As this the greek world 479 323 bc the routledge history of the ancient world, it ends happening inborn one of the favored ebook the greek world 479 323 bc the routledge history of the ancient world collections that we have. This is why you remain in the best website to see the incredible book to have.

Empires of the Sea - 2019-10-07

Empires of the Sea brings together studies of maritime empires from the Bronze Age to the Eighteenth Century. The volume develops the category of maritime empire as a specific type of empire in both European and 'non-western' history.

The Origins of the Peloponnesian War - Geoffrey Ernest Maurice De Ste. Croix 1972

"The Peloponnesian War (431-404 BC) was an ancient Greek war fought by Athens and its empire against the Peloponnesian League led by Sparta."--Wikipedia.

A Companion to the Classical Greek World - Konrad H. Kinzl 2010-01-11

This Companion provides scholarly yet accessible new interpretations of Greek history of the Classical period, from the aftermath of the Persian Wars in 478 B.C. to the death of Alexander the Great in 323 B.C. Topics covered range from the political and institutional structures of Greek society, to literature, art, economics, society, warfare, geography and the environment. Discusses the problems of interpreting the various sources for the period. Guides the reader towards a broadly-based understanding of the history of the Classical Age.

The Greek World, 479-323 BC - Simon Hornblower 2002

The Greek World 479-323 BC has been an indispensable guide to classical Greek history since its first publication. Now Simon Hornblower has comprehensively rewritten and revised his original text, bringing it up to date for a new generation of readers. The extensive changes made include the addition of two important new chapters - on Argos, and the Peloponnesian War - and the incorporation of further primary sources. Also new are more than thirty illustrations, the insertion of user-friendly subheadings, and a completely updated bibliography. With valuable coverage of the broader Mediterranean world in which Greek culture flourished, as well as close examination of Athens, Sparta, and the other great city-states of Greece itself, this third edition of a classic work is a more essential read than ever.

The Greek World - Simon Hornblower 2011 History.

Alexander the Great - Ian Worthington 2003

This exciting new volume includes a selection of the most significant and representative published articles and chapters about Alexander and covers all the main areas of debate and discussion in Alexander scholarship.

The Beginnings of Rome - Tim Cornell 2012-12-06

Using the results of archaeological techniques, and examining methodological debates, Tim Cornell provides a lucid and authoritative account of the rise of Rome. *The Beginnings of Rome* offers insight on major issues such as: Rome's relations with the Etruscans the conflict between patricians and plebeians the causes of Roman imperialism the growth of slave-based economy. Answering the need for raising acute questions and providing an analysis of the many different kinds of archaeological evidence with literary sources, this is the most comprehensive study of the subject available, and is essential reading for students of Roman history.

Aspects of Greek History, 750-323 BC - Terry Buckley 1996

Aspects of Greek History, 750 - 323 BC is an up-to-date textbook on ancient Greek history that, topic-by-topic, uses a wealth of original sources to interpret this history for those with little prior knowledge of the subject. Chapter by chapter, the relevant historical periods from the age of colonisation to Alexander the Great are reconstructed. The book covers the main literary sources: Aristotle, Diodorus, Herodotus, Plutarch, Thucydides, and Xenophon; Greek political and military history from the beginnings to Alexander's Battle of Gaugamela. It includes

maps, a glossary of Greek terms, and a full bibliography. Overall, this is an indispensable collection of material for the student of classics as well as the general reader, who requires a grounding in Greek history.

Athenian Democracy - John Thorley 2012-08-21

The fifth century BC witnessed not only the emergence of one of the first democracies, but also the Persian and the Peloponnesian Wars. John Thorley provides a concise analysis of the development and operation of Athenian democracy against this backdrop. Taking into account both primary source material and the work of modern historians, *Athenian Democracy* examines: * the prelude to democracy * how the democratic system emerged * how this system worked in practice * the efficiency of this system of government * the success of Athenian democracy.

Including a useful chronology and bibliography, this second edition has been updated to take into account recent research.

