Over the next week, Pindar introduces Joe to a series of "go-

spearheads the new Three Nations Petroleum Company. What follows, with characteristic lyrical dexterity, insight, and wit, introduces us to a memorable cast of characters, weaving together narratives of competing worlds through masterful storytelling. The Story of My Teeth - Valeria Luiselli 2015-09-07

“Luiselli follows in the imaginative tradition of writers like Borges and Márquez, but her style and concerns are unmistakably her own. This deeply playful novel is about the passion and obsession of collecting, the nature of storytelling, the value of objects, and the complicated bonds of family. . . Luiselli has become a writer to watch, in part because it’s truly hard to know (but exciting to wonder about) where she will go next.”—The New York Times I was born in Pachuca, the Beautiful Windy City, with four premature teeth and my body completely covered in a very fine coat of fuzz. But I'm grateful for that inauspicious start

because ugliness, as my other uncle, Eurípides López Sánchez, was given to saying, is character forming. Highway is a late-in-life world traveler, yarn spinner, collector, and legendary auctioneer. His most precious possessions are the teeth of the "notorious infamous" like Plato, Petrarch, and Virginia Woolf. Written in collaboration with the workers at a Jumex juice factory, Teeth is an elegant, witty, exhilarating romp through the industrial suburbs of Mexico City and Luiselli's own literary influences.

Valeria Luiselli was born in Mexico City in 1983 and grew up in South Africa. Her work has been translated into many languages and has appeared in publications including the New York Times, Granta, and McSweeney's. Her novel, The Story of My Teeth, is the winner of the LA Times Book Prize in Fiction.

Epoch Dawning - C. H. E. Sadaphal 2013-07-11

If technology gave Adam and Eve the chance to start again, what would they choose to do? In the future, the Singularity exists. Did it decide that humans are a threat, or that we could be put to better use? Is life pre-determined, or are we in full command of our own destinies? All of these questions will be answered and more in the groundbreaking new novel, Epoch Dawning. In 2089, when two people inadvertently become the contemporary Adam and Eve, they are faced with the unfathomable choice to rebirth humanity--or terminate life altogether. Epoch Dawning follows the paths that lead cynical genius Asher Grant and steadfast Evelyn Coble to their unwanted roles as the last man and woman on earth. Asher and Evelyn's fates are a byproduct of the destruction of the "Collective". The global network of consciousness connected the minds--thoughts, intentions, and desires--of every human being. But when the network was compromised, every person linked to it perished. Asher and Evelyn were the only two people (or

so they thought) in the world who were not plugged in. Asher Grant survived the apocalypse onboard a spaceship heading for an international space colony. He had not planned on returning. The irony did not amuse him. Now drowning in grief and completely uninterested in his Eve, Asher is hell-bent on choosing extinction. Evelyn Coble survived the apocalypse in an underground shelter after a confrontation with the very man who ended the world and then took his own life. If Evelyn had not long ago repented and dedicated her life to goodness, she would not have been there with him at all. Now Evelyn can turn only to her convictions in attempt to convince Asher that life is worth living--and the world worth repopulating. This innovative novel began as a literary journey that attempted to explain "the gap theory," but soon developed into a far-reaching story that encompassed the realms of science fiction, speculative fiction, fate, spirituality, purpose, love and human nature.--Provided by publisher.

Dark Stories - Alfonso Font 2019-06-14
With an extremely critical eye, brilliant comic artist Alfonso Font explores some of the darkest facets of mankind and showcases the vilest human weaknesses as a gloomy farce. Written and drawn over 30 years ago, "Dark Stories" first appeared independently in a Spanish magazine, but was never before published in an album format. Now, finally, the stories compiled in this volume have not lost any of their momentum. The compelling aesthetic sensitivity of Mr. Font and his uninhibited drawing style are not for the faint of heart - the powerful imagery and the morbid humor run like golden thread throughout the book and will leave almost nobody indifferent.

