricoeur 2009-01-01

Why do major historical events such as the Holocaust occupy the forefront of the collective consciousness, while profound moments such as the Armenian genocide, the McCarthy era, and France's role in North Africa stand distantly behind? Is it possible that history "overly remembers" some events at the expense of others? A landmark work in philosophy, Paul Ricoeur's *Memory, History, Forgetting* examines this reciprocal relationship between remembering and forgetting, showing how it affects both the perception of historical experience and the production of historical narrative. *Memory, History, Forgetting*, like its title, is divided into three major sections. Ricoeur first takes a phenomenological approach to memory and mnemonical devices. The underlying question here is how a memory of present can be of something absent, the

past. The second section addresses recent work by historians by reopening the question of the nature and truth of historical knowledge. Ricoeur explores whether historians, who can write a history of memory, can truly break with all dependence on memory, including memories that resist representation. The third and final section is a profound meditation on the necessity of forgetting as a condition for the possibility of remembering, and whether there can be something like happy forgetting in parallel to happy memory. Throughout the book there are careful and close readings of the texts of Aristotle and Plato, of Descartes and Kant, and of Halbwachs and Pierre Nora. A momentous achievement in the career of one of the most significant philosophers of our age, *Memory, History, Forgetting* provides the crucial link between Ricoeur's *Time and Narrative* and *Oneself as Another* and his recent reflections on ethics and the problems of responsibility and

representation. "His success in revealing the internal relations between recalling and forgetting, and how this dynamic becomes problematic in light of events once present but now past, will inspire academic dialogue and response but also holds great appeal to educated general readers in search of both method for and insight from considering the ethical ramifications of modern events. . . . It is indeed a master work, not only in Ricoeur's own vita but also in contemporary European philosophy."—*Library Journal*
"Ricoeur writes the best kind of philosophy—critical, economical, and clear."—*New York Times Book Review*

YEAR: NPR Amy Bloom began

to notice changes in her

husband, Brian: He retired early from a new job he loved; he withdrew from close friendships; he talked mostly about the past. Suddenly, it seemed there was a glass wall between them, and their long walks and talks stopped. Their world was altered forever when an MRI confirmed what they could no longer ignore: Brian had Alzheimer's disease. Forced to confront the truth of the diagnosis and its impact on the future he had envisioned, Brian was determined to die on his feet, not live on his knees. Supporting each other in their last journey together, Brian and Amy made the unimaginably difficult and painful decision to go to Dignitas, an organization based in Switzerland that empowers a person to end their own life with dignity and peace. In this heartbreaking and surprising memoir, Bloom sheds light on a part of life we so often shy away from discussing—its ending. Written in Bloom's captivating, insightful voice and with her trademark wit and candor, *In Love* is an

unforgettable portrait of a beautiful marriage, and a boundary-defying love.

True to Life - Lawrence Weschler 2009-01-26

Soon after the book's publication in 1982, artist David Hockney read Lawrence Weschler's *Seeing Is Forgetting the Name of the Thing One Sees: A Life of Contemporary Artist Robert Irwin* and invited Weschler to his studio to discuss it, initiating a series of engrossing dialogues, gathered here for the first time. Weschler chronicles Hockney's protean production and speculations, including his scenic designs for opera, his homemade xerographic prints, his exploration of physics in relation to Chinese landscape painting, his investigations into optical devices, his taking up of watercolor—and then his spectacular return to oil painting, around 2005, with a series of landscapes of the East Yorkshire countryside of his youth. These conversations provide an astonishing record of what has been Hockney's

grand endeavor, nothing less than an exploration of "the structure of seeing" itself.

The Name of this Book Is Secret - Pseudonymous Bosch
2008-09-01

Read the series that's sold more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

The Second Media Age - Mark Poster 2018-03-08

This book examines the

implications of new communication technologies in the light of the most recent work in social and cultural theory and argues that new developments in electronic media, such as the Internet and Virtual Reality, justify the designation of a "second media age".

The Seven Sins of Memory - Daniel L. Schacter 2002-05-07
A New York Times Notable Book: A psychologist's "gripping and thought-provoking" look at how and why our brains sometimes fail us (Steven Pinker, author of How the Mind Works). In this intriguing study, Harvard psychologist Daniel L. Schacter explores the memory miscues that occur in everyday life, placing them into seven categories: absent-mindedness, transience, blocking, misattribution, suggestibility, bias, and persistence. Illustrating these concepts with vivid examples—case studies, literary excerpts, experimental evidence, and accounts of highly visible news events such as the O. J. Simpson verdict,

