America: Religions and Religion - Catherine L. Albanese 2012-01-01

Since its first publication in 1981, AMERICA: RELIGIONS AND RELIGION has become the standard introduction to the study of American religious traditions. Written by one of the foremost scholars in the field of American religions, this textbook has introduced

thousands of students to the rich religious diversity that has always been a hallmark of the American religious experience. Beginning with Native American religious traditions and following the course of America's religious history up to the present day, this text gives students the benefit of the author's rigorous scholarship in clear language that has proven to

be readily accessible for today's undergraduates. This long-awaited new edition explores a variety of recent events and developments, including increasing religious pluralism and, especially, a combinative postpluralism in which different faiths in America subtly begin to borrow from one another. The new edition examines postethnic Judaism in the Jewish Renewal movement and other instances, the growing Womenpriest movement among American Catholics, and the development of Islam in America in the light of September 11, 2001. It surveys the emerging church movement among liberal evangelicals and others, and follows the growth of a new spirituality that is much broader than the New Age movement. Do I Stay Christian? - Brian D. McLaren

2022-05-24

Dubbed "a heroic gate-crasher" by New York

Times bestselling author Glennon Doyle, Brian D. McLaren explores reasons to leave or stay within the church and if so how... "Brian's new book on remaining Christian knocks it out of the ballpark in terms of framing and naming the questions. I cannot stop reading it. Thank you, Brian!" —Fr. Richard Rohr, OFM, founder of the Center for Action and Contemplation, author of *The Universal Christ* "Any thoughtful Christian has been asking the questions McLaren tackles here, but many of us are afraid to voice them aloud. In *Do I Stay Christian?* we're gifted a gentle guide who opens ideas and voices the questions we cannot, naming our frustration, fear, and hesitant hope." —Rev. Dr. Amy Butler, former Senior Minister, The Riverside Church; Founder, Invested Faith *Do I Stay Christian?* addresses in public the powerful question that surprising numbers of people—including pastors, priests, and other religious leaders—are asking in private. Picking up where *Faith After Doubt* leaves off, *Do I Stay Christian?* is not

McLaren's attempt to persuade Christians to dig in their heels or run for the exit. Instead, he combines his own experience with that of thousands of people who have confided in him over the years to help readers make a responsible, honest, ethical decision about their religious identity. There is a way to say both yes and no to the question of staying Christian, McLaren says, by shifting the focus from whether we stay Christian to how we stay human. If *Do I Stay Christian?* is the question you're asking—or if it's a question that someone you love is asking—this is the book you've been waiting for.

Religion in 50 Words - Aaron W. Hughes
2021-09-16

Religion in 50 Words: A Critical Vocabulary is the first of a two-volume work that seeks to transform the study of religion by offering a radically critical perspective. It does so by providing a succinct and critical examination of the key words used in the modern study of

religion. Arranged alphabetically, the book explores the historic roots, varied uses, and current significance and utility of the technical terms used within the current field of religious studies. These are the terms that both students and scholars routinely deploy to think about, describe, and analyze data—sometimes without realizing that they are themselves technical tools in need of attention. Among the topics covered: Belief Critical Culture Definition Environment Gender Ideology Lived religion Material religion Orthodoxy Politics Race Sacred/profane Secular Theory This book submits all of its terms to a critical interrogation and subsequent re-description, thereby allowing a collective reframing of the field. This volume is an indispensable resource for students and academics working in religious studies.

A Little History of the World - E. H. Gombrich
2014-10-01

E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the

treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and

classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

Fat Religion - Lynne Gerber 2021-05-14

Fat Religion: Protestant Christianity and the Construction of the Fat Body explores how Protestant Christianity contributes to the moralization of fat bodies and the proliferation of practices to conform fat bodies to thin ideals. Focusing primarily on Protestant Christianity and evangelicalism, this book brings together essays that emphasize the role of religion in the ways that we imagine, talk about, and moralize fat bodies. Contributors explore how ideas about indulgence and restraint, sin and obedience are used to create and maintain fear of, and animosity towards, fat bodies. They also examine how religious ideology and language shape attitudes towards bodily control that not only permeate Christian weight-loss programs, but are fundamental to secular diet culture as well. Furthermore, the contributors investigate how

religious institutions themselves attempt to define and control the proper religious body. This volume contributes to the burgeoning field of critical fat studies by underscoring the significance of religion in the formation of historical and contemporary meanings and perceptions of fat bodies, including its moralizing role in justifying weight bias, prejudice, and privilege. The chapters in this book were originally published as a special issue of *Fat Studies: An Interdisciplinary Journal of Body Weight and Society*.

