Moreta: Dragonlady of Pern - Anne McCaffrey
2002-02-26

Anne McCaffrey draws the reader back in time to an earlier Pern to tell the story of one of Pern's great and true heroines. An air of pleasant anticipation hung so thickly over the Halls, Holds and Weyrs of Pern that it had affected even the businesslike ways of Moreta,

the Weyrwoman of Fort Weyr, where her dragon, Queen Orloth, would soon clutch. Then without warning, a runnerbeast fell ill. Soon myriads of holders, craftsmen, and dragonriders were dying; and the mysterious ailment had spread to all but the most inaccessible holds. Pern was in mortal danger. For, if dragonriders did not rise to char Thread, the parasite would

devour any and all organic life it encountered. The future of the planet rested in the hands of Moreta and the other deicated, lelfless Pernese leaders. But of all their problems, the most difficult to overcome was time. . . .

Say It Louder! - Tiffany Cross 2020-07-06
A breakout media and political analyst delivers a sweeping snapshot of American Democracy and the role that African Americans have played in

its shaping while offering concrete information to help harness the electoral power of the country's rising majority and exposing political forces aligned to subvert and suppress Black voters. Black voters were critical to the Democrats' 2018 blue wave. In fact, 90 percent of Black voters supported Democratic House candidates, compared to just 53 percent of all voters. Despite media narratives, this was not a fluke. Throughout U.S. history, Black people have played a crucial role in the shaping of the American experiment. Yet still, this powerful voting bloc is often dismissed as some "amorphous" deviation, argues Tiffany Cross. Say It Louder! is her explosive examination of how America's composition was designed to exclude Black voters, but paradoxically would likely cease to exist without them. With multiple tentacles stretching into the cable news echo chamber, campaign leadership, and Black voter data, Cross creates a wrinkle in time with a reflective look at the timeless efforts endlessly

attempting to deny people of color the right to vote—a basic tenet of American democracy. And yet as the demographics of the country are changing, so too is the electoral power construct—by evolution and by force, Cross declares. Grounded in the most-up-to-date research, Say It Louder! is a vital tool for a wide swath of constituencies.

Not Out Of Africa - Mary Lefkowitz 2008-08-04
Not Out of Africa has sparked widespread debate over the teaching of revisionist history in schools and colleges. Was Socrates black? Did Aristotle steal his ideas from the library in Alexandria? Do we owe the underlying tenets of our democratic civilization to the Africans? Mary Lefkowitz explains why politically motivated histories of the ancient world are being written and shows how Afrocentrist claims blatantly contradict the historical evidence. Not Out of Africa is an important book that protects and argues for the necessity of historical truths and standards in cultural education. For this new

paperback edition, Mary Lefkowitz has written an epilogue in which she responds to her critics and offers topics for further discussion. She has also added supplementary notes, a bibliography with suggestions for further reading, and a glossary of names.

Cyber-Safe Kids, Cyber-Savvy Teens - Nancy E. Willard 2007-03-16

Essential strategies to keep children and teens safe online As our children and teens race down the onramp to the Information Superhighway, many parents feel left behind in the dust. News stories about online sexual predators, child pornography, cyberbullies, hate groups, gaming addiction, and other dangers that lurk in the online world make us feel increasingly concerned about what our children are doing (and with whom) in cyberspace. In *Cyber-Safe Kids, Cyber-Savvy Teens*, Internet safety expert Nancy Willard provides you with need-to-know information about those online dangers, and she gives you the practical parenting strategies necessary to help children and teens learn to use the Internet safely and responsibly. Parents protect younger children by keeping them in safe places, teaching them simple safety rules,

and paying close attention. As children grow, we help them gain the knowledge, skills, and values to make good choices--choices that will keep them safe and show respect for the rights of others. In *Cyber-Safe Kids, Cyber-Savvy Teens*, Willard shows you how those same strategies can be translated from the real world to the cyberworld, and that you don't have to learn advanced computer skills to put them into effect. As you work on these strategies with your child, you will also discover that remaining engaged with what your children are doing online is much more valuable than any blocking software you could buy. "Willard blends the perspectives of a wise parent and a serious scholar about issues related to Internet behavior and safety. . . . Pick up the book, open it to any random page, and you will find on that page or nearby a wealth of helpful advice and useful commentary on the cyberreality facing our children and on how to deal with any of the issues she's identified." -- Dick Thornburgh, J.D., former U.S. Attorney

General; chair, National Academy of Sciences Committee on Youth Pornography and the Internet "Simply put, this book is a must-read for anyone--parents, educators, law enforcement, and policymakers alike--concerned with the critical issue of children's internet safety and what to do about it." --Douglas Levin, senior director of education policy, Cable in the Classroom

Debunking Howard Zinn - Mary Grabar
2019-08-20

Howard Zinn's A People's History of the United States has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book Debunking Howard Zinn, which demolishes Zinn's Marxist talking points that now dominate American education. In Debunking Howard Zinn, you'll learn, contra

Zinn: How Columbus was not a genocidal maniac, and was, in fact, a defender of Indians
Why the American Indians were not feminist-communist sexual revolutionaries ahead of their time
How the United States was founded to protect liberty, not white males' ill-gotten wealth
Why Americans of the "Greatest Generation" were not the equivalent of Nazi war criminals
How the Viet Cong were not well-meaning community leaders advocating for local self-rule
Why the Black Panthers were not civil rights leaders
Grabar also reveals Zinn's bag of dishonest rhetorical tricks: his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If you care about America's past—and our future—you need this book.