Interstate Arbitrations in the Greek World, 337-90 B.C. - Sheila L. Ager 1997-05-05

A great deal of information has come to light over the past several decades about the role of arbitration between the Greek states. Arbitration and mediation were, in fact, central institutions in Hellenistic public life. In this comprehensive study, Sheila Ager brings together the scattered body of literary and epigraphical sources on arbitration, together with up-to-date bibliographic references, and commentary. The sources collected here range widely; Ager presents an exhaustive record of documents ranging from the settlement of a minor territorial squabble between two tiny city-states to the resolution of major conflicts separating the great powers of the day. In addition, Ager's introduction sets the documents in historical context and outlines distinctions among categories of arbitration. The work also includes indices to literary passages, inscriptions, persons, places, subjects, and Greek and Latin terms in the documents. This collection of many previously inaccessible texts will become a primary resource for any scholar or student working in the field of Hellenistic history.

From Democrats to Kings - Michael Scott 2010-09-16

Michael Scott explores the dramatic and little-known story of how the ancient world was turned from a democracy into a monarchy in this superb example of popular history writing.

A History of the Classical Greek World - P. J. Rhodes 2011-08-24

Thoroughly updated and revised, the second edition of this successful and widely praised textbook offers an account of the 'classical' period of Greek history, from the aftermath of the Persian Wars in 478 BC to the death of Alexander the Great in 323 BC. Two important new chapters have been added, covering life and culture in the classical Greek world. Features new pedagogical tools, including textboxes, and a comprehensive chronological table of the West, mainland Greece, and the Aegean. Enlarged and additional maps and illustrative material. Covers the history of an important period, including: the flourishing of democracy in Athens; the Peloponnesian war, and the conquests of Alexander the Great. Focuses on the evidence for the period, and how the evidence is to be interpreted.

The Oxford Companion to Classical Civilization - Simon Hornblower 2014. Illustrated with full-color plates and 140 black-and-white pictures, an encyclopedic, exhaustive, and up-to-date guide contains finely detailed articles and short reference notes on the people, places, and events that shaped ancient Western civilization. UP.

The Conquests of Alexander the Great - Waldemar Heckel 2012-03-29

In this book, Waldemar Heckel traces the rise and eventual fall of one of the most successful military commanders in history. In 325 BCE, Alexander and his conquering army prepared to return home, after overcoming everything in their path: armies, terrain, climate, all invariably hostile. Little did they know that within two years their

beloved king would be dead and their labours seemingly wasted. Tracing the rise and eventual fall of one of the most successful military commanders in history, Heckel engagingly and with great detail shows us how Alexander earned his appellation, The Great.

Herodotus: Histories Book V - Herodotus 2013-12-12

A historical and literary commentary in English on a central book of one of the two most important classical Greek historians.

The Greek World After Alexander 323-30 BC - Graham Shipley 2014-03-18

The Greek World After Alexander 323-30 BC examines social changes in the old and new cities of the Greek world and in the new post-Alexandrian kingdoms. An appraisal of the momentous military and political changes after the era of Alexander, this book considers developments in literature, religion, philosophy, and science, and establishes how far they are presented as radical departures from the culture of Classical Greece or were continuous developments from it. Graham Shipley explores the culture of the Hellenistic world in the context of the social divisions between an educated elite and a general population at once more mobile and less involved in the political life of the Greek city.

Cultural Responses to the Persian Wars - Emma Bridges 2007-02-15

Cultural Responses to the Persian Wars addresses the huge impact on subsequent culture made by the wars fought between ancient Persia and Greece in the early fifth century BC. It brings together sixteen interdisciplinary essays, mostly by classical scholars, on individual trends within the reception of this period of history, extending from the wars' immediate impact on ancient Greek history to their reception in literature and thought both in antiquity and in the post-Renaissance world. Extensively illustrated and accessibly written, with a detailed Introduction and bibliographies, this book will interest historians, classicists, and students of both comparative and modern literatures.

Greek History: The Basics - Robin Osborne 2014-05-30

Greek History: The Basics is a concise and compelling introduction to the study of Ancient Greece from the end of the Bronze Age to rule by Rome. With a chapter on each crucial period of Greece's ancient history, the book covers the key topics, approaches and issues at the heart of Greek History, including: • The invention of politics and the rise of democracy • The central role played by the Greek city • The insights from cultural, political, demographic and economic history • The benefits and pitfalls of working with different types of sources. Featuring maps, illustrations, a timeline and annotated guides to further reading, this book is an engaging and authoritative introduction for students of Ancient Greek History.

