A young couple tries to protect their newborn baby as the once-quiet streets descend into chaos. Two sisters turn to each other for comfort as their survivalist father prepares for disaster. An engrossing examination of the science behind the little-known world of sleep. Like many of us, journalist David K. Randall never gave sleep much thought. That is, until he began sleepwalking. One midnight crash into a hallway wall sent him on an investigation into the strange science of sleep. In *Dreamland*, Randall explores the research that is investigating those dark hours that make up nearly a third of our lives. Taking readers from military battlefields to children's bedrooms, *Dreamland* shows that sleep isn't as simple as it seems. Why did the results of one sleep study change the bookmakers' odds for certain Monday Night Football games? Do women sleep differently than men? And if you happen to kill someone while you are sleepwalking, does that count as murder? This book is a tour of the often odd, sometimes disturbing, and always fascinating things that go on in the peculiar world of sleep. You'll never look at your pillow the same way again.

Rebel Daughters - Sara E. Melzer 1992-05-21

This interdisciplinary collection of essays examines the important and paradoxical relation between women and the French Revolution. Although the male leaders of the Revolution depended on the women's active militant participation, they denied to women the rights they helped to establish. At the same time that women were banned from the political sphere, "woman" was transformed into an allegorical figure which became the very symbol of (masculine) Liberty and Equality. This volume analyzes how the revolutionary process constructed a new gender system at the foundation of modern liberal culture.

The Spirit of District Six - 2016-08-31

This beautiful book shows poignant images from Breytenbach's collection of District Six during the 1970s before the area was dramatically demolished by the apartheid government. It is an historical record about the inhabitants and their surroundings of that time and was compiled over a period of five years. The Cape Town area known as District Six (so called for its geographic position on the municipal map of the city) developed into a dense residential area close to the centre of Cape Town during the second part of the nineteenth century. Home to a diverse community with a wide range of historical origins, neglect on the part of landlords and local authorities led to the area becoming rundown. The government repeatedly directed requests to the city council and the landlords - most of whom were white and not residing in the area - to upgrade what was fast becoming a slum on the doorstep of one of the most beautiful cities in the world. On 11 February 1966, the government declared District Six a white area under the Group Areas Act, and the wholesale removal of the inhabitants was started - mainly to areas away from the city. This process took fifteen years and some 60 000 people were removed.

Drunk Stoned Brilliant Dead - Rick Meyerowitz 2019-03-15

From its first issue in April, 1970, the National Lampoon blazed like a comet, defining comedy as we know it today. To create *Drunk Stoned Brilliant Dead*, former Lampoon illustrator Rick Meyerowitz selected the funniest material from the magazine and sought out the survivors of its first electrifying decade to gather their most revealing and outrageous stories. The result is a mind-boggling tour through the early days of an

institution whose alumni left their fingerprints all over popular culture: Animal House, Caddyshack, Saturday Night Live, Ghostbusters, SCTV, Spinal Tap, In Living Color, Ren & Stimpy, The Simpsons—even Sesame Street counts a few Lamponers among its ranks. Long before there was The Onion and Comedy Central news shows, there was the National Lampoon, setting the bar in comedy impossibly high! A very similar title, differing only in the subtitle, was used for the 2015 documentary film, *Drunk Stoned Brilliant Dead: The Story of the National Lampoon*, for which Rick Meyerowitz designed the poster, as he also did for the 1978 film *National Lampoon's Animal House*.

Eco Soma - Petra Kuppers 2022-02-08 Modeling a disability culture perspective on performance practice toward socially just futures In *Eco Soma*, Petra Kuppers asks readers to be alert to their own embodied responses to art practice and to pay attention to themselves as active participants in a shared sociocultural world. Reading contemporary performance encounters and artful engagements, this book models a disability culture sensitivity to living in a shared world, oriented toward more socially just futures. *Eco soma* methods mix and merge realities on the edges of lived experience and site-specific performance. Kuppers invites us to become moths, sprout gills, listen to our heart's drum, and take starships into crip time. And fantasy is central to these engagements: feeling/sensing monsters, catastrophes, golden lines, heartbeats, injured sharks, dotted salamanders, kissing mammoths, and more. Kuppers illuminates ecopoetic disability culture perspectives, contending that disabled people and their co-conspirators make art to live in a changing world, in contact with feminist, queer, trans, racialized, and Indigenous art projects. By offering new ways to think, frame, and feel "environments," Kuppers focuses on art-based methods of envisioning change and argues that disability can offer imaginative ways toward living well and with agency in change, unrest, and challenge. Traditional somatics teach us how to fine-tune our introspective senses and to open up the world of our own bodies, while *eco soma* methods extend that attention toward the creative possibilities of the reach between self, others, and the land. *Eco Soma* proposes an art/life method of sensory tuning to the inside and the outside simultaneously, a method that allows for a wider opening toward ethical cohabitation with human and more-than-human others.

A German Officer in Occupied Paris - Ernst Jünger
2019-01-22

Ernst Jünger was one of twentieth-century Germany's most important—and most controversial—writers. Decorated for bravery in World War I and the author of the acclaimed western front memoir *Storm of Steel*, he frankly depicted war's horrors even as he extolled its glories. As a Wehrmacht captain during World War II, Jünger faithfully kept a journal in occupied Paris and continued to write on the eastern front and in Germany until its defeat—writings that are of major historical and literary significance. Jünger's Paris journals document his Francophile excitement, romantic affairs, and fascination with botany and entomology, alongside mystical and religious ruminations and trenchant observations on the occupation and the politics of collaboration. While working as a mail censor, he led the privileged life of an officer, encountering artists such as Céline, Cocteau, Braque, and Picasso. His notes from the Caucasus depict the chaos after Stalingrad and atrocities on the eastern front. Upon returning to Paris, Jünger observed the French resistance and was close to the German military conspirators who plotted to assassinate Hitler in 1944. After fleeing France, he reunited with his family as Germany's capitulation approached. Both participant and commentator, close to the horrors of history but often distancing himself from them, Jünger turned his life and experiences into a work of art. These wartime journals appear here in English for the first time, giving fresh insights into the quandaries of the twentieth century from the keen pen of a paradoxical observer.

The African Lookbook - Catherine E. McKinley
2021-02-09

An unprecedented visual history of African women told in striking and subversive historical photographs--featuring an Introduction by Edwidge Danticat and a Foreword by Jacqueline Woodson. Most of us grew up with images of African women that were purely anthropological--bright displays of exotica where the deeper personhood seemed tucked away. Or they were chronicles of war and poverty--"poverty porn." But now, curator Catherine E. McKinley draws

on her extensive collection of historical and contemporary photos to present a visual history spanning a hundred-year arc (1870–1970) of what is among the earliest photography on the continent. These images tell a different story of African women: how deeply cosmopolitan and modern they are in their style; how they were able to reclaim the tools of the colonial oppression that threatened their selfhood and livelihoods. Featuring works by celebrated African masters, African studios of local legend, and anonymous artists, *The African Lookbook* captures the dignity, playfulness, austerity, grandeur, and fantasy-making of African women across centuries. McKinley also features photos by Europeans--most starkly, striking nudes--revealing the relationships between white men and the Black female sitters where, at best, a grave power imbalance lies. It's a bittersweet truth that when there is exploitation there can also be profound resistance expressed in unexpected ways--even if it's only in gazing back. These photos tell the story of how the sewing machine and the camera became powerful tools for women's self-expression, revealing a truly glorious display of everyday beauty.