Movies R Fun! - Josh Cooley 2014-02-25

Let's face it, reading sucks . . . but movies are fun! In this children's picture book parody for grown-ups, Pixar writer and artist Josh Cooley presents the most hilariously inappropriate—that is, the best-scenes from contemporary classic films in an illustrated, for-early-readers style. Terrifying, sexy, and awesome scenes from such favorite films as *Alien*, *Rosemary's Baby*, *Fargo*, *Basic Instinct*, *Seven*, *The Silence of the Lambs*, *Apocalypse Now*, *The Shining*, and many more are playfully illustrated and captioned to make reading fun and exciting for kids who never grew up. A sly celebration of the things fans love

most about these legendary films (and movies in general), this is one book that probably should not be read at bedtime.

Sutherland Springs, Texas - Richard B.

McCaslin 2017-02-15

In Sutherland Springs, Texas, Richard B.

McCaslin explores the rise and fall of this rural community near San Antonio primarily through the lens of its aspirations to become a resort spa town, because of its mineral water springs, around the turn of the twentieth century. Texas real estate developers, initially more interested in oil, brought Sutherland Springs to its peak as a resort in the early twentieth century, but failed to transform the farming settlement into a resort town. The decline in water tables during the late twentieth century reduced the mineral water flows, and the town faded. Sutherland Springs's history thus provides great insights into the importance of water in shaping settlement. Beyond the story of resort spa aspirations lies a history of the community and its people itself.

McCaslin provides a complete history of Sutherland Springs from early settlement through Civil War and into the twentieth century, its agricultural and oil-drilling exploits alongside its mineral water appeal, as well as a complete community history of the various settlers and owners of the springs/hotel.

The Princess and the Prophet - Jacob S.

Dorman 2020-03-03

The just-discovered story of how two enigmatic circus performers and the cultural ferment of the Gilded Age sparked the Black Muslim movement in America. Delving into new archives and uncovering fascinating biographical narratives, secret rituals, and hidden identities, historian Jacob Dorman explains why thousands of Americans were enthralled by the Islamic Orient, and why some came to see Islam as a global antiracist movement uniquely suited to people of African descent in an era of European imperialism, Jim Crow segregation, and officially sanctioned racism. *The Princess and the Prophet*

tells the story of the Black Broadway performer who, among the world of Arabian acrobats and equestrians, Muslim fakirs, and Wild West shows, discovered in Islam a greater measure of freedom and dignity, and a rebuttal to the racism and parochialism of white America. Overturning the received wisdom that the prophet was born on the East Coast, Dorman has discovered that Noble Drew Ali was born Walter Brister in Kentucky. With the help of his wife, a former lion tamer and "Hindoo" magician herself, Brister renamed himself Prophet Noble Drew Ali and founded the predecessor of the Nation of Islam, the Moorish Science Temple of America, in the 1920s. With an array of profitable businesses, the "Moors" built a nationwide following of thousands of dues-paying members, swung Chicago elections, and embedded themselves in Chicago's dominant Republican political machine at the height of Prohibition racketeering, only to see their sect descend into infighting in 1929 that likely

claimed the prophet's life. This fascinating untold story reveals that cultures grow as much from imagination as inheritance, and that breaking down the artificial silos around various racial and religious cultures helps to understand not only America's hidden past but also its polycultural present.

When and Where I Enter - Paula J. Giddings
2009-10-06

"History at its best—clear, intelligent, moving. Paula Giddings has written a book as priceless as its subject"—Toni Morrison Acclaimed by writers Toni Morrison and Maya Angelou, Paula Giddings's When and Where I Enter is not only an eloquent testament to the unsung contributions of individual women to our nation,

but to the collective activism which elevated the race and women's movements that define our times. From Ida B. Wells to the first black Presidential candidate, Shirley Chisholm; from the anti-lynching movement to the struggle for suffrage and equal protection under the law; Giddings tells the stories of black women who transcended the dual discrimination of race and gender—and whose legacy inspires our own generation. Forty years after the passing of the Voting Rights Act, when phrases like "affirmative action" and "wrongful imprisonment" are rallying cries, Giddings words resonate now more than ever.

Hammer and Hoe - Robin D. G. Kelley
2015-08-03

A groundbreaking contribution to the history of the "long Civil Rights movement," Hammer and Hoe tells the story of how, during the 1930s and 40s, Communists took on Alabama's repressive, racist police state to fight for economic justice, civil and political rights, and racial equality. The

Alabama Communist Party was made up of working people without a Euro-American radical political tradition: devoutly religious and semiliterate black laborers and sharecroppers, and a handful of whites, including unemployed industrial workers, housewives, youth, and renegade liberals. In this book, Robin D. G. Kelley reveals how the experiences and identities of these people from Alabama's farms, factories, mines, kitchens, and city streets shaped the Party's tactics and unique political culture. The result was a remarkably resilient movement forged in a racist world that had little tolerance for radicals. After discussing the book's origins and impact in a new preface written for this twenty-fifth-anniversary edition, Kelley reflects on what a militantly antiracist, radical movement in the heart of Dixie might teach contemporary social movements confronting rampant inequality, police violence, mass incarceration, and neoliberalism.