Cavenomics: Turing Towards Light - Dr. Binu Peniel 2017-06-20

A journey through this book is intended to create a lasting influence in the lives of people through creating values. The allegory of the cave by Plato is the genre of this book. Plato claims that knowledge gained through the senses is no more than opinion and in order to have real knowledge we must gain it through philosophical reasoning. I believe that enlightenment is possible only through awareness and through a mind shift. This work brings value to your life

which is Christ-centered, innovative, motivational and empowering and it is a journey towards light. There are many people who journey with me in this process of healing, recovery and restoration from a labor trafficking situation. I truly believe no one can be a slave until and unless one gives up ones willpower and ones own desire to be set free. Cavenomics is an attempt to enlighten your mind, your spirit, your soul and your being. Liberation, freedom, recovery and restoration is possible. Cavenomics is the mantra for success.

The Only Harmless Great Thing - Brooke

Fordlandia - Greg Grandin 2010-04-27

The stunning, never before told story of the quixotic attempt to recreate small-town America in the heart of the Amazon In 1927, Henry Ford, the richest man in the world, bought a tract of land twice the size of Delaware in the Brazilian Amazon. His intention was to grow rubber, but

the project rapidly evolved into a more ambitious bid to export America itself, along with its golf courses, ice-cream shops, bandstands, indoor plumbing, and Model Ts rolling down broad streets. Fordlandia, as the settlement was called, quickly became the site of an epic clash. On one side was the car magnate, lean, austere, the man who reduced industrial production to its simplest motions; on the other, the Amazon, lush, extravagant, the most complex ecological system on the planet. Ford's early success in imposing time clocks and square dances on the jungle soon collapsed, as indigenous workers, rejecting his midwestern Puritanism, turned the place into a ribald tropical boomtown. Fordlandia's eventual demise as a rubber plantation foreshadowed the practices that today are laying waste to the rain forest. More than a parable of one man's arrogant attempt to force his will on the natural world, Fordlandia depicts a desperate quest to salvage the bygone America that the Ford factory system did much to

dispatch. As Greg Grandin shows in this gripping and mordantly observed history, Ford's great delusion was not that the Amazon could be tamed but that the forces of capitalism, once released, might yet be contained. *Fordlandia* is a 2009 National Book Award Finalist for Nonfiction.

The Fifth Discipline - Peter M. Senge 2010-03-31
MORE THAN ONE MILLION COPIES IN PRINT

• “One of the seminal management books of the past seventy-five years.”—Harvard Business Review This revised edition of the bestselling classic is based on fifteen years of experience in putting Peter Senge’s ideas into practice. As Senge makes clear, in the long run the only sustainable competitive advantage is your organization’s ability to learn faster than the competition. The leadership stories demonstrate

the many ways that the core ideas of the Fifth Discipline, many of which seemed radical when first published, have become deeply integrated into people’s ways of seeing the world and their managerial practices. Senge describes how companies can rid themselves of the learning blocks that threaten their productivity and success by adopting the strategies of learning organizations, in which new and expansive patterns of thinking are nurtured, collective aspiration is set free, and people are continually learning how to create the results they truly desire. Mastering the disciplines Senge outlines in the book will:

- Reignite the spark of genuine learning driven by people focused on what truly matters to them
- Bridge teamwork into macrocreativity
- Free you of confining assumptions and mindsets
- Teach you to see the forest and the trees
- End the struggle between work and personal time

This updated edition contains more than one hundred pages of new material based on interviews with dozens of

practitioners at companies such as BP, Unilever, Intel, Ford, HP, and Saudi Aramco and organizations such as Roca, Oxfam, and The World Bank.

