Bowing to Elephants - Mag Dimond 2019-09-17

In *Bowing to Elephants*, a woman seeking love and authenticity comes to understand herself as a citizen of the world through decades of wandering the globe. During her travels she sees herself more clearly as she gazes into the feathery eyes of a 14,000-pound African elephant and looks for answers to old questions in Vietnam and the tragically ravaged landscape of Cambodia. *Bowing to Elephants* is a travel memoir with a twist—the story of an unloved rich girl from San Francisco who becomes a travel junkie, searching for herself in the world to avoid the tragic fate of her narcissistic, alcoholic mother. Haunted by images of childhood loneliness and the need to learn about her world, Dimond journeys to far-flung places—into the perfumed chaos of India, the nostalgic, damp streets of Paris, the gray, watery world of Venice in the winter, the reverent and silent mountains of Bhutan, and the gold temples of Burma. In the end, she accepts the death of the mother she never really had—and finds peace and her authentic self in the refuge of Buddhist practice.

Introduction The world of elephants is a fascinating place! There is so much we can learn about them, and yet there are still mysteries about them waiting to be revealed. There may be stories you have heard about elephants. Now the question is, "Are those stories fact or fiction? Are they true or false?" One bit of information you may have heard is that elephants have a good memory. That is very true! It is so true, that it is believed that elephants have a better memory than humans do. Elephants can remember other elephants that they may not have seen in years. They can also remember being treated unkindly by someone even though many years may have passed. Another story that is often thought about with elephants is, "Are they afraid of mice?" You might have heard that elephants fear mice because they can run up the elephant's trunk. But the answer here is that this story is not true, and there is no proof of any kind to support

this. It may not surprise you know that the elephants of today are related to the Ice Age Mammoth. At one time there were over 350 different species of elephants, yet today we have only two species left! Can you name the two species? What you may be surprised to learn is that elephants were not always the large creatures you see today. In fact, in prehistoric times, the elephant was as small as the size of a cow or pig. Would it surprise you to learn that the elephants of today are related to the sea cow known as the Manatee? Did you know that when the elephants flap their ears they do it for a reason? Or do you know what jobs the elephants use their tusks for? An elephant's tusk can be smaller on one side than the other. Do you know the reason why? Did you know that a female elephant will spend her whole life in one herd, while the male elephant usually live their lives alone sometime after the age of 14? As you can see, there are many interesting things that can be learned about this tremendous sized animal with the ivory tusks.

Geek Love - Katherine Dunn 2011-05-25

National Book Award finalist Here is the unforgettable story of the Binewskis, a circus-geek family whose matriarch and patriarch have bred their own exhibit of human oddities (with the help of amphetamine,

arsenic, and radioisotopes). Their offspring include Arturo the Aquaboy, who has flippers for limbs and a megalomaniac ambition worthy of Genghis Khan . . . Iphy and Elly, the lissome Siamese twins . . . albino hunchback Oly, and the outwardly normal Chick, whose mysterious gifts make him the family's most precious—and dangerous—asset. As the Binewskis take their act across the backwaters of the U.S., inspiring fanatical devotion and murderous revulsion; as its members conduct their own Machiavellian version of sibling rivalry, *Geek Love* throws its sulfurous light on our notions of the freakish and the normal, the beautiful and the ugly, the holy and the obscene. Family values will never be the same.

The Last Elephants - Colin Bell 2019-03-01

The Africa-wide Great Elephant Census of 2016 produced shocking findings: a decimated elephant population whose numbers were continuing to plummet. Elephants are killed, on average, every 15-20 minutes - a situation that will see the final demise of these intelligent, extraordinary animals in less than three decades. They are a species in crisis. This magnificent book offers chapters written by the most prominent people in the realm of conservation and wildlife, among them researchers, conservationists, film makers, criminologists, TV personalities and journalists. Photographs have been selected from among Africa's best wildlife photographers, and the Foreword is provided by Prince William. It is hoped this book will create awareness of the devastating loss of elephant lives in Africa and stem the tide of poaching and hunting; that it will inspire the delegates to CITES to make informed decisions to ensure that all loopholes in the ivory trade are closed; and that countries receiving and using ivory (both legal and poached) - primarily China, Vietnam, Laos and Japan - ban and strenuously police its trade and use within their borders, actively pursuing and arresting syndicate leaders driving the cruel poaching tsunami. This book is also a tribute to the many people who work for the welfare of elephants, particularly those who risk their lives for wildlife each day, often for little or no pay - in particular the field rangers and the anti-poaching teams; and to the many communities around Africa that have elected to work with elephants and not against them. The Last Elephants - is the title prophetic? We hope not, but the signs are worrying.