The Greek World 479-323 BC - Simon Hornblower 2011-03-17

The Greek World 479-323 BC has been an indispensable guide to classical Greek history since its first publication nearly thirty years ago. Now Simon Hornblower has comprehensively revised and partly rewritten his original text, bringing it up-to-date for yet another generation of readers. In particular, this fourth edition takes full account of recent and detailed scholarship on Greek poleis across the Hellenic world, allowing for further development of the key theme of regional variety across the Mediterranean and beyond. Other extensive changes include a new sub-chapter on Islands, a completely updated bibliography, and revised citation of epigraphic material relating to the fourth-century BC. With valuable coverage of the broader Mediterranean world in which Greek culture flourished, as well as close examination of Athens, Sparta, and the other great city-states of Greece itself, this fourth edition of a classic work is a more essential read than ever before.

A History of the Archaic Greek World, ca. 1200-479 BCE - Jonathan M. Hall 2013-08-19

A History of the Archaic Greek World offers a theme-based approach to the development of the Greek world in the years 1200-479 BCE. Updated and extended in this edition to include two new sections, expanded geographical coverage, a guide to electronic resources, and more illustrations Takes a critical and analytical look at evidence about the history of the archaic Greek World Involves the reader in the practice of history by questioning and reevaluating conventional beliefs Casts new light on traditional themes such as the rise of the city-state, citizen militias, and the origins of egalitarianism Provides a wealth of archaeological evidence, in a number of different specialties, including ceramics, architecture, and mortuary studies

Greece in the Making 1200-479 BC - Robin Osborne 2009-03-16

Greece in the Making 1200-479 BC is an accessible and comprehensive account of Greek history from the end of the Bronze Age to the Classical Period. The first edition of this book broke new ground by acknowledging

that, barring a small number of archaic poems and inscriptions, the majority of our literary evidence for archaic Greece reported only what later writers wanted to tell, and so was subject to systematic selection and distortion. This book offers a narrative which acknowledges the later traditions, as traditions, but insists that we must primarily confront the contemporary evidence, which is in large part archaeological and art historical, and must make sense of it in its own terms. In this second edition, as well as updating the text to take account of recent scholarship and re-ordering, Robin Osborne has addressed more explicitly the weaknesses and unsustainable interpretations which the first edition chose merely to pass over. He now spells out why this book features no 'rise of the polis' and no 'colonization', and why the treatment of Greek settlement abroad is necessarily spread over various chapters. Students and teachers alike will particularly appreciate the enhanced discussion of economic history and the more systematic treatment of issues of gender and sexuality.

The Roman Empire at Bay, AD 180-395 - David Stone Potter 2004

At the outset of the period covered by this book, Rome was the greatest power in the world. By its end, it had fallen conclusively from this dominant position. David Potter's comprehensive survey of two critical and eventful centuries traces the course of imperial decline.

Apuleius and Africa - Benjamin Todd Lee 2014-05-09

The Metamorphoses or Golden Ass of Apuleius (ca. 170 CE) is a Latin novel written by a native of Madauros in Roman North Africa, roughly equal to modern Tunisia together with parts of Libya and Algeria. Apuleius' novel is based on the model of a lost Greek novel; it narrates the adventures of a Greek character with a Roman name who spends the bulk of the novel transformed into an animal, traveling from Greece to Rome only to end his adventures in the capital city of the empire as a priest of the Egyptian goddess Isis. Apuleius' Florida and Apology deal more explicitly with the African provenance and character of their author while also demonstrating his complex interaction with Greek, Roman, and local cultures. Apuleius' philosophical works raise other questions about Greek vs. African and Roman cultural identity. Apuleius in Africa addresses the problem of this intricate complex of different identities and its connection to Apuleius' literary production. It especially emphasizes Apuleius' African heritage, a heritage that has for the most part been either downplayed or even deplored by previous scholarship. The contributors include philologists, historians, and experts in material culture; among them are some of the most respected scholars in their fields. The chapters give due attention to all elements of Apuleius' oeuvre, and break new ground both on the interpretation of Apuleius' literary production and on the culture of the Roman Empire in the second century. The volume also includes a modern, sub-Saharan contribution in which "Africa" mainly means Mediterranean Africa.