Small Wonder - Barbara Kingsolver 2009-10-13

In twenty-two wonderfully articulate essays,

Barbara Kingsolver raises her voice in praise of nature, family, literature, and the joys of everyday life while examining the genesis of war, violence, and poverty in our world. From the author of *High Tide in Tucson*, comes *Small Wonder*, a new collection of essays that begins with a parable gleaned from recent news: villagers search for a missing infant boy and find him, unharmed, in the cave of a dangerous bear that has mothered him like one of her own. Clearly, our understanding of evil needs to be revised. What we fear most can save us. From this tale, Barbara Kingsolver goes on to consider the chasm between the privileged and the poor, which she sees as the root cause of violence and war in our time. She writes about her attachment to the land, to nature and wilderness, trees and mountains—the place from which she tells her stories. Whether worrying about the dangers of genetically engineered food crops, or creating opportunities for children to feel useful and competent—like growing food for

the family's table - Kingsolver looks for small wonders, where they grow, and celebrates them.

Who Stole the American Dream? - Hedrick Smith 2013-08-27

Pulitzer Prize winner Hedrick Smith's new book is an extraordinary achievement, an eye-opening account of how, over the past four decades, the American Dream has been dismantled and we became two Americas. In his bestselling *The Russians*, Smith took millions of readers inside the Soviet Union. In *The Power Game*, he took us inside Washington's corridors of power. Now Smith takes us across America to show how seismic changes, sparked by a sequence of

landmark political and economic decisions, have transformed America. As only a veteran reporter can, Smith fits the puzzle together, starting with Lewis Powell's provocative memo that triggered a political rebellion that dramatically altered the landscape of power from then until today. This is a book full of surprises and revelations—the accidental beginnings of the 401(k) plan, with disastrous economic consequences for many; the major policy changes that began under Jimmy Carter; how the New Economy disrupted America's engine of shared prosperity, the "virtuous circle" of growth, and how America lost the title of "Land of Opportunity." Smith documents the transfer of \$6 trillion in middle-class wealth from homeowners to banks even before the housing boom went bust, and how the U.S. policy tilt favoring the rich is stunting America's economic growth. This book is essential reading for all of us who want to understand America today, or why average Americans are struggling to keep afloat. Smith

reveals how pivotal laws and policies were altered while the public wasn't looking, how Congress often ignores public opinion, why moderate politicians got shoved to the sidelines, and how Wall Street often wins politically by hiring over 1,400 former government officials as lobbyists. Smith talks to a wide range of people, telling the stories of Americans high and low. From political leaders such as Bill Clinton, Newt Gingrich, and Martin Luther King, Jr., to CEOs such as Al Dunlap, Bob Galvin, and Andy Grove, to heartland Middle Americans such as airline mechanic Pat O'Neill, software systems manager Kristine Serrano, small businessman John Terboss, and subcontractor Eliseo Guardado, Smith puts a human face on how middle-class America and the American Dream have been undermined. This magnificent work of history and reportage is filled with the penetrating insights, provocative discoveries, and the great empathy of a master journalist. Finally, Smith offers ideas for restoring America's great

promise and reclaiming the American Dream. Praise for *Who Stole the American Dream?* “[A] sweeping, authoritative examination of the last four decades of the American economic experience.”—The Huffington Post “Some fine work has been done in explaining the mess we’re in. . . . But no book goes to the headwaters with the precision, detail and accessibility of Smith.”—The Seattle Times “Sweeping in scope . . . [Smith] posits some steps that could alleviate the problems of the United States.”—USA Today “Brilliant . . . [a] remarkably comprehensive and coherent analysis of and prescriptions for America’s contemporary economic malaise.”—Kirkus Reviews (starred review) “Smith enlivens his narrative with portraits of the people caught up in events, humanizing complex subjects often rendered sterile in economic analysis. . . . The human face of the story is inseparable from the history.”—Reuters
Night Driving - Chad Bird 2017
Journeys that begin in brokenness rarely follow a

straight road to healing. There are twists and turns--and setbacks--on the path of repentance. *Night Driving* tells the story of a pastor and seminary professor whose moral failures destroyed his marriage and career, left his life in ruins, and sent him spiraling into a decade-long struggle against God. Forced to fight the demons of his past in the cab of the semi-truck he drove at night through the Texas oil fields, Chad Bird slowly began to limp toward grace and healing. Drawing on his expertise as an Old Testament scholar, Bird weaves together his own story, the biblical story, and the stories of fellow prodigals as he peels back the layers of denial, anger, addiction, and grief to help readers come face-to-face both with their own identities and with the God who alone can heal them.