Twelve World Religions - K. Ravindran

2022-09-03

With the proliferating electronic media platforms of social networking sites and the spread of false/doctored news, many lay people get wrong notions on religions/faiths. This leads to religious rivalries, mutual suspicions, hate speeches and increasing religious intolerance, leading to violence taking root in certain areas of the world. It is therefore quite essential for lay people to be familiar with the basic essence and congruence of religions. *Twelve World Religions* is an attempt to educate the lay public about this. It gives a kaleidoscopic view of the 12 major religions of the world in a structured,

uniform pattern to include the founder of the religion, historical background, concept, beliefs, core teachings, temples/shrines, methods of worship, rituals, societal restrictions, priesthood, proselytization, eschatology, religious texts and scriptures, development of the religion through centuries, interaction/conflict with other religions, the spread of the religion, demographics, diaspora, symbols, etc. The language has been kept simple without any profound philosophy or pedagogy, keeping a lay reader in mind. India's ancient Vedas stated that there are many different approaches to God and all are valid. The modern Indian saint Sri Ramakrishna also stated, "As many paths, so many faiths." This book is an attempt towards it. *A Spectator's Guide to World Religions* - John Dickson 2008-04-18

The world is a very religious place. Wherever you look, people are worshipping, praying, believing, following, even dying for their faith. But are all faiths the same? Do they all call on

the same God using different names? Are their beliefs and practices simply cultural expressions of the same spiritual longings? In this timely book, John Dickson presents each of the world's major religions in its best light. He carefully outlines the history, belief systems and spiritual practices of Hinduism, Buddhism, Judaism, Christianity and Islam so that the interested 'spectator' can explore their similarities and differences. For sceptics, believers and students of religion the book provides a fair and friendly introduction to this ultimate subject.

(e.g. Santi Asoke), Sikhism, Japanese religion (e.g. Omoto, Reiki), Chinese religion and philosophy (e.g. Feng Shui), Zoroastrianism, primal or pagan religion (e.g. Shamanism) and western culture (e.g. Scientology, Psychedelic spirituality).

Faith and Reason - Richard Swinburne
2005-09-29

Richard Swinburne presents a new edition of the final volume of his acclaimed trilogy on philosophical theology. Faith and Reason is a self-standing examination of the implications for religious faith of Swinburne's famous arguments about the coherence of theism and the existence of God. By practising a particular religion, a person seeks to achieve some or all of three goals - that he worships and obeys God, gains salvation for himself, and helps others to attain their salvation. But not all religions commend worship, and different religions have different conceptions of salvation. Faced with these differences, Richard Swinburne argues that we

should practice that religion which has the best goals and is more probably true than the creeds of other religions. He proposes criteria by which to determine the probabilities of different religious creeds, and he argues that, while requiring total commitment, faith does not demand fully convinced belief. While maintaining the same structure and conclusions as the original classic, this second edition has been substantially rewritten, both in order to relate its ideas more closely to those of classical theologians and philosophers and to respond to more recent views. In particular he discusses, and ultimately rejects, the view of Alvin Plantinga that the 'warrant' of a belief depends on the process which produced it, and John Hick's contention that all religions offer valid paths to salvation.

Christianity Encountering World Religions (Encountering Mission) - Terry C. Muck

2009-04-01

The current religious climate poses unique challenges to those engaged in mission. Thus the authors of this book propose a new, yet very biblical, model for interacting with people of other faiths. They term this model giftive

mission, as it is based on the metaphor of free gift. We bear the greatest gift possible--the gospel message. Adopting this perspective not only has the potential for greater missionary success but also enables us to more closely imitate God's gracious activity in the world. The core of the book explores eleven practices that characterize giftive mission. Each practice is illustrated through the story of a figure from mission history who embodied that practice. Further discussion shows how to incorporate these practices in specific mission settings.