Greek Hoplite 480-323 BC - Nicholas Sekunda 2000-12-25

The Greek hoplite, the archetypal spear-armed warrior, is perhaps the most prevalent figure in our view of the 'Golden Age' of Ancient Greek civilisation. It was during this period that the state began to take greater responsibility for military organisation, and the arming and equipping of its citizens. From the victory at Marathon over Darius of Persia (490 BC), through bitter inter-state warfare, to the rise of Philip of Macedonia and his son Alexander the Great, the hoplite soldier was in the front-line. This title narrates the life and experiences of the common Greek warrior, how he was recruited, trained and fought, and also looks in detail at how his weapons, armour, shields and helmets developed in the course of time.

A History of Greece, 1300 to 30 BC - Victor Parker 2014-01-28

A History of Greece: 1300-30 BC, offers a comprehensive introduction to the foundational political history of Greece, from the late Mycenaean Age through to the death of Cleopatra VII, the last Hellenistic monarch of Egypt. Introduces textual and archaeological evidence used by historians to reconstruct historical events during Greece's Bronze, Archaic, Classical, and Hellenistic periods Reveals the political and social structure of the Greek world in the late Mycenaean period (thirteenth century BC) through analysis of the Linear B tablets, the oldest surviving records in Greek Features numerous references to original source materials, including various fragmentary papyri, inscriptions, coins, and other literary sources Provides extensive coverage of the Hellenistic period, and covers areas excluded from most Greek history texts, including the Greek West Features judicious use of illustrations throughout, and considers instructors' teaching needs by structuring the later sections to facilitate teaching a parallel course in Roman History Balances scholarship with a reader-friendly approach to create an accessible introduction to the political history of one of most remarkable ancient civilizations and sophisticated periods of world history

The Ancient Near East, C. 3000-330 BC - Amélie Kuhrt 1995

A single-authored two-volume work which makes no claims to comprehensiveness, but selectively treats periods and areas usually studied in universities (treatment of Egypt is brief because of the availability of studies of Egyptian history at all levels). It is intended as an introduction to ancient Near Eastern history, to the main sources used for reconstructing societies and political systems, and to some historical problems and scholarly debates. The area discussed extends from Turkey (Anatolia) and Egypt in the west through the Levant (which includes Israel, Lebanon, Jordan, and Syria west of the Euphrates) to Mesopotamia into Iran. Volume I covers c.3000 BC to c.1200 BC; volume II, 1200 BC to 330 BC. The author is a Reader in Ancient History at University College London. Annotation copyright by Book News, Inc., Portland, OR.

The Greek Historians - T. James Luce 2002-09-11

The Greeks invented history as a literary genre in the fifth century B.C. The first historians owed much to Homer and adopted his vivid and direct style in narrating historical events. Yet, despite the influence of Homer the birth of history was basically a reaction against mythical accounts of the past. Homer wrote about war and travel in foreign lands, in the distant and mythical past. In contrast, the Greek historians of the fifth century wrote about contemporary or very recent events, where eye witnesses could be interviewed and facts checked. The Greek Historians follows the development of history from Herodotus, via Thucydides, Xenophon and Polybius, until the Hellenistic age. It introduces the individual writers and their topics, yet it also outlines their attitudes to historiography and their criticisms of each other. Such themes as the uses and value of truth and causation are traced, as well as the growing constraints on free speech under Hellenistic monarchs and the Romans. Written in an accessible and captivating manner, with suggestions for further reading, this book serves as a lucid introduction to Greek historians and writing of history.

