[In the Shadow of the Axe](#) - Nicholas Kaufmann 2016-09-25

The year is 1847, and Kasch Möllhausen has returned to the small German mountain village of Helmburg in disgrace. Kicked out of the Swiss boarding school where he was unforgivably abandoned by his father, Luther Möllhausen, his humiliating homecoming is further complicated by the news that Luther has died. Worse, Kasch learns that the father he has come to despise instructed the village elders not to inform Kasch of his death or invite him back for the funeral. But not everyone hates Luther as much as Kasch does. To the people of Helmburg, Luther was a hero. Shortly before Kasch was born, Luther led an uprising against the Necromancer, a mysterious figure who lived in a castle high in the mountains and preyed mercilessly upon the villagers. It was Luther who struck the final blow and put an end to the Necromancer's reign of terror. But Kasch finds Helmburg is still a haunted village. The ghosts of the Necromancer's victims have begun appearing at night, and the old survivors of the uprising are being killed one by one, their bodies chopped to pieces. With the help of Hahn Gehrig, the elderly village doctor, and Liese Maentel, Kasch's childhood love, he sets out to discover if the Necromancer is still alive—which would prove once and for all that his father was no hero—or if someone else is responsible for the murders, a madman living among them with no conscience or mercy. The terrifying truth he uncovers will change Helmburg forever—because the past leaves a long shadow, and the axe has only just begun to fall. Also included with *In the Shadow of the Axe*, a bonus short story — "(F)earless".

[The Axe](#) - Sigrid Undset 2013-02-06

Set in 13th-century Norway, *The Axe* is the first volume in Undset's epic tetralogy, *The Master of Hestviken*. In it, we meet Olav Audunsson and Ingunn Steinfinnsdatter, who were betrothed as children and raised as brother and sister. In the heedlessness of youth, they become lovers, unaware that their ardor will forge the first link in a chain of murder, exile, and disgrace. Undset's novel is also a meticulous re-creation of a world split between pagan codes of retribution and the rigors of Christian piety--a world where law is a fragile new invention and manslaughter is so common that it's punishable by a fine."Undset reproduces medieval Norway in all the rich pageantry of color and form...she can transport us eight centuries and several thousand miles more effectively than most writers can take us into the house next door."--*The Nation*

The Surat Castle traded regularly between the port of London and Table Bay, and so well-known was she as a fast-sailing, seaworthy vessel, with excellent accommodation, and such was the popularity and reputation of her commander and part-owner, Captain John Ladds, that many Cape gentlemen, who had occasion to make the trip to the old country and back every two or three years, preferred taking their passage in her rather than in the ordinary mail-packets.