Son of a Trickster - Eden Robinson 2017-02-07
Shortlisted for the Scotiabank Giller Prize: With

striking originality and precision, Eden Robinson, the author of the classic *Monkey Beach* and winner of the Writers' Trust of Canada Fellowship, blends humour with heartbreak in this compelling coming-of-age novel. Everyday teen existence meets indigenous beliefs, crazy family dynamics, and cannibalistic river otters . . . The exciting first novel in her trickster trilogy. Everyone knows a guy like Jared: the burnout kid in high school who sells weed cookies and has a scary mom who's often wasted and wielding some kind of weapon. Jared does smoke and drink too much, and he does make the best cookies in town, and his mom is a mess, but he's also a kid who has an immense capacity for compassion and an impulse to watch over people more than twice his age, and he can't rely on anyone for consistent love and support, except for his flatulent pit bull, Baby Killer (he calls her Baby)--and now she's dead. Jared can't count on his mom to stay sober and stick around to take care of him. He can't rely on

his dad to pay the bills and support his new wife and step-daughter. Jared is only sixteen but feels like he is the one who must stabilize his family's life, even look out for his elderly neighbours. But he struggles to keep everything afloat...and sometimes he blacks out. And he puzzles over why his maternal grandmother has never liked him, why she says he's the son of a trickster, that he isn't human. Mind you, ravens speak to him--even when he's not stoned. You think you know Jared, but you don't.

Wrong Lanes Have Right Turns - Michael
Phillips 2022-01-25

The unforgettable true story of one man's escape from the school-to-prison pipeline, how he reinvented himself as a pastor and education

reform advocate, and what his journey can teach us about turning the collateral damage in the lives of our youth into hope. "A heart-wrenching and triumphant story that will change lives."—Bishop T. D. Jakes Michael Phillips would never become anything. At least, that's what he was told. It seemed like everyone was waiting for him to just fall through the cracks. After losing his father, suffering a life-altering car accident, and losing his college scholarship, Michael turned to selling drugs to make ends meet. But when his house was raided, he was arrested and thrown into a living nightmare. When it looked like he would be sentenced to spend years behind bars, the judge gave him a choice—go to a special college program for adjudicated youth or face the possibility of a thirty-year prison sentence. It wasn't hard to pick. From that choice, a mission was born—to help change the system that shuffles so many young Black men like Michael straight from school to prison. Today, Michael is the pastor of

a thriving church, a local leader in Baltimore, and a member of the Maryland State Board of Education. He discovered that education was the path to becoming who he was created to be. Armed with research, statistics, and his powerful story, Michael tackles the embedded privilege of the education system and introduces ideas for change that could level the playing field and reduce negative impacts on vulnerable youth. He explores ways in which the readers can help advocate and provide resources for students, and points us to the one thing anyone can start doing, no matter who we are or what our role is: speak into young kids' lives. Tell them of their inherent worth and purpose. In this inspiring, thought-provoking, and energizing call to action, Michael's practical steps provide a way forward to anyone wanting to help create space for collateral hope in the lives of for young people around them.

The Parade - Dave Eggers 2019-03-19

From the bestselling author of The Monk of Mokha and The Circle comes a taut, suspenseful story of two foreigners' role in a nation's fragile peace. An unnamed country is leaving the darkness of a decade at war, and to commemorate the armistice the government commissions a new road connecting two halves of the state. Two men, foreign contractors from the same company, are sent to finish the

highway. While one is flighty and adventurous, wanting to experience the nightlife and people, the other wants only to do the work and go home. But both men must eventually face the absurdities of their positions, and the dire consequences of their presence. With echoes of J. M. Coetzee and Graham Greene, this timeless novel questions whether we can ever understand another nation's war, and what role we have in forging anyone's peace.
