The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

There's No Such Thing as Bad Weather - Linda Åkeson McGurk
2017-10-03

Bringing Up Bébé meets Last Child in the Woods in this "fascinating exploration of the importance of the outdoors to childhood development" (Kirkus Reviews) from a Swedish-American mother who sets out to

discover if the nature-centric parenting philosophy of her native Scandinavia holds the key to healthier, happier lives for her American children. Could the Scandinavian philosophy of "There's no such thing as bad weather, only bad clothes" hold the key to happier, healthier lives for American children? When Swedish-born Linda Åkeson McGurk moved to Indiana, she quickly learned that the nature-centric parenting philosophies of her native Scandinavia were not the norm. In Sweden, children play outdoors year-round, regardless of the weather, and letting babies nap outside in freezing temperatures is common and recommended by physicians. Preschoolers spend their days climbing trees, catching frogs, and learning to compost, and environmental education is a key part of the public-school curriculum. In the US, McGurk found the playgrounds deserted, and preschoolers were getting drilled on academics with little time for free play in nature. And when a swimming outing at a nearby creek ended with a fine from a park officer, McGurk realized that the parenting philosophies of her native country and her adopted homeland were worlds apart. Struggling to decide what was best for her family, McGurk embarked on a six-month journey to Sweden with her two daughters to see how their lives would change in a place where spending time in nature is considered essential to a good childhood. Insightful and lively, *There's No Such Thing as Bad Weather* is a fascinating personal narrative that illustrates how Scandinavian culture could hold the key to raising healthy, resilient, and confident children in America.

To the Lighthouse - Virginia Woolf 2019-05-04

To the Lighthouse (5 May 1927) is a novel by Virginia Woolf. A landmark novel of high modernism, the text, centering on the Ramsay family and their visits to the Isle of Skye in Scotland between 1910 and 1920, skillfully manipulates temporality and psychological exploration. *To the Lighthouse* follows and extends the tradition of modernist novelists like Marcel Proust and James Joyce, where the plot is secondary to philosophical introspection, and the prose can be...

Help! There's a Toddler in the House! - Thomas M. Reimers
2011-03-01

Toddlers and preschoolers are unpredictable, and their antics often keep parents guessing: Why won't my five-year-old eat his veggies? Why does my two-year-old keep biting her sister? Why can't my three-year-old stay in his own bed? Why must I repeat myself every time I tell my daughter to do something? The naughty as well as challenging behaviors of young children can drive even the most patient parents to their wits' end. In these pages, parents learn how to cope with and correct many of the most common behavioral problems that little ones demonstrate.

Tales of the Cthulhu Mythos - H. P. Lovecraft 2011-10-12

"The oldest and strongest emotion of mankind is fear, and the oldest and strongest kind of fear is fear of the unknown." --H. P. LOVECRAFT,

"Supernatural Horror in Literature" Howard Phillips Lovecraft forever changed the face of horror, fantasy, and science fiction with a remarkable series of stories as influential as the works of Poe, Tolkien, and Edgar Rice Burroughs. His chilling mythology established a gateway between the known universe and an ancient dimension of otherworldly terror, whose unspeakable denizens and monstrous landscapes--dread Cthulhu, Yog-Sothoth, the Plateau of Leng, the Mountains of Madness--have earned him a permanent place in the history of the macabre. In *Tales of the Cthulhu Mythos*, a pantheon of horror and fantasy's finest authors pay tribute to the master of the macabre with a collection of original stories set in the fearsome Lovecraft tradition: *The Call of Cthulhu* by H. P. Lovecraft: The slumbering monster-gods return to the world of mortals. *Notebook Found in a Deserted House* by Robert Bloch: A lone farmboy chronicles his last stand against a hungering backwoods evil. *Cold Print* by Ramsey Campbell: An avid reader of forbidden books finds a treasure trove of deadly volumes--available for a bloodcurdling price. *The Freshman* by Philip José Farmer: A student of the black arts receives an education in horror at notorious Miskatonic University. PLUS EIGHTEEN MORE SPINE-TINGLING TALES!