The Greek World - Anton Powell 2002-09-11

Studying from the Mycenaean to the late Hellenistic period, this work includes new articles by twenty-seven specialists of ancient Greece, and presents an examination of the Greek cultures of mainland Greece, Asia Minor, Egypt and Italy. With the chapters sharing the theme of social history, this fascinating book focuses on women, the poor, and the slaves - all traditionally seen as beyond the margins of power and includes the study of figures who were on the literal margins of the Greek world. Bringing to the forefront the research into areas previously thought of as marginal, Anton Powell sheds new light on vital topics and authors who are central to the study of Greek culture. Plato's reforms are illuminated through a consideration of his impatient and revolutionary attitude to women, and Powell also examines how the most potent symbol of central Greek history - the Parthenon - can be understood as a political symbol when viewed with the knowledge of the cosmetic techniques used by classical Athenian women. The Greek World is a stimulating and enlightening interaction of social and political history, comprehensive, and unique to boot, students will undoubtedly benefit from the insight and knowledge it imparts.

The Greek World 479-323BC - Simon Hornblower 2013-01-11

The main aim of this book is to do justice to all the areas of the Mediterranean world in which Greek culture flourished in the fifth and the fourth centuries BC.

Greek History - Robin Osborne 2004

An accessible introduction for first year undergraduates to Greek history from the end of the Bronze Age (c.1200 BC) to the Roman conquest of Greece in the second century BC.

The Cambridge Companion to Archaic Greece - H. A. Shapiro 2007-05-07

The Cambridge Companion to Archaic Greece provides a wide-ranging synthesis of history, society, and culture during the formative period of Ancient Greece, from the Age of Homer in the late eighth century to the Persian Wars of 490-480 BC. In ten clearly written and succinct chapters, leading scholars from around the English-speaking world treat all aspects of the civilization of Archaic Greece, from social, political, and military history to early achievements in poetry, philosophy, and the visual arts. Archaic Greece was an age of experimentation and intellectual ferment that laid the foundations for much of Western thought and culture. Individual Greek city-states rose to great power and wealth, and after a long period of isolation, many cities sent out colonies that spread Hellenism to all corners of the Mediterranean world. This Companion offers a vivid and fully documented account of this critical stage in the history of the West.

The Roman World 44 BC-AD 180 - Martin Goodman 2002-04-12

Goodman presents a lucid and balanced picture of the Roman world examining the Roman empire from a variety of perspectives; cultural, political, civic, social and religious.

The Greek and Persian Wars 500-323 BC - Jack Cassin-Scott 1977-06-01
In the early 5th century BC, after the fall of the Lydian Empire, the Persian Wars began. It was an ideological conflict which pitted a proud, democratic, freedom-loving people against a tyrannical and mighty empire. The stories of the many battles fought between the Greeks and the Persians are here splendidly brought to life by Jack Cassin-Scott, who details the tactics, organisation and uniforms of the armies of both sides in a volume featuring numerous illustrations and museum photographs, plus eight full page colour plates superbly drawn by the author himself.

Classical Greece, 500-323 BC - Robin Osborne 2000

The complete Short Oxford History of Europe (series editor: Professor T C W Blanning) will cover the history of Europe from Classical Greece to the present in eleven volumes. In each, experts write to their strengths tackling the key issues, including society, economy, religion, politics, and culture, head-on in chapters that will be at once wide-ranging surveys and searching analyses. Each book is specifically designed with the non-specialist reader in mind; but the authority of the contributors and the vigour of the interpretations will make them necessary and challenging reading for fellow a ...

A History of the Greek World - Max Ludwig Wolfram Laistner 1962

A Companion to Archaic Greece - Kurt A. Raaflaub 2012-12-21

A systematic survey of archaic Greek society and culture which introduces the reader to a wide range of new approaches to the period. The first comprehensive and accessible survey of developments in the study of archaic Greece Places Greek society of c.750-480 BCE in its chronological and geographical context Gives equal emphasis to established topics such as tyranny and political reform and newer subjects like gender and ethnicity Combines accounts of historical developments with regional surveys of archaeological evidence and in-depth treatments of selected themes Explores the impact of Eastern and other non-Greek cultures in the development of Greece Uses archaeological and literary evidence to reconstruct broad patterns of social and cultural development

