Wingless Flight - R. Dale Reed
2021-10-21

Most lifting bodies, or "flying bathtubs" as they were called, were so ugly only an engineer could love them, and yet, what an elegant way to keep wings from burning off in supersonic flight between earth and orbit. Working in their spare time (because they couldn't initially get official permission), Dale Reed and his team of engineers demonstrated the potential of the design that led to the Space Shuttle. *Wingless Flight* takes us behind the scenes with just the right blend of technical information and fascinating detail (the crash of M2-F2 found new life as the opening credit for TV's "The Six Million Dollar Man"). The flying bathtub, itself, is finding new life as the proposed escape-pod for the Space

Station.

Crescendo of the Virtuoso - Paul Metzner 2018-05-28
During the Age of Revolution, Paris came alive with wildly popular virtuoso performances. Whether the performers were musicians or chefs, chess players or detectives, these virtuosos transformed their technical skills into dramatic spectacles, presenting the marvelous and the outré for spellbound audiences. Who these characters were, how they attained their fame, and why Paris became the focal point of their activities is the subject of Paul Metzner's absorbing study. Covering the years 1775 to 1850, Metzner describes the careers of a handful of virtuosos: chess masters who played several games at once; a chef who sculpted hundreds of four-foot-tall architectural fantasies in sugar; the first police detective, whose memoirs inspired the invention of the detective story; a violinist who

played whole pieces on a single string. He examines these virtuosos as a group in the context of the society that was then the capital of Western civilization. [Orphan Train](#) - Christina Baker Kline 2013-04-02

The #1 New York Times Bestseller Now featuring a sneak peek at Christina's forthcoming novel *The Exiles*, coming August 2020. "A lovely novel about the search for family that also happens to illuminate a fascinating and forgotten chapter of America's history. Beautiful."—Ann Packer Between 1854 and 1929, so-called orphan trains

ran regularly from the cities of the East Coast to the farmlands of the Midwest, carrying thousands of abandoned children whose fates would be determined by pure luck. Would they be adopted by a kind and loving family, or would they face a childhood and adolescence of hard labor and servitude? As a young Irish immigrant, Vivian Daly was one such child, sent by rail from New York City to an uncertain future a world away. Returning east later in life, Vivian leads a quiet, peaceful existence on the coast of Maine, the memories of her upbringing rendered a hazy blur. But in her attic, hidden in trunks, are vestiges of a turbulent past. Seventeen-year-old Molly Ayer knows that a community service position helping an elderly woman clean out her home is the only thing keeping her out of juvenile hall. But as Molly helps Vivian sort through her keepsakes and possessions, she discovers that she and Vivian aren't as different as they appear. A Penobscot Indian who has spent her youth in and out of

foster homes, Molly is also an outsider being raised by strangers, and she, too, has unanswered questions about the past. Moving between contemporary Maine and Depression-era Minnesota, *Orphan Train* is a powerful novel of upheaval and resilience, of second chances, and unexpected friendship.

Pygmy - Chuck Palahniuk
2009-09-30

"Begins here first account of operative me, agent number 67 on arrival midwestern American airport greater ____ area. Flight ____ . Date ____ . Priority mission top success to complete. Code name:

Operation Havoc." Thus speaks Pygmy, one of a handful of young adults from a totalitarian state sent to the United States, disguised as exchange students, to live with typical American families and blend in, all the while planning an unspecified act of massive terrorism. Palahniuk depicts Midwestern life through the eyes of this thoroughly indoctrinated little killer, who hates Americans with a passion, in this cunning double-edged satire of a xenophobia that might, in fact, be completely justified.

Marihuana - E.L. Abel
2013-06-29

Of all the plants men have ever grown, none has been praised and denounced as often as marihuana (*Cannabis sativa*). Throughout the ages,

marihuana has been extolled as one of man's greatest benefactors and cursed as one of his greatest scourges. Marihuana is undoubtedly a herb that has been many things to many people. Armies and navies have used it to make war, men and women to make love. Hunters and fishermen have snared the most ferocious creatures, from the tiger to the shark, in its herculean weave. Fashion designers have dressed the most elegant women in its supple knit. Hangmen have snapped the necks of thieves and murderers with its fiber. Obstetricians have eased the pain of childbirth with its leaves. Farmers have crushed its seeds and used the oil within to light their lamps. Mourners have thrown its seeds into blazing fires and have had their sorrow transformed into blissful ecstasy by the fumes that filled the air. Marihuana has been known by many names: hemp, hashish, dagga, bhang, loco weed, grass-the list is endless. Formally christened *Cannabis sativa* in 1753 by Carl

Linnaeus, marihuana is one of nature's hardiest specimens. It needs little care to thrive. One need not talk to it, sing to it, or play soothing tranquil Brahms lullabies to coax it to grow. It is as vigorous as a weed. It is ubiquitous. It flourishes under nearly every possible climatic condition.

Extinctions - Josephine Wilson
2018-11-20

Funny, poignant, and galvanizing by turns, Josephine Wilson's award-winning novel explores many kinds of extinction—natural, racial, national, and personal—and what we might do to prevent them. Professor Frederick Lothian, retired engineer, has quarantined himself in a place he hates: a retirement village. His headstrong wife Martha, adored by all, is dead. His adopted daughter Caroline has cut ties, and his son Callum is

lost to him in his own way. And though Frederick knows, logically, that a structural engineer can devise a bridge for any situation, somehow his own troubled family—fractured by years of secrets and lies—is always just out of his reach. When a series of unfortunate incidents brings him and his spirited next-door neighbor Jan together, Frederick gets a chance to build something new in the life he has left. At the age of 69, he has to confront his most complex emotional relationships and the haunting questions he’s avoided all his life. Unbeknownst to him, Caroline—on her own journey of cultural reckoning—is doing the same. As father and daughter fight in their own ways to save what’s lost, they might finally find a way toward each other. A masterful portrait of a man caught by history, and a sweeping meditation on the meaning of family, love, survival, and identity, *Extinctions* asks an urgent question: can we find the courage to change?

Infinite Jest - David Foster Wallace 2009-04-13

A gargantuan, mind-altering comedy about the Pursuit of Happiness in America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, *Infinite Jest* explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal

parts philosophical quest and screwball comedy, *Infinite Jest* bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do. An inside look at seven of the most harrowing and significant Special Operations missions ever. Courage beyond reason. Loyalty beyond faith.

Perseverance in the face of overwhelming adversity. These are just some of the qualities of

the members of the U.S. Special Operation Forces. BEYOND HELL AND BACK details the seven defining Special Ops missions that have made the Special Operation Forces the best fighting unit in the world, including: *THE RESCUE OF BAT-21: The largest and longest Combat Search and Rescue mission in the Vietnam War lasted 17 days and cost the lives of 13 Americans—all to rescue one man and the invaluable knowledge he alone possessed. * TASK FORCE NORMANDY: Planned in secrecy and executed with flawless efficiency, Task Force Normandy was an Army/Air Force Special Operations joint op that fired the opening shots behind enemy lines in Operation Desert Storm.

*OPERATION EAGLE CLAW: The devastating Special Forces operation mounted to retrieve 52 American hostages in Iran resulted in the deaths of eight members of the rescue team. This failure ultimately led to the creation of Special Operations Command. *BASHER 52: Captain Scott O'Grady was shot down over the "no fly" zone above Bosnia, and his daring rescue was one of the Marine Corps' finest operations ever. These are a few of the dramatic true tales that represent the defining moments that helped shape the operational methods, planning, and deployment for all future Special Ops missions.