Bill Clinton’s grand jury testimony, and the search for the Oklahoma City bomber—he also delves into striking new scientific research, giving us a glimpse of the fascinating neurology of memory and offering “insight into common malfunctions of the mind” (USA Today). “Though memory failure can amount to little more than a mild annoyance, the consequences of misattribution in eyewitness testimony can be devastating, as can the consequences of suggestibility among pre-school children and among adults with ‘false memory syndrome’ . . . Drawing upon recent neuroimaging research that allows a glimpse of the brain as it learns and remembers, Schacter guides his readers on a fascinating journey of the human mind.” —Library Journal “Clear, entertaining and provocative . . . Encourages a new appreciation of the complexity and fragility of memory.” —The Seattle Times “Should be required reading for police, lawyers, psychologists, and

anyone else who wants to understand how memory can go terribly wrong.” —The Atlanta Journal-Constitution “A fascinating journey through paths of memory, its open avenues and blind alleys . . . Lucid, engaging, and enjoyable.” —Jerome Groopman, MD “Compelling in its science and its probing examination of everyday life, The Seven Sins of Memory is also a delightful book, lively and clear.” —Chicago Tribune Winner of the William James Book Award
Burnt Sugar - Avni Doshi
2021-01-26
Shortlisted for the 2020 Booker Prize, a searing literary debut novel set in India about mothers and daughters, obsession and betrayal “I would be lying if I say my mother’s misery has never given me pleasure,” says Antara, Tara’s now-adult daughter. This is a love story and a story about betrayal—not between lovers but between a mother and a daughter. . . . In her youth, Tara was wild. She abandoned her arranged

marriage to join an ashram, embarked on a stint as a beggar (mostly to spite her affluent parents), and spent years chasing a disheveled, homeless “artist,” all with little Antara in tow. But now Tara is forgetting things, and Antara is an adult—an artist and married—and must search for a way to make peace with a past that haunts her as she confronts the task of caring for a woman who never cared for her. Sharp as a blade and laced with caustic wit, *Burnt Sugar* unpicks the slippery, choking cord of memory and myth that binds mother and daughter: Is Tara’s memory loss real? Are Antara’s memories fair? In vivid and visceral prose, Avni Doshi tells a story at once shocking and empathetic of a mother-daughter relationship and a daughter’s search for self. A journey into shifting memories, altering identities, and the subjective nature of truth, *Burnt Sugar* is the stunning and unforgettable debut of a major new voice in contemporary fiction.

The Book of M - Peng

Shepherd 2018-06-05
Brad Thor's Summer 2018 Fiction Pick for THE TODAY SHOW! "Eerie, dark, and compelling, [The Book of M] will not disappoint lovers of *The Passage* (2010) and *Station Eleven* (2014)." --Booklist
WHAT WOULD YOU GIVE UP TO REMEMBER? Set in a dangerous near future world, *The Book of M* tells the captivating story of a group of ordinary people caught in an extraordinary catastrophe who risk everything to save the ones they love. It is a sweeping debut that illuminates the power that memories have not only on the heart, but on the world itself. One afternoon at an outdoor market in India, a man’s shadow disappears—an occurrence science cannot explain. He is only the first. The phenomenon spreads like a plague, and while those afflicted gain a strange new power, it comes at a horrible price: the loss of all their memories. Ory and his wife Max have escaped the Forgetting so far by hiding in an abandoned hotel deep in the

woods. Their new life feels almost normal, until one day Max's shadow disappears too. Knowing that the more she forgets, the more dangerous she will become to Ory, Max runs away. But Ory refuses to give up the time they have left together. Desperate to find Max before her memory disappears completely, he follows her trail across a perilous, unrecognizable world, braving the threat of roaming bandits, the call to a new war being waged on the ruins of the capital, and the rise of a sinister cult that worships the shadowless. As they journey, each searches for answers: for Ory, about love, about survival, about hope; and for Max, about a new force growing in the south that may hold the cure. Like *The Passage* and *Station Eleven*, this haunting, thought-provoking, and beautiful novel explores fundamental questions of memory, connection, and what it means to be human in a world turned upside down.

The End of Forgetting - Kate Eichhorn 2019-07-08

Thanks to Facebook and Instagram, our younger selves have been captured and preserved online. But what happens, Kate Eichhorn asks, when we can't leave our most embarrassing moments behind? Rather than a childhood cut short by a loss of innocence, the real crisis of the digital age may be the specter of a childhood that can never be forgotten.

The Daily Show (The Book) -

Chris Smith 2016-11-22

NEW YORK TIMES

BESTSELLER The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, *The Daily Show* with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and

camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The

Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

Forgetting You, Forgetting Me

- Monica James 2018-06-26

My life was perfect. I had the most incredible family and friends. My home, Whispering Willows, a ranch in Montana, was everything I could ever wish for. My adoring fiancé, Samuel Stone, loved me unconditionally. But one fateful event shattered my perfect life.

The Book of Laughter and Forgetting

- Milan Kundera

1999-04-07
Rich in its stories, characters, and imaginative range, The Book of Laughter and Forgetting is the novel that brought Milan Kundera his first big international success in the late 1970s. Like all his work, it is valuable for far more than its

historical implications. In seven wonderfully integrated parts, different aspects of human

existence are magnified and reduced, reordered and emphasized, newly examined, analyzed, and experienced.