The Elephants Come Home - Kim Tomsic 2021-05-18

The amazing true story of a herd of elephants, the man who saved them, and the miracle of love that brought them home. One day in 1999, Lawrence Anthony and Françoise Malby hear that a herd of wild African elephants need a new home. They welcome the elephants to their wildlife sanctuary—Thula Thula—with open arms. But the elephants are much

less sure they want to stay. How will Lawrence prove to them that they are safe and loved? What follows is a gorgeously illustrated real-life story of a friendship . . . and the story of the miraculous way that love given freely will return—greater and more wonderful than it began. •

TOUCHING ANIMAL FRIENDSHIPS: Owen and Mzee, Tarra and Bella, Rescue and Jessica . . . touching true stories of the emotional bonds possible between species are charming, and speak to the limitlessness of love. • ELEPHANT APPEAL: Elephants are one of the most fascinating and charming wild animals in all of nature. This heartwarming true story will intrigue and inspire children, and turn even the most reluctant readers into elephant enthusiasts. • CONSERVATION THEME: This book tells the true story of caring for one of the world's most beloved endangered animals: the African elephant. This book is a great, upbeat jumping-off point for discussions of the importance of preserving endangered species and their environments. • ENGAGING NONFICTION: There's no better way to get readers hooked on factual books than to offer them real-life stories with heart and meaning. • STRONG CURRICULUM CONNECTIONS: The Next Generation Science Standards (NGSS) emphasize learning about animal habitats/biomes in K-2 curriculums, while later grades address topics like conservation and endangered species. With a depth of research and an engaging, highly visual narrative, this book is an excellent resource for librarians and primary school educators. Perfect for: • Kindergarten and elementary school teachers • Parents and grandparents • Librarians • Lovers of animals, wildlife, and the natural world • Zoo and natural history museumgoers

Elephant Company - Vicki Croke 2015-04-14

NEW YORK TIMES BESTSELLER • A NEW YORK TIMES NOTABLE BOOK The remarkable story of James Howard "Billy" Williams, whose uncanny rapport with the world's largest land animals transformed him from a carefree young man into the charismatic war hero known as Elephant Bill In 1920, Billy Williams came to colonial Burma as a "forest man" for a British teak company. Mesmerized by the intelligence and character of the great animals who hauled logs through the jungle, he

became a gifted "elephant wallah." In Elephant Company, Vicki Constantine Croke chronicles Williams's growing love for elephants as the animals provide him lessons in courage, trust, and gratitude. Elephant Company is also a tale of war and daring. When Japanese forces invaded Burma in 1942, Williams joined the elite British Force 136 and operated behind enemy lines. His war elephants carried supplies, helped build bridges, and transported the sick and elderly over treacherous mountain terrain. As the occupying authorities put a price on his head, Williams and his elephants faced their most perilous test. Elephant Company, cornered by the enemy, attempted a desperate escape: a risky trek over the mountainous border to India, with a bedraggled group of refugees in tow. Part biography, part war epic, Elephant Company is an inspirational narrative that illuminates a little-known chapter in the annals of wartime heroism. Praise for Elephant Company "This book is about far more than just the war, or even elephants. This is the story of friendship, loyalty and breathtaking bravery that transcends species. . . . Elephant Company is nothing less than a sweeping tale, masterfully written."—Sara Gruen, The New York Times Book Review "Splendid . . . Blending biography, history, and wildlife biology, [Vicki Constantine] Croke's story is an often moving account of [Billy] Williams, who earned the sobriquet 'Elephant Bill,' and his unusual bond with the largest land mammals on earth."—The Boston Globe "Some of the biggest heroes of World War II were even bigger than you thought. . . . You may never call the lion the king of the jungle again."—New York Post "Vicki Constantine Croke delivers an exciting tale of this elephant whisperer-cum-war hero, while beautifully reminding us of the enduring bonds between animals and humans."—Mitchell Zuckoff, author of Lost in Shangri-La and Frozen in Time

Today is Pet Club day. There will be cats and dogs and fish, but strictly no elephants are allowed. The Pet Club doesn't understand that pets come in all shapes and sizes, just like friends. Now it is time for a boy and his tiny pet elephant to show them what it means to be a true friend. Imaginative and lyrical, this sweet story captures the magic of friendship and the joy of having a pet.