A History of Ancient Persia - Maria Brosius 2020-10-29

An innovative approach to the history of the First Persian Empire, offering an accessible historical narrative for students and general readers alike A History of the Achaemenid Empire considers archaeological and written sources to provide an expansive, source-based introduction to the diverse and culturally rich world of ancient Achaemenid Persia. Assuming no prior background, this accessible textbook follows the dynastic line from the establishment and expansion of the empire under the early Achaemenid kings to its collapse in 330 BCE. The text integrates the latest research, key primary sources, and archaeological data to offer readers deep insights into the empire, its kings, and its people. Chronologically organized chapters contain written, archaeological, and visual sources that highlight key learning points, stimulate discussion, and encourage readers to evaluate specific pieces of evidence. Throughout the text, author Maria Brosius emphasizes the necessity to critically assess Greek sources—highlighting how their narrative of Achaemenid political history often depicted stereotypical images of the Persians rather than historical reality. Topics include the establishment of empire under Cyrus the Great, Greek-Persian relations, the creation of a Persian ruling class, the bureaucracy and operation of the empire, Persian diplomacy and foreign policy, and the reign of Darius III. This innovative textbook: Offers a unique approach to Achaemenid history, considering both archaeological and literary sources Places primary Persian and Near Eastern sources in their cultural, political, and historical context Examines material rarely covered in non-specialist texts, such as royal inscriptions, Aramaic documents, and recent archaeological finds Features a comprehensive introduction to Achaemenid geography, Greek historiography, and modern scholarship on the Persian War Part of the acclaimed Blackwell History of the Ancient World series, A History of the Achaemenid Empire is a perfect primary textbook for courses in Ancient History, Near Eastern Studies, and Classical Civilizations, as well as an invaluable resource for general readers with interest in the history of empires, particularly the first Persian empire or Iranian civilization.

Through the Pillars of Herakles - Duane W. Roller 2013-01-11

In this first study of the Greek and Roman exploration for over half a century, Duane W. Roller presents an important examination of the

impact of the Greeks and Romans on the world through the Pillars of Herakles and beyond the Mediterranean. Roller chronicles a detailed account of the series of explorers who were to discover the entire Atlantic coast; north to Iceland, Scandinavia and the Baltic, and south into the Africa tropics. His account examines these early pioneers and their discoveries, and contributes a brand new chapter to the history of exploration. Based not only on the literary evidence, but also personal knowledge of the areas from the Arctic to west Africa, the book looks at the people, from the earliest Greeks, through the Carthaginians to the Romans, and examines their exploration of this vast and largely unfamiliar territory. Discussing for the first time the relevance of Iceland and the Arctic to Greco-Roman culture, this groundbreaking work is an enthralling and informative read that will be an invaluable study resource for Greek and Roman history courses.

The Wars of Alexander the Great - Waldemar Heckel 2014-06-06

The age of Alexander and his conquest of the Persian or 'Achaemenid' Empire, which had existed for over two centuries, represents a watershed in the history of the world. This book offers a fascinating insight into the achievements of one of the greatest generals ever known. Alexander's conquests are of profound significance. By perfecting the new weapons and tactics developed by his father, Philip II, and

combining them with the use of specialist units and advancements in siege warfare, Alexander enabled the Macedonian kingdom to move beyond the restrictions of city-state armies and on to the stage of world conquest.

Archaic and Classical Greece - Michael H. Crawford 1983-01-13

The aim of this book is to collect in one comprehensive volume a representative selection of ancient sources in translation, with commentary, on the history, institutions, society and economy of the Greek world from c. 750 to 338 BC - that is, the period best known and most important for the evolution of the polis, a form of political community which combined the aspects of city and state in a physical and psychological unity unparalleled either before or since. For us, the inheritors of much that the Greeks created, there is an inherent interest in the way in which they organised their society during these centuries. Although this book assumes no knowledge of Greek, the reader is introduced to a range of key Greek words and concepts which offer a direct insight into the mentality, both collective and individual, of the times. The sources themselves (all of which have been translated by the authors) are supported by introductory commentary, notes, bibliographies, chronological tables and maps. All students and teachers of the history of ancient Greece or of classical civilisation generally will find this book an invaluable tool.