TextAppeal - for Guys! - Michael Masters

2012-02-10

From the Author: Wouldn't you like to know: Why she text you so much before but now NOTHING?? Why your multiple texts are killing the attraction? Why she is playing so hard to get? If she actually is interested in you? How to have her text you back immediately? How to safely flirt with the amazing results? How to have her waiting for your text rather than the opposite??? What if... She were the one texting you all of the time? You could get her to respond, right now!? You could get that really hot girl to finally pay attention to you? You stopped feeling so much anxiety over that one girl because too many girls were paying attention to you?? I promise you this, if you read this book and apply it's principles, you will have so much more success with women. Imagine, all of the cash you are leaving on the table by not understanding how to get what you want! Imagine, all of those dates, with so many hot girls that you didn't go on simply because you couldn't text right!

Seriously, texting incorrectly can crush your chances with women permanently. I can't tell you how many women have vented to me their frustrations at what you are doing. These women WANT you to understand, they WANT you to say the right things! But like breaking wind mid sex, it is incredibly easy to snuff attraction. Let me teach you to really understand the opposite sex, and land that date with that really hot/amazing girl. -Mike Masters

Chicago's New Negroes - Davarian L. Baldwin 2009-11-30

As early-twentieth-century Chicago swelled with an influx of at least 250,000 new black urban migrants, the city became a center of consumer capitalism, flourishing with professional sports, beauty shops, film production companies, recording studios, and other black cultural and communal institutions. Davarian Baldwin argues

that this mass consumer marketplace generated a vibrant intellectual life and planted seeds of political dissent against the dehumanizing effects of white capitalism. Pushing the traditional boundaries of the Harlem Renaissance to new frontiers, Baldwin identifies a fresh model of urban culture rich with politics, ingenuity, and entrepreneurship. Baldwin explores an abundant archive of cultural formations where an array of white observers, black cultural producers, critics, activists, reformers, and black migrant consumers converged in what he terms a "marketplace intellectual life." Here the thoughts and lives of Madam C. J. Walker, Oscar Micheaux, Andrew "Rube" Foster, Elder Lucy Smith, Jack Johnson, and Thomas Dorsey emerge as individual expressions of a much wider spectrum of black political and intellectual possibilities. By placing consumer-based amusements alongside the more formal arenas of church and academe, Baldwin suggests important new directions for

both the historical study and the constructive future of ideas and politics in American life.

Paved with Good Intentions - Jared Taylor
2004-12-01

This is the book that established Jared Taylor as an expert and commentator on race relations. The publishers of American Renaissance have reprinted this classic with a new preface for the 2004 edition by Jared Taylor. Why read a book that first appeared in 1992? There are two reasons. First, it is still an eye-opening account of a series of terrible mistakes we have made with regard to one of the most sensitive and difficult aspects of our nations history. Some of the characters in Americas continuing racial drama have changed since 1992, but a surprising number have not, and the empty sloganeering that passes for public discourse has slackened only a little. The second reason to read this book is less important but of a certain historical interest. In its own modest way, Paved With Good Intentions was part of a steady

evolution in what it is permitted to say about race in the American mainstream.

The Suppression of the African Slave Trade to the United States of America: 1638-1870

Downloaded from clcnetwork.org on by

- W.E.B. Du Bois 2018-02-06

'This monograph was begun during my residence as Rogers Memorial Fellow at Harvard University, and is based mainly upon a study of the sources, i.e., national, State, and colonial statutes, Congressional documents, reports of societies, personal narratives, etc. The collection of laws available for this research was, I think, nearly complete; on the other hand, facts and statistics bearing on the economic side of the study have been difficult to find, and my conclusions are consequently liable to modification from this source. The question of the suppression of the slave-trade is so intimately connected with the questions as to its rise, the system of American slavery, and the whole colonial policy of the eighteenth century, that it is difficult to isolate it, and at the same time to avoid superficiality on the one hand, and unscientific narrowness of view on the other. While I could not hope entirely to overcome such a difficulty, I nevertheless trust that I have

succeeded in rendering this monograph a small contribution to the scientific study of slavery and the American Negro.' William Edward Burghardt "W. E. B." Du Bois (1868 - 1963) was an American sociologist, historian, civil rights activist, Pan-Africanist, author, writer and editor. Born in Great Barrington, Massachusetts, Du Bois grew up in a relatively tolerant and integrated community. After completing graduate work at the University of Berlin and Harvard, where he was the first African American to earn a doctorate, he became a professor of history, sociology and economics at Atlanta University. Du Bois was one of the co-founders of the National Association for the Advancement of Colored People in 1909.
