A History of the Women Marines, 1946-1977 - Mary V. StremLOW 2014-06-04

Despite the acknowledged contribution made by the 20,000 women Reservists who served in the Marine Corps during World War II, there was no thought in 1946 of maintaining women on active duty or, for that matter, even in the Reserve forces. This volume recounts the events that brought about the change in thinking on the part of Marines, both men and women, that led to the integration of women into the Corps, to the point where they now constitute eight percent of our strength. A History of the Women Marines, 1946-1977 is almost entirely derived from raw files, interviews and conversations, newspaper articles, muster rolls and unit diaries, and materials loaned by Marines. There was no one large body of records available. In the course of the project, more than 300 letters were written to individuals, several mass mailings were made, and notices soliciting information were printed in all post and station newspapers, Leatherneck, Marine Corps Gazette, Retired Marine, and the newsletters of Marine Corps associations. More than 100 written responses were received and some women Marines generously loaned us personal papers and precious scrapbooks. Especially helpful in piecing together the events between World War II and the passage of the Women's Armed Services Integration Act were the scrapbooks of former Director of Women Marines Colonel Julia E. Hamblet, and former WR Dorothy M. Munroe. Taped interviews were conducted with 32 women, including former Director of the Women's Reserve Colonel Ruth Cheney Streeter. Researching this history was a challenge. Women's units were extremely difficult to find. Only those labeled "Women Marine Company" were easily identified. At times, days were spent screening the muster rolls of all the companies of all the battalions on a base looking for one with personnel having feminine first names. More recent unit diaries were even less useful since they are not signed by

commanding officers and initials are used rather than first names. To add to the problem, the Corps had no system that permits a researcher to find a married woman when only her maiden name is known, or vice versa.

The Professor of Immortality - Eileen Pollack 2019-10-01

"A tragicomedy about the paradoxes of trying to be a decent human, and—maybe even trickier—of trying to be a decent mom" by the author of A Perfect Life (Rivka Galchen, author of Little Labors). Professor Maxine Sayers once found her personal and professional life so fulfilling that she founded the Institute for Future Studies, a program dedicated to studying the effects of technology on our culture and finding ways to prolong human life. But when her beloved husband dies, she is so devastated she can barely get out of bed. To make matters worse, her son, Zach, abruptly quit his job in Silicon Valley and has been out of contact for seven months. But Maxine is jolted from her grief by her sudden realization that a favorite former student (and a former close friend of her son) might be a terrorist called the Technobomber and that Zach might either be involved in or has become a victim of this extremist's bombing. Deserting her teaching responsibilities, her ailing mother, and an appealing suitor, Maxine is compelled to set out in search of her son in order to warn and protect him—even though she knows she should report her suspicions to the FBI to prevent greater carnage. "The Professor of Immortality is intimate and sweeping, funny and terrifying, and most of all dead-on in its observations of what it means to want to know everything about people we love while still being frightened of what we might find out: it's a detective story, and a story of motherlove. Eileen Pollack is a splendid writer." —Elizabeth McCracken, author of Bowlaway "In this exceptional novel, Eileen Pollack writes with great immediacy about the impact of grief on a parent's perception of the world. Tender, wry, full of unexpected revelations, The Professor of Immortality gripped me from the first scene, and the urgent questions it poses have stayed with me." —Idra Novey, author of Those Who Knew *The New England Business Directory and Gazetteer for ...* - 1926

Policing the Rural Crisis - Russell Hogg 2006

There is a growing sense of crisis in rural ways of life, which manifests itself in economic decline, depopulation, depleted environments, and a crisis of rural identities. Crime is one potent marker of crisis, the more so as it spoils the image of healthy, cohesive community. The social reaction it elicits, the policing of this 'other rural', is also a guide to the dimensions of crisis. The social sciences have witnessed a renewed international interest in the study of 'other rurals': the neglected, invisible or excluded aspects of country life. This book brings a fresh approach to the study of crime that challenges the urban-centric assumptions of much western criminology and sociology. It explores rural crime and social reactions to it, in relation to processes and patterns of community formation and change in rural Australia, including the

social, economic, cultural and political forces shaping the history, structure and everyday life of rural communities. Policing the Rural Crisis is based on five years of extensive original empirical research in rural and regional Australia. It draws on ideas and debates in contemporary social theory across several disciplines, making the analysis relevant to the study of crime and social change elsewhere.

Working South - Mary Whyte 2012-12-12

In Working South, renowned watercolorist Mary Whyte captures in exquisite detail the essence of vanishing blue-collar professions from across ten states in the American South with sensitivity and reverence for her subjects. From the textile mill worker and tobacco farmer to the sponge diver and elevator operator, Whyte has sought out some of the last remnants of rural and industrial workforces declining or altogether lost through changes in our economy, environment, technology, and fashion. She shows us a shoeshine man, a hat maker, an oysterman, a shrimper, a ferryman, a funeral band, and others to document that these workers existed and in a bygone era were once ubiquitous across the region. "When a person works with little audience and few accolades, a truer portrait of character is revealed," explains Whyte in her introduction. As a genre painter with skills and intuition honed through years of practice and toil, she shares much in common with the dedication and character of her subjects. Her vibrant paintings are populated by men and women, young and old, black and white to document the range Southerners whose everyday labors go unheralded while keeping the South in business. By rendering these workers amid scenes of their rough-hewn lives, Whyte shares stories of the grace, strength, and dignity exemplified in these images of fading southern ways of life and livelihood. Working South includes a foreword by Martha Severens, curator of the Greenville County Museum of Art in Greenville, South Carolina.