Children of the Troubles - Joe Duffy 2020-01-07

"The bullets didn't just travel in distance, they travelled in time. Some of those bullets never stop travelling." Jack Kennedy, father of James Kennedy On 15th August 1969, nine-year-old Patrick Rooney became the

first child killed as a result of the 'Troubles' - one of 186 children who would die in the conflict in Northern Ireland. Fifty years on, these young lives are honoured in a memorable book that spans a singular era. From the teenage striker who scored two goals in a Belfast schools cup final, to the aspiring architect who promised to build his mother a house, to the five-year-old girl who wrote in her copy book on the day she died, 'I am a good girl. I talk to God', *Children of the Troubles* recounts the previously untold story of Northern Ireland's lost children -- and those who died in the Republic, the UK and as far afield as West Germany -- and the lives that might have been. Based on original interviews with almost one hundred families, as well as extensive archival research, this unique book includes many children who have never been publicly acknowledged as victims of the Troubles, and draws a compelling social and cultural picture of the era. Much loved, deeply mourned, and never forgotten, *Children of the Troubles* is both an acknowledgement of and a tribute to young lives lost.

[Book of Rhymes](#) - Adam Bradley 2017-06-27

If asked to list the greatest innovators of modern American poetry, few of us would think to include Jay-Z or Eminem in their number. And yet hip hop is the source of some of the most exciting developments in verse today. The media uproar in response to its controversial lyrical content has obscured hip hop's revolution of poetic craft and experience: Only in rap music can the beat of a song render poetic meter audible, allowing an MC's wordplay to move a club-full of eager listeners. Examining rap history's most memorable lyricists and their inimitable techniques, literary scholar Adam Bradley argues that we must understand rap as poetry or miss the vanguard of poetry today. *Book of Rhymes* explores America's least understood poets, unpacking their surprisingly complex craft, and according rap poetry the respect it deserves.

Long Way Down - Jason Reynolds 2017-10-24

A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE

Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, *Long Way Down* is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-11-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her

or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Bridget Jones Mad About the Boy - Helen Fielding 2013-10-16

When Helen Fielding first wrote *Bridget Jones's Diary*, charting the life of a 30-something singleton in London in the 1990s, she introduced readers to one of the most beloved characters in modern literature. The book was published in 40 countries, sold more than 15 million copies worldwide, and spawned a best-selling sequel, *Bridget Jones: The Edge of Reason*. The two books were turned into major blockbuster films starring Renée Zellweger, Hugh Grant and Colin Firth. With her hotly anticipated third instalment, *Bridget Jones: Mad About the Boy*, Fielding introduces us to a whole new enticing phase of Bridget's life set in contemporary London, including the challenges of maintaining sex appeal as the years roll by and the nightmare of drunken texting, the skinny jean, the disastrous email cc, total lack of twitter followers, and

TVs that need 90 buttons and three remotes to simply turn on. An uproariously funny novel of modern life, *Bridget Jones: Mad About the Boy* is a triumphant return of our favourite Everywoman.

Understanding the Borderline Mother - Christine Ann Lawson 2002

The first love in our lives is our mother. Recognizing her face, her voice, the meaning of her moods, and her facial expressions is crucial to survival. Dr. Christine Ann Lawson vividly describes how mothers who suffer from borderline personality disorder produce children who may flounder in life even as adults, futilely struggling to reach the safety of a parental harbor, unable to recognize that their borderline parent lacks a pier, or even a discernible shore. Four character profiles describe different symptom clusters that include the waif mother, the hermit mother, the queen mother, and the witch. Children of borderlines are at risk for developing this complex and devastating personality disorder themselves. Dr. Lawson's recommendations for prevention include empathic understanding of the borderline mother and early intervention with her children to ground them in reality and counteract the often dangerous effects of living with a make-believe mother. Some readers may recognize their mothers as well as themselves in this book. They will also find specific suggestions for creating healthier relationships. Addressing the adult children of borderlines and the therapists who work with them, Dr. Lawson shows how to care for the waif without rescuing her, to attend to the hermit without feeding her fear, to love the queen without becoming her subject, and to live with the witch without becoming her victim.
